Asset coverage, per \$1,000 of short-term borrowings (11)	\$ 4,665	—	\$ 4,991
Asset coverage ratio of short-term borrowings (11)	467%	—	499%

(1) Information presented relates to a share of common stock outstanding for the entire period.

(2) Represents the premium on the initial public offering of \$1.17 per share, less the underwriting discounts and offering costs of \$1.16 per share.

(3) The per common share data for the periods ended February 29, 2008, November 30, 2006, 2005 and 2004, do not reflect the change in estimate of investment income

(4) Not annualized for periods less than a year. Total investment return is calculated assuming a purchase of common stock at net asset value per share as

(5) Total investment return is calculated assuming a purchase of common stock at the initial public offering price.

(6) Annualized for periods less than one full year.

(7) For the three months ended February 29, 2008, the Company accrued \$1,255,578 in deferred income tax benefit, net. For the three months ended February 28, 2007, the Company accrued \$795,916 in deferred income tax expense. For the year ended November 30, 2007, the Company accrued \$261,667 in current income tax benefit and \$3,932,763 in deferred income tax expense.

(8) For the three months ended February 29, 2008, the Company reduced its provision for capital gains incentive fees by \$279,665. For the three months ended February 28, 2007, the Company accrued \$487,627 in capital gains incentive fees. For the year ended November 30, 2007, the Company accrued \$307,611 as a provision for capital gains incentive fees.

(9) The ratio excludes the impact of current and deferred income taxes.

(10) The ratio excludes the impact of capital gain incentive fees.

(11) Represents value of total assets less all liabilities and indebtedness not represented by short-term borrowings at the end of the period divided by short-term borrowings outstanding at the end of the period.

See accompanying Notes to the Financial Statements.

TORTOISE CAPITAL RESOURCES CORPORATION
NOTES TO FINANCIAL STATEMENTS
(Unaudited)
FEBRUARY 29, 2008

1. Organization

Tortoise Capital Resources Corporation (the "Company") was organized as a Maryland corporation on September 8, 2005, and is a non-diversified closed-end management investment company focused on the U.S. energy infrastructure sector. The Company invests primarily in privately held and micro-cap public companies operating in the midstream and downstream segments, and to a lesser extent the upstream segment, of the energy infrastructure sector. The Company is regulated as a business development company ("BDC") under the Investment Company Act of 1940, as amended (the "1940 Act"). The Company does not report results of operations internally on an operating segment basis. The Company is externally managed by Tortoise Capital Advisors, L.L.C. (the "Adviser"), an investment adviser specializing in the energy sector. The Company's shares are listed on the New York Stock Exchange under the symbol "TTO."

2. Significant Accounting Policies

A. *Use of Estimates* – The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, recognition of distribution income and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

B. *Investment Valuation* – The Company invests primarily in illiquid securities including debt and equity securities of privately-held companies. The investments generally are subject to restrictions on resale, have no established trading market and are fair valued on a quarterly basis. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Because of the inherent uncertainty of valuation, the fair values of such investments, which are determined in accordance with procedures approved by the Company's Board of Directors, may differ materially from the values that would have been used had a ready market existed for the investments. The Company's Board of Directors may consider other methods of valuing investments as appropriate and in conformity with U.S. generally accepted accounting principles.

The Board of Directors undertakes a multi-step valuation process each quarter in connection with determining the fair value of investments:

- The quarterly valuation process begins with each portfolio company or investment being initially valued by the investment professionals of the Adviser. As part of this process, materials are prepared containing their supporting analysis;
- The Investment Committee of the Adviser reviews the preliminary valuations, and the investment professionals of the Adviser consider and assess, as appropriate, any changes that may be required to the preliminary valuations to address any comments provided by the Investment Committee of the Adviser;
- The Board of Directors assesses the valuations and ultimately determines the fair value of each investment in the Company's portfolio in good faith and
- An independent valuation firm engaged by the Board of Directors to provide third-party valuation consulting services performs certain limited procedures that the Board of Directors has identified and asked it to perform on a selection of these valuations as determined by our Board of Directors.

The types of factors that may be considered in fair value pricing of an investment include the nature and realizable value of any collateral, the portfolio company's earnings and ability to make payments, the markets in which the portfolio company does business, comparison to publicly traded companies, discounted cash flow and other relevant

factors.

The fair value methodology begins with determining the enterprise value of the portfolio company that issued the security being fair valued. For any one company, enterprise value may best be expressed as a range of fair values, from which a single estimate of fair value will be derived. If the portfolio company has adequate enterprise value to support the repayment of debt, the fair value of the loan or debt security will normally correspond to cost unless the portfolio company's condition or other market factors lead to a determination of fair value at a different amount. The fair value of equity interests in portfolio companies is determined based on various factors, including the enterprise value remaining for equity holders after the repayment of debt and other preference capital, and other pertinent factors such as recent offers to purchase a company, recent transactions involving the purchase or sale of the equity securities of the company, or other liquidation events. The determined equity values will generally be discounted when holding a minority position, if there are restrictions on resale, if there are specific concerns about the receptivity of the capital markets to a specific company at a certain time, or other comparable factors exist.

For equity and equity-related securities that are freely tradable and listed on a securities exchange, the Company fair values those securities at their last sale price on that exchange on the valuation date. If the security is listed on more than one exchange, the Company will use the price of the exchange that it generally considers to be the principal exchange on which the security is traded. Securities listed on the NASDAQ will be valued at the NASDAQ Official Closing Price, which may not necessarily represent the last sale price. If there has been no sale on such exchange or NASDAQ on such day, the security will be valued at the mean between bid and ask price on such day.

The Company generally values short-term debt securities at prices based on market quotations for such securities, except those securities purchased with 60 days or less to maturity are fair valued on the basis of amortized cost, which approximates market value.

Effective December 1, 2007, the Company adopted Statement of Financial Accounting Standards (SFAS) No. 157, *Fair Value Measurements*. SFAS 157 defines fair value, establishes a framework for measuring fair value in accordance with U.S. generally accepted accounting principles and expands disclosures about fair value measurements. SFAS 157 is applicable in conjunction with other accounting pronouncements that require or permit fair value measurements, but does not expand the use of fair value to any new circumstances. More specifically, SFAS 157 emphasizes that fair value is a market based measurement, not an entity-specific measurement, and sets out a fair value hierarchy with the highest priority given to quoted prices in active markets and the lowest priority to unobservable inputs. The Company's adoption of SFAS 157 did not have a material impact on its financial condition or results of operations.

C. Interest and Fee Income – Interest income is recorded on the accrual basis to the extent that such amounts are expected to be collected. When investing in instruments with an original issue discount or payment-in-kind interest (in which case the Company chooses payment-in-kind in lieu of cash), the Company will accrue interest income during the life of the investment, even though the Company will not necessarily be receiving cash as the interest is accrued. Fee income will include fees, if any, for due diligence, structuring, commitment and facility fees, transaction services, consulting services and management services rendered to portfolio companies and other third parties. Commitment and facility fees generally are recognized as income over the life of the underlying loan, whereas due diligence, structuring, transaction service, consulting and management service fees generally are recognized as income when services are rendered. For the three months ended February 29, 2008 and the three months ended February 28, 2007, the Company received no fee income.

D. Security Transactions and Investment Income – Security transactions are accounted for on the date the securities are purchased or sold (trade date). Realized gains and losses are reported on an identified cost basis. Distributions received from the Company's investments in limited partnerships and limited liability companies generally are comprised of ordinary income, capital gains and return of capital. The Company records investment income and return of capital based on estimates made at the time such distributions are received. Such estimates are based on information available from each company and/or other industry sources. These estimates may subsequently be revised based on information received from the entity after their tax reporting periods are concluded, as the actual character of these distributions are not known until after the fiscal year-end of the Company.

For the period from December 1, 2007 through February 29, 2008, the Company estimated the allocation of investment income and return of capital for the distributions received from its portfolio companies within the Statement of Operations. For this period, the Company has estimated these distributions to be approximately 29 percent investment income and 71 percent return of capital.

E. Distributions to Stockholders – The amount of any quarterly distributions will be determined by the Board of Directors. Distributions to stockholders are recorded on the ex-dividend date. The character of distributions made during the year may differ from their ultimate characterization for federal income tax purposes. For the year ended November 30, 2007 the Company's distributions, for book and tax purposes, were comprised of 100 percent return of capital. For the period ended February 29, 2008, the Company's distributions, for book purposes, were comprised of 100 percent return of capital. The tax character of distributions paid for the year ended November 30, 2008 will be determined subsequent to year end.

F. Federal and State Income Taxation – The Company, as a corporation, is obligated to pay federal and state income tax on its taxable income. Currently, the maximum regular federal income tax rate for a corporation is 35 percent; however, the Company anticipates a marginal effective tax rate of 34 percent due to expectations of the level of taxable income relative to the federal graduated tax rates, including the tax rate anticipated when temporary differences reverse. The Company may be subject to a 20 percent federal alternative minimum tax on its federal alternative minimum taxable income to the extent that its alternative minimum tax exceeds its regular federal income tax.

On December 1, 2007, the Company adopted the provisions of the Financial Accounting Standards Board Interpretation No. 48 ("FIN 48"), *Accounting for Uncertainty in Income Taxes*. FIN 48 provides guidance for how uncertain tax positions should be recognized, measured, presented and disclosed in the financial statements. The Company has analyzed the tax positions taken and has concluded that it has no uncertain tax positions as described in FIN 48. All of the Company's tax years remain open and subject to examination for both federal and state purposes. The Company's policy is to record interest and penalties on uncertain tax positions, if any, as part of tax expense.

The Company invests its assets primarily in limited partnerships or limited liability companies which are treated as partnerships for federal and state income tax purposes. As a limited partner, the Company reports its allocable share of taxable income in computing its own taxable income. The Company's tax expense or benefit will be included in the Statement of Operations based on the component of income or gains (losses) to which such expense or benefit relates. Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes.

G. Organization Expenses and Offering Costs - The Company is responsible for paying all organization and offering expenses. Offering costs related to the issuance of common stock are charged to additional paid-in capital when the stock is issued. Offering costs paid by the Company related to a resale registration statement covering securities issued in private placements prior to the Company's initial public offering amounting to \$90,292 were charged as a reduction of paid-in capital and \$28,454 were capitalized and amortized over a one-year period following July 26, 2007, the effective date of the registration statement.

H. Indemnifications - Under the Company's organizational documents, its officers and directors are indemnified against certain liabilities arising out of the performance of their duties to the Company. In addition, in the normal course of business, the Company may enter into contracts that provide general indemnification to other parties. The Company's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Company that have not yet occurred, and may not occur. However, the Company has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

3. Concentration of Risk

The Company's goal is to provide stockholders with a high level of total return with an emphasis on distributions and distribution growth. The Company invests primarily in privately-held and micro-cap public companies focused on the midstream and downstream segments, and to a lesser extent the upstream segment, of the U.S. energy infrastructure sector. The Company may, for defensive purposes, temporarily invest all or a significant portion of its assets in investment grade securities, short-term debt securities and cash or cash equivalents. To the extent the Company uses this strategy it may not achieve its investment objective.

4. Agreements

The Company has entered into an Investment Advisory Agreement with Tortoise Capital Advisors, L.L.C.. Under the terms of the agreement, the Adviser is paid a fee consisting of a base management fee and an incentive fee.

The base management fee is 0.375 percent (1.5 percent annualized) of the Company's average monthly Managed Assets, calculated and paid quarterly in arrears within thirty days of the end of each fiscal quarter. The term "Managed Assets" as used in the calculation of the management fee means total assets (including any assets purchased with or attributable to borrowed funds) minus accrued liabilities other than (1) deferred taxes, (2) debt entered into for the purpose of leverage and (3) the aggregate liquidation preference of any outstanding preferred shares. The base management fee for any partial quarter is appropriately prorated.

On November 30, 2007, the Company entered into an Expense Reimbursement and Partial Fee Waiver Agreement with the Adviser. Under the terms of the agreement, the Adviser will reimburse the Company for certain expenses incurred beginning September 1, 2007 and ending December 31, 2008 in an amount equal to an annual rate of 0.25 percent of the Company's average monthly Managed Assets. During the three months ended February 29, 2008, the Adviser reimbursed the Company \$91,647.

11

The incentive fee consists of two parts. The first part, the investment income fee, is equal to 15 percent of the excess, if any, of the Company's Net Investment Income for the fiscal quarter over a quarterly hurdle rate equal to 2 percent (8 percent annualized), and multiplied, in either case, by the Company's average monthly Net Assets for the quarter. "Net Assets" means the Managed Assets less deferred taxes, debt entered into for the purposes of leverage and the aggregate liquidation preference of any outstanding preferred shares. "Net Investment Income" means interest income (including accrued interest that we have not yet received in cash), dividend and distribution income from equity investments (but excluding that portion of cash distributions that are treated as a return of capital), and any other income (including any fees such as commitment, origination, syndication, structuring, diligence, monitoring, and consulting fees or other fees that the Company is entitled to receive from portfolio companies) accrued during the fiscal quarter, minus the Company's operating expenses for such quarter (including the base management fee, expense reimbursements payable pursuant to the Investment Advisory Agreement, any interest expense, any accrued income taxes related to net investment income, and distributions paid on issued and outstanding preferred stock, if any, but excluding the incentive fee payable). Net Investment Income also includes, in the case of investments with a deferred interest or income feature (such as original issue discount, debt or equity instruments with a payment-in-kind feature, and zero coupon securities), accrued income that the Company has not yet received in cash. Net Investment Income does not include any realized capital gains, realized capital losses, or unrealized capital appreciation or depreciation. The investment income fee is calculated and payable quarterly in arrears within thirty (30) days of the end of each fiscal quarter. The investment income fee calculation is adjusted appropriately on the basis of the number of calendar days in the first fiscal quarter the fee accrues or the fiscal quarter during which the Agreement is in effect in the event of termination of the Agreement during any fiscal quarter. During the three months ended February 29, 2008, the Company accrued no investment income fees.

The second part of the incentive fee payable to the Adviser, the capital gains fee, is equal to: (A) 15 percent of (i) the Company's net realized capital gains (realized capital gains less realized capital losses) on a cumulative basis from December 8, 2005 to the end of each fiscal year, less (ii) any unrealized capital depreciation at the end of such fiscal year, less (B) the aggregate amount of all capital gains fees paid to the Adviser in prior fiscal years. The calculation of the capital gains fee includes any capital gains that result from the cash distributions that are treated as a return of capital (subject to the Expense Reimbursement and Partial Fee Waiver agreement described below). In that regard, any such return of capital will be treated as a decrease in the cost basis of an investment for purposes of calculating the capital gains fee. The capital gains fee is calculated and payable annually within thirty (30) days of the end of each fiscal year. Realized capital gains on a security will be calculated as the excess of the net amount realized from the sale or other disposition of such security over the adjusted cost basis for the security. Realized capital losses on a security will be calculated as the amount by which the net amount realized from the sale or other disposition of such security is less than the adjusted cost basis of such security. Unrealized capital depreciation on a security will be calculated as the amount by which the Company's adjusted cost basis of such security exceeds the fair value of such security at the end of a fiscal year. The provision for capital gains incentive fees is a result of the increase or decrease in the fair value of investments. Pursuant to the Investment Advisory Agreement, the capital gains incentive fee is paid annually only if there are realization events and only if the calculation defined in the agreement results in an amount due. The Adviser agreed to use at least 25 percent of any capital gains fee received on or prior to December 8, 2007 to purchase the Company's common stock in the open market; however as of November 30, 2007, no annual amount was required to be paid for capital gains incentive fees. In the event the Investment Advisory Agreement is terminated, the capital gains fee calculation shall be undertaken as of, and any resulting capital gains fee shall be paid within thirty (30) days of the date of termination. The Adviser may, from time to time, waive or defer all or any part of the compensation described in the Investment Advisory Agreement.

Under the terms of the Expense Reimbursement and Partial Fee Waiver Agreement, the Adviser terminated its right to receive the capital gains incentive fee as described above, to the extent such fee would be due as to that portion of any scheduled periodic distributions made possible by the normally recurring cash flow from the operations of portfolio companies ("Expected Distributions") that are characterized by the Company as return of capital for book purposes. This does not apply to any portion of any distribution from a portfolio company that is not an Expected Distribution. As of February 29, 2008, the Adviser waived \$1,088,510 in capital gains incentive fees as a result of Expected Distributions received from portfolio companies which were characterized as return of capital for book purposes. For the three months ended February 29, 2008, the Company reduced the capital gains incentive fee payable by \$279,665 as a result of the decrease in the fair value of investments during the quarter.

The Company has engaged U.S. Bancorp Fund Services, LLC to serve as the Company's fund accounting services provider. The Company pays the provider a monthly fee computed at an annual rate of \$24,000 on the first \$50,000,000 of the Company's Net Assets, 0.0125 percent on the next \$200,000,000 of Net Assets and 0.0075 percent on the balance of the Company's Net Assets.

12

The Adviser has been engaged as the Company's administrator. The Company pays the administrator a fee equal to an annual rate of 0.07 percent of aggregate average daily Managed Assets up to and including \$150,000,000, 0.06 percent of aggregate average daily Managed Assets on the next \$100,000,000, 0.05 percent of aggregate average daily Managed Assets on the next \$250,000,000, and 0.02 percent on the balance. This fee is calculated and accrued daily and paid quarterly in arrears.

Computershare Trust Company, N.A. serves as the Company's transfer agent and agent for the automatic dividend reinvestment plan. Its affiliate, Computershare Inc., serves as the Company's dividend paying agent.

U.S. Bank, N.A. serves as the Company's custodian. The Company pays the custodian a monthly fee computed at an annual rate of 0.015 percent on the first \$200,000,000 of the Company's portfolio assets and 0.01 percent on the balance of the Company's portfolio assets, subject to a minimum annual fee of \$4,800.

5. Income Taxes

Deferred income taxes reflect the net tax effect of temporary differences between the carrying amount of assets and liabilities for financial reporting and tax purposes. Components of the Company's deferred tax assets and liabilities as of February 29, 2008, and November 30, 2007 are as follows:

	February 29, 2008	November 30, 2007
Deferred tax assets:		
Organization costs	\$ 28,717	\$ 29,280
Capital gain incentive fees	10,620	116,892
Net operating loss carry forwards	1,930,675	1,397,684
	<u>1,970,012</u>	<u>1,543,856</u>
Deferred tax liabilities:		
Net unrealized gains on investment securities	2,828,356	4,138,485
Basis reduction of investment in MLPs	2,068,997	1,588,290
	<u>4,897,353</u>	<u>5,726,775</u>
Total net deferred tax liability	<u>\$2,927,341</u>	<u>\$4,182,919</u>

At February 29, 2008, a valuation allowance was not recorded because the Company believes it is more likely than not that there is an ability to utilize its deferred tax assets.

Total income tax expense or benefit differs from the amount computed by applying the federal statutory income tax rate of 34 percent to net investment income (loss) and realized and unrealized gains (losses) on investments before taxes as follows:

	For the three months ended February 29, 2008	For the three months ended February 28, 2007
Application of statutory income tax rate	\$(1,123,412)	\$ 412,320
State income taxes, net of federal taxes	(132,166)	48,508
Preferred distributions	—	86,925
Loss on redemption of preferred stock	—	248,163
Total tax expense (benefit)	<u>\$(1,255,578)</u>	<u>\$ 795,916</u>

For the period ended February 29, 2008, the components of income tax benefit include deferred federal and state tax benefit (net of federal effect) of \$1,123,412 and \$132,166 respectively. For the period ended February 28, 2007, the components of income tax expense include deferred federal and state income taxes (net of federal benefit) of \$747,408 and \$48,508 respectively. As of November 30, 2007, the Company had a net operating loss of approximately \$3,678,000. This net operating loss can be carried forward and will expire in the year ending November 30, 2027. The amount of the deferred tax asset for net operating losses at February 29, 2008 also includes an amount for the year-to-date operations for the year ending November 30, 2008.

As of February 29, 2008, the aggregate cost of securities for Federal income tax purposes was \$142,345,393. At February 29, 2008, the aggregate gross unrealized appreciation for all securities in which there was an excess of fair value over tax cost was \$14,572,612, the aggregate gross unrealized depreciation for all securities in which there was an excess of tax cost over fair value was \$1,684,845 and the net unrealized appreciation was \$12,887,767.

13

As of February 28, 2007, the aggregate cost of securities for Federal income tax purposes was \$119,987,109. At February 28, 2007, the aggregate gross unrealized appreciation for all securities in which there was an excess of fair value over tax cost was \$4,272,931, the aggregate gross unrealized depreciation for all securities in which there was an excess of tax cost over fair value was \$0 and the net unrealized appreciation was \$4,272,931.

6. Fair Value of Financial Instruments

Various inputs are used in determining the fair value of the Company's investments. These inputs are summarized in the three broad levels listed below:

- Level 1 – quoted prices in active markets for identical investments
- Level 2 – other significant observable inputs (including quoted prices for similar investments, market corroborated inputs, etc.)
- Level 3 – significant unobservable inputs (including the Company's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The following table provides the fair value measurements of applicable Company assets and liabilities by level within the fair value hierarchy as of February 29, 2008. These assets are measured on a recurring basis.

Description	Fair Value at February 29, 2008	Fair Value Measurements at Reporting Date Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments	\$155,233,160	\$21,757,404	\$ —	\$133,475,756
				Fair Value Measurements Using Significant Unobservable Inputs (Level 3)
				Investments
Fair value at November 30, 2007				\$131,513,004
Total gains (realized or unrealized)				
included in net decrease in net assets applicable to common stockholders				1,454,924
Purchases, issuances, and settlements				2,001,241
Return of capital adjustments impacting cost basis of securities				(1,493,413)
Transfers in (out) of Level 3				—
Fair value at February 29, 2008				<u>\$133,475,756</u>

14

7. Restricted Securities

Certain of the Company's investments are restricted and are valued as determined in accordance with procedures established by the Board of Directors and more fully described in Note 2. The tables below show the equity interest, number of units or principal amount, the acquisition date(s), acquisition cost (excluding return of capital adjustments), fair value per unit of such securities and fair value as percent of net assets applicable to common stockholders as of February 29, 2008 and November 30, 2007, respectively.

February 29, 2008		Equity Interest, Units or Principal Amount	Acquisition Date(s)	Acquisition Cost	Fair Value Per Unit	Fair Value as Percent of Net Assets
Abraxas Energy Partners, L.P.	Common Units	450,181	5/25/07	\$7,500,015	\$16.78	6.4%
High Sierra Energy, LP	Common Units	999,614	11/2/06, 6/15/07	24,828,836	27.29	23.2
High Sierra Energy GP, LLC	Equity Interest	2.37%	11/2/06, 5/1/07	2,006,732	N/A	2.4
International Resource Partners LP	Class A Common Units	500,000	6/12/07	10,000,000	18.12	7.7
LONESTAR Midstream Partners, LP	Class A Common Units	1,207,208	7/27/07, 9/17/07, 12/17/07	23,418,198	18.94	19.4
LSMP GP, LP	GP LP Units	180	7/27/07, 9/17/07	679,482	4,740.32	0.7
Millennium Midstream Partners, LP	Class A Common Units	875,000	12/28/06	17,455,647	17.79	13.2

8. Investments in Affiliates and Control Entities

Investments representing 5 percent or more of the outstanding voting securities of a portfolio company result in that company being considered an affiliated company, as defined in the 1940 Act. Investments representing 25 percent or more of the outstanding voting securities of a portfolio company result in that company being considered a control company, as defined in the 1940 Act. The aggregate fair value of all securities of affiliates and controlled entities held by the Company as of February 29, 2008 amounted to \$123,074,414 representing 104.6 percent of net assets applicable to common stockholders. The aggregate fair value of all securities of affiliates and controlled

entities held by the Company as of November 30, 2007 amounted to \$121,300,179 representing 99.5 percent of net assets applicable to common stockholders. A summary of affiliated transactions for each company which is or was an affiliate or controlled entity at February 29, 2008 or during the three months then ended and at November 30, 2007 or during the year then ended is as follows:

	Units/ Equity Interest/Principal Balance 11/30/07	Gross Additions	Gross Reductions	Gross Distributions Received	February 29, 2008

9. Investment Transactions

For the three months ended February 29, 2008, the Company purchased (at cost) securities in the amount of \$2,001,241 and sold no securities (excluding short-term debt securities).

10. Credit Facility

On April 25, 2007, the Company entered into a secured committed credit facility with U.S. Bank, N.A. as a lender, agent and lead arranger, and Bank of Oklahoma, N.A. providing for a revolving credit facility up to \$20,000,000. On July 18, 2007, the maximum principal amount of the revolving credit facility was increased to \$35,000,000. On September 28, 2007 the maximum principal amount was increased to \$40,000,000 and the facility was amended to include First National Bank of Kansas as a lender. The credit facility matures on March 21, 2008. The revolving credit facility has a variable annual interest rate equal to the one-month LIBOR plus 1.75 percent, a non-usage fee equal to an annual rate of 0.375 percent of the difference between the total credit facility commitment and the average outstanding balance at the end of each day for the preceding fiscal quarter, and is secured with all assets of the Company. The non-usage fee was not applicable during a defined 120 day "resting period" following the initial public offering. The credit facility contains a covenant precluding the Company from incurring additional debt.

For the three months ended February 29, 2008, the average principal balance and interest rate for the period during which the credit facility was utilized were \$33,087,912 and 5.80 percent, respectively. As of February 29, 2008, the principal balance outstanding was \$32,100,000 at a rate of 4.86 percent.

11. Preferred Stock

On December 22, 2006, the Company issued 466,666 shares of Series A Redeemable Preferred Stock and 70,000 warrants to purchase common stock at \$15.00 per share. On December 26, 2006, the Company issued an additional 766,667 shares of Series A Redeemable Preferred Stock and 115,000 warrants at \$15.00 per share. Holders of Series A Redeemable Preferred Stock received cash distributions (as declared by the Board of Directors and from funds legally available for distribution) at the annual rate of 10 percent of the original issue price. On February 7, 2007, the Company redeemed all of the preferred stock at \$15.00 per share plus a 2 percent redemption premium, for a total redemption price of \$18,870,000. After attributing \$283,050 in value to the warrants, the redemption premium of \$370,000 and \$78,663 in issuance costs, the Company recognized a loss on redemption of the preferred stock of \$731,713. In addition, distributions in the amount of \$228,750 were paid to the preferred stockholders.

12. Common Stock

The Company has 100,000,000 shares authorized and 8,858,348 shares outstanding at February 29, 2008.

Shares at November 30, 2006	3,088,596
Shares sold through initial public offering	5,740,000
Shares issued through reinvestment of distributions	18,222
Shares issued upon exercise of warrants	<u>11,350</u>
Shares at November 30, 2007	8,858,168
Shares issued upon exercise of warrants	<u>180</u>
Shares at February 29, 2008	<u>8,858,348</u>

13. Warrants

At February 29, 2008, there were 945,594 warrants issued and outstanding. The warrants became exercisable on February 7, 2007 (the closing date of the Company's initial public offering of common shares), subject to a lock-up period with respect to the underlying common shares. Each warrant entitles the holder to purchase one common share at the exercise price of \$15.00 per common share. Warrants were issued as separate instruments from common shares and are permitted to be transferred independently from the common shares. The warrants have no voting rights and the common shares underlying the unexercised warrants will have no voting rights until such common shares are received upon exercise of the warrants. All warrants will expire on February 6, 2013.

Warrants outstanding at November 30, 2006	772,124
Warrants issued in December 2006	185,000
Warrants exercised	<u>(11,350)</u>
Warrants outstanding at November 30, 2007	945,774
Warrants exercised	<u>(180)</u>
Warrants outstanding at February 29, 2008	<u>945,594</u>

14. Earnings Per Share

The following table sets forth the computation of basic and diluted earnings per share:

	For the three months ended February 29, 2008	For the three months ended February 28, 2007
Net increase (decrease) in net assets applicable to common stockholders resulting from operations	\$(2,048,575)	\$416,790
Basic weighted average shares	8,858,212	4,491,707
Average warrants outstanding (1)	—	—
Diluted weighted average shares	8,858,212	4,491,707
Basic and diluted net increase (decrease) in net assets applicable to common stockholders resulting from operations per common share	\$(0.23)	\$0.09

(1) Warrants to purchase shares of common stock at \$15.00 per share were outstanding during the periods reflected in the table above, but were not included in the computation of diluted earnings per share because the warrants' exercise price was greater than the average market value (or net asset value prior to our initial public offering) of the common shares, and therefore, the effect would be anti-dilutive.

15. Subsequent Events

On March 3, 2008, the Company paid a distribution in the amount of \$0.25 per common share, for a total of \$2,214,587. Of this total, the dividend reinvestment amounted to \$218,488.

On March 20, 2008, the Company secured an extension to its revolving credit facility providing for a maximum principal amount up to \$40,000,000. On March 28, 2008, the Company amended the credit agreement to include Wells Fargo as a lender and to increase the total credit facility to \$50,000,000. The revolving credit facility has a variable annual interest rate equal to the one-month LIBOR plus 1.75 percent and a quarterly non-usage fee equal to an annual rate of 0.375 percent of the difference between the total credit facility commitment and the average outstanding balance at the end of each day. U.S. Bank National Association serves as a lender and the lending syndicate agent on

ADDITIONAL INFORMATION

(Unaudited)

Director and Officer Compensation

The Company does not compensate any of its directors who are interested persons or any of its officers. For the three months ended February 29, 2008, the aggregate compensation paid by the Company to the independent directors was \$54,000. The Company did not pay any special compensation to any of its directors or officers.

Proxy Voting Policies

A description of the policies and procedures that the Company uses to determine how to vote proxies relating to portfolio securities owned by the Company is available to stockholders (i) without charge, upon request by calling the Company at (913) 981-1020 or toll-free at (866) 362-9331 and on the Company's Web site at www.tortoiseadvisors.com/tto.cfm; and (ii) on the SEC's Web site at www.sec.gov.

Privacy Policy

In order to conduct its business, the Company collects and maintains certain nonpublic personal information about its investors. This information includes the stockholder's address, tax identification or Social Security number, share balances, and distribution elections.

The Company does not disclose any nonpublic personal information about the Company's investors to third parties unless necessary to process a transaction, service an account, or as otherwise permitted by law.

To protect your personal information internally, the Company restricts access to nonpublic personal information about the Company's stockholders to those employees who need to know that information to provide services to the Company's investors. The Company also maintains certain other safeguards to protect your nonpublic personal information.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

All statements contained herein, other than historical facts, constitute "forward-looking statements." These statements may relate to, among other things, future events or our future performance or financial condition. You can identify forward-looking statements by terminology such as "may," "might," "believe," "will," "provided," "anticipate," "future," "could," "growth," "plan," "intend," "expect," "should," "would," "if," "seek," "possible," "potential," "likely" or the negative of such terms or comparable terminology. These forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by such forward-looking statements. For a discussion of factors that could cause our actual results to differ from forward-looking statements contained herein, please see the discussion under the heading "Risk Factors" in Part II, Item 1A. of this report.

We may experience fluctuations in our operating results due to a number of factors, including the return on our equity investments, the interest rates payable on our debt investments, the default rates on such investments, the level of our expenses, variations in and the timing of the recognition of realized and unrealized gains or losses, the degree to which we encounter competition in our markets and general economic conditions. As a result of these factors, results for any period should not be relied upon as being indicative of performance in future periods.

Overview

We invest in companies operating in the U.S. energy infrastructure sector, primarily in privately-held and micro-cap public companies focused on the midstream and downstream segments, and to a lesser extent the upstream segment. Our goal is to provide our stockholders with a high level of total return, with an emphasis on distributions. We target companies we believe will provide stable and growing cash flows as a result of their fee-based revenues and limited direct commodity price risk which in turn should provide our shareholders with a stable and growing distribution.

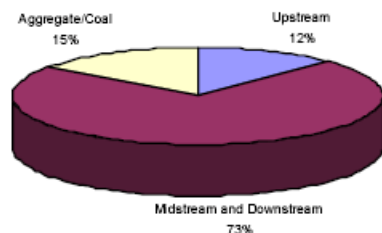

We have elected to be regulated as a BDC under the 1940 Act. We are classified as a closed-end, non-diversified management investment company under the 1940 Act. As a BDC, we are subject to numerous regulations and restrictions. Unlike most investment companies, we are, and intend to continue to be, taxed as a general business corporation under the Code.

Portfolio and Investment Activity

On December 17, 2007, we fulfilled our commitment to purchase \$1,217,160 in 60,858 additional Class A Common Units from LONESTAR Midstream Partners, LP and \$18,834 in 9 GP LP Units from LSMP GP, LP by utilizing borrowing capacity under our credit facility.

On January 10, 2008, we invested an additional \$2,000,000 in our equity interest of Mowood, LLC to fund landfill-to-gas energy projects at Mowood's subsidiary Timberline Energy LLC.

As of February 29, 2008, the fair value of our investment portfolio (excluding short-term investments) totaled \$155,110,623 including equity investments of \$144,310,623 and debt investments of \$10,800,000, across the following segments of the energy infrastructure sector:

The following table summarizes our investments as of February 29, 2008:

Name of Portfolio Company (Segment)	Nature of its Principal Business	Securities Held by Us	Amount Invested (in millions)	Fair Value (in millions)	Current Yield (1)
Abraxas Energy Partners, L.P. (Upstream)	Natural gas and oil exploitation and development in the Delaware and Gulf Coast Basins of Texas, Rockies and mid-continent region of the U.S.	Common Units	\$7.5	\$7.5	9.0%
Eagle Rock Energy Partners, L.P. (Midstream)	Gatherer and processor of natural gas in north and east Texas and Louisiana and upstream assets located in 17 states	Common Units	12.1	9.9	8.5
EV Energy Partners, L.P. (Upstream)	Acquirer, producer and developer of oil and gas properties	Common Units	7.5	6.1	7.0
High Sierra Energy, LP (Midstream)	Marketer, processor, storer and transporter of hydrocarbons with operations primarily in Colorado, Wyoming and Florida	Common Units	24.8	27.3	9.8
High Sierra Energy GP, LLC (Midstream) (2)	General Partner of High Sierra Energy, LP	GP Interest	2.0	2.8	2.2
International Resource Partners LP (Coal)	Operator of both metallurgical and steam coal mines in Central Appalachia	Class A Units	10.0	9.1	8.0
Legacy Reserves LP (Upstream)	Oil and natural gas exploitation and development in the Permian Basin	Limited Partner Units	4.5	5.6	10.6
LONESTAR Midstream Partners, LP (Midstream) (3)	Gatherer and processor of natural gas in six counties in Texas	Class A Units	23.4	22.9	8.0
LSMP GP, LP (Midstream) (3)	General Partner of LONESTAR Midstream Partners, LP	GP LP Units	0.5	0.8	1.7
Millennium Midstream Partners, LP (Midstream)	Gatherer and processor of natural gas in Texas, Louisiana and offshore Gulf of Mexico	Class A Common Units and Incentive Distribution Rights	17.5	16.0	8.5
Mowood, LLC (Downstream) (4)	Natural gas distribution in central Missouri and landfill gas to energy projects	Equity interest	3.5	5.3	10.0
		Subordinated Debt	7.1	7.1	12.0
Quest Midstream Partners, L.P. (Midstream)	Operator of natural gas gathering pipelines in the Cherokee Basin and interstate natural gas transmission pipelines in Oklahoma, Kansas and Missouri	Common Units	22.2	20.7	9.0
VantaCore Partners LP (Aggregate)	Acquirer and operator of aggregate companies, with quarry operations in Clarksville, Tennessee	Common Units and Incentive Distribution Rights	8.5	10.2	10.0
		Secured Credit Facility (5)	3.8	3.8	10.2
			\$154.9	\$155.1	

- (1) The current yield has been calculated by annualizing the most recent distribution and dividing by the amount invested in the underlying security. Actual distributions to us are based on each company's available cash flow and are subject to change.
- (2) Includes original purchase of 3 percent equity interest, sale of 0.6274 percent equity interest in July 2007 and subsequent capital calls.
- (3) Distributions are paid-in-kind.
- (4) Represents an equity distribution on the previous quarter fair value of our invested capital. We expect that, pending cash availability, such equity distributions will recur on a quarterly basis at or above such yield.
- (5) Variable interest rate.

Abraxas Energy Partners, L.P. ("Abraxas")

Abraxas was formed with Abraxas Petroleum Corp.'s long-lived, low-decline natural gas and oil reserves located in the Delaware and Gulf Coast Basins of Texas, Rocky Mountains and mid-continent region of the U.S. Abraxas Petroleum Corp. is an independent publicly-traded energy company engaged in the exploration and production of natural gas and oil in the Permian Basin of West Texas, onshore Texas Gulf Coast, mid-continent region, Rocky Mountains and the southern Powder River Basin in eastern Wyoming. Abraxas' principal office is located at 500 N. Loop 1604 East, Suite 100, San Antonio, TX 78232.

Eagle Rock Energy Partners, L.P. ("Eagle Rock Energy")

Eagle Rock Energy is a publicly traded master limited partnership with midstream assets located in Texas and Louisiana and upstream assets in seventeen states. The company conducts its operations through Eagle Rock Pipeline, L.P. Eagle Rock Energy's principal office is located at 14950 Heathrow Forest Pkwy., Suite 111, Houston, TX 77032.

EV Energy Partners, L.P. ("EV")

EV is a publicly traded master limited partnership engaged in acquiring, producing and developing oil and gas properties. EV's current properties are located in the Appalachian Basin, primarily in Ohio and West Virginia and in the Monroe Field in Northern Louisiana and Tennessee. EV's principal office is located at 1001 Fannin Street, Suite 800, Houston, TX 77002.

High Sierra Energy, LP ("High Sierra")

High Sierra is a holding company with diversified midstream energy assets focused on the processing, transportation, storage and marketing of hydrocarbons. The management team of High Sierra includes former executives and founders of midstream private and public companies focused on acquiring attractive assets at reasonable multiples. The company's purchased assets include a natural gas liquids logistics and transportation business in Colorado, natural gas gathering and processing operations in Louisiana, a natural gas storage facility in Mississippi, an ethanol terminal in Nevada, crude and natural gas liquids trucking businesses in Kansas and Colorado, a well water

processing facility in Wyoming and two asphalt processing, packaging and distribution terminals in Florida. High Sierra's principal office is located at 3773 Cherry Creek Drive North, Suite 655, Denver, CO 80209.

High Sierra Energy GP, LLC ("High Sierra GP")

High Sierra GP is the general partner of High Sierra. High Sierra GP's principal office is located at 3773 Cherry Creek Drive North, Suite 655, Denver, CO 80209.

International Resource Partners LP ("IRP")

IRP's initial acquisition of surface and underground coal mine operations in southern West Virginia is comprised of metallurgical and steam coal reserves, a coal washing and preparation plant, rail load-out facilities and a sales and marketing subsidiary. IRP's principal office is located at 725 5th Avenue, New York, NY 10022.

Legacy Reserves LP ("Legacy")

Legacy is a publicly traded master limited partnership focused on mature oil weighted properties in the Permian Basin in Western Texas that generate stable volumes of oil and natural gas with low rates of decline. Legacy focuses on the exploitation of proved developed reserves. Legacy's principal office is located at 303 West Wall, Suite 1500, Midland, TX 79701.

LONESTAR Midstream Partners, LP ("Lonestar")

Lonestar is a midstream limited partnership which provides gathering, dehydration, compression, and processing services to natural gas producers in six counties of the Barnett-Shale play. The company has the capacity to gather, compress and transport over 350,000 Mcfd through the company's gathering systems. Our President holds one of four seats on Lonestar's Board of Directors. Lonestar's principal office is located at 300 E. John Carpenter Freeway, Suite 800, Irving, TX 75062.

LSMP GP, LP ("LSMP GP")

LSMP GP indirectly owns the general partner of Lonestar. LSMP GP's principal office is located at 300 E. John Carpenter Freeway, Suite 800, Irving, TX 75062.

Millennium Midstream Partners, LP ("Millennium")

Millennium is a limited partnership focused on natural gas gathering and processing with assets in Texas, Louisiana and offshore in the Gulf of Mexico. Millennium's gathering business consists of over 500 miles of pipelines and its processing business consists of interests in six plants. Millennium's principal office is located at 10077 Grogans Mill Rd., Suite 200, The Woodlands, TX 77380.

Mowood, LLC ("Mowood")

Mowood is a holding company whose assets include Omega Pipeline, LLC ("Omega") and Timberline Energy, LLC ("Timberline"). Omega is a natural gas local distribution company located on the Fort Leonard Wood army base in southwest Missouri. Omega is in the third year of a ten-year contract with the Department of Defense pursuant to which it provides natural gas to Fort Leonard Wood. Timberline is an owner and developer of projects that convert landfill gas to energy. We own 100 percent of the ownership interests in Mowood. Mowood's principal office is located at P.O. Box 2861, Ordinance Street, Building 2570, Fort Leonard Wood, MO 65473.

Quest Midstream Partners, L.P. ("Quest")

Quest was formed by the spin-off of Quest Resource Corporation's midstream coal bed methane natural gas gathering assets in the Cherokee Basin. Quest owns more than 1,800 miles of natural gas gathering pipelines (primarily serving Quest Energy Partners, L.P., an affiliate) and over 1,100 miles of interstate natural gas transmission pipelines in Oklahoma, Kansas and Missouri. Quest's principal office is located at 210 Park Avenue, Suite 2750, Oklahoma City, OK 73102.

VantaCore Partners LP ("VantaCore")

VantaCore was formed to acquire companies in the aggregate industry and currently owns a quarry and asphalt plant in Clarksville, Tennessee. Our President holds one of four seats on Vantacore's Board of Directors. VantaCore's principal office is located at 666 Fifth Avenue, 26th Floor, New York, NY 10103.

Portfolio Company Monitoring

Our Adviser monitors each portfolio company to determine progress relative to meeting that company's business plan and to assess the company's strategic and tactical courses of action. This monitoring may be accomplished by attendance at Board of Directors meetings, the review of periodic operating reports and financial reports, an analysis of relevant reserve information and capital expenditure plans, and periodic consultations with engineers, geologists, and other experts. The performance of each portfolio company is also periodically compared to performance of similarly sized companies with comparable assets and businesses to assess performance relative to peers. Our Adviser's monitoring activities are expected to provide it with the necessary access to monitor compliance with existing covenants, to enhance our ability to make qualified valuation decisions, and to assist our evaluation of the nature of the risks involved in each individual investment. In addition, these monitoring activities should permit our Adviser to diagnose and manage the common risk factors held by our total portfolio, such as sector concentration, exposure to a single financial sponsor, or sensitivity to a particular geography.

As part of the monitoring process, our Adviser continually assesses the risk profile of each of our investments and rates them on a scale of (1) to (3) based on the following:

- (1) The portfolio company is performing at or above expectations and the trends and risk factors are generally favorable to neutral.
- (2) The portfolio company is performing below expectations and the investment's risk has increased materially since origination. The portfolio company is generally out of compliance with various covenants; however, payments are generally not more than 120 days past due.
- (3) The portfolio company is performing materially below expectations and the investment risk has substantially increased since origination. Most or all of the covenants are out of compliance and payments are substantially delinquent. Investment is not expected to provide a full repayment of the amount invested.

As of February 29, 2008, all of our portfolio companies have a rating of (1).

Results of Operations

Comparison of the Three Months Ended February 29, 2008 and February 28, 2007

Investment Income: Investment income increased \$714,045 as compared to the equivalent quarter last year. The increase is generally due to full investment of proceeds from leverage and our initial public offering, and growth in the distributions received from our portfolio companies. The weighted average yield (to cost) on our investment portfolio (excluding short-term investments) as of February 29, 2008 was 8.8 percent as compared to 9.1 percent at February 28, 2007.

Net Expenses: Net expenses decreased \$1,138,793 as compared to the equivalent quarter last year. The decrease is primarily related to a reduction in the capital gain incentive fee accrual, the expense reimbursement from the Adviser, and a decrease in leverage costs (during the equivalent quarter last year we incurred a redemption premium and issuance costs on Series A Redeemable Preferred Stock, which was utilized as bridge financing to fund portfolio investments and was fully redeemed upon completion of our initial public offering). The provision for capital gains incentive fees results from an increase or decrease in fair value and is paid annually only if there are realization events

and only if the calculation defined in the agreement results in an amount due. During the three months ended February 29, 2008, we reduced the capital gains incentive fees payable by \$279,665.

Distributable Cash Flow: Our portfolio generates cash flow to us from which we pay distributions to stockholders. When our Board of Directors determines the amount of any distribution we expect to pay our stockholders, it will review distributable cash flow ("DCF"). DCF is distributions received from investments less our total expenses. The total distributions received from our investments include the amount received by us as cash distributions from equity investments, paid-in-kind distributions, and dividend and interest payments. The total expenses include current or anticipated operating expenses, leverage costs and current income taxes on our operating income. Total expenses do not include deferred income taxes or accrued capital gain incentive fees. Distributions paid to stockholders may exceed distributable cash flow for the period.

We disclose DCF in order to provide supplemental information regarding our results of operations and to enhance our investors' overall understanding of our core financial performance and our prospects for the future. We believe that our investors benefit from seeing the results of DCF in addition to U.S. generally accepted accounting principles ("GAAP") information. This non-GAAP information facilitates management's comparison of current results with historical results of operations and with those of our peers. This information is not in accordance with, or an alternative to, GAAP and may not be comparable to similarly titled measures reported by other companies.

The following table represents DCF for the three months ended February 29, 2008. DCF comparisons to the same period last year are not considered meaningful as we had just completed our initial public offering, were not fully invested and only paid a partial quarter distribution to pre-IPO shareholders.

Distributable Cash Flow	For the three months ended February 29, 2008
Total Distributions Received from Investments	
Distributions from investments	\$ 2,620,715
Distributions paid in stock	453,520
Interest income from investments	313,409
Dividends from money market mutual funds	2,310
Other income	28,987
Total from Investments	<u>3,418,941</u>
Operating Expenses Before Leverage Costs and Current Taxes	
Advisory fees (net of expense reimbursement by Adviser)	493,606
Other operating expenses (excluding capital gain incentive fees)	250,281
Total Operating Expenses	<u>743,887</u>
Distributable cash flow before leverage costs and current taxes	2,675,054
Leverage Costs	497,904
Distributable Cash Flow	<u>\$ 2,177,150</u>
DCF/GAAP Reconciliation	
Distributable Cash Flow	\$ 2,177,150
Adjustments to reconcile to Net Investment Income, before Income Taxes	
Distributions paid in stock	(453,520)
Return of capital on distributions received from equity investments	(1,859,741)
Capital gain incentive fees	279,665
Net Investment Income, before Income Taxes	<u>\$ 143,554</u>

Distributions: The following table sets forth distributions for the three months ended February 29, 2008. Distribution comparisons to the same period last year are not considered meaningful as we had just completed our initial public offering, were not fully invested and only paid a partial quarter distribution to pre-IPO shareholders.

<u>Record Date</u>	<u>Payment Date</u>	<u>Amount</u>
February 21, 2008	March 3, 2008	\$0.25

Net Investment Income (Loss): Net investment income for the three months ended February 29, 2008 was \$89,003 as compared to net investment loss of \$1,394,844 for the equivalent period last year. The increase in net investment income is primarily related to the decrease in net expenses described above.

Net Unrealized Gain (Loss): We recognized \$2,137,578 in net unrealized depreciation (after deferred taxes) as compared to \$1,811,634 in net unrealized appreciation (after deferred taxes) during the equivalent quarter last year.

Recent Developments

On March 3, 2008, we paid a distribution in the amount of \$0.25 per common share, for a total of \$2,214,587. Of this total, the dividend reinvestment amounted to \$218,488.

On March 20, 2008, the Company secured an extension to its revolving credit facility providing for a maximum principal amount up to \$40,000,000. On March 28, 2008, the Company amended the credit agreement to include Wells Fargo as a lender and to increase the total credit facility to \$50,000,000. The revolving credit facility has a variable annual interest rate equal to the one-month LIBOR plus 1.75 percent and a quarterly non-usage fee equal to an annual rate of 0.375 percent of the difference between the total credit facility commitment and the average outstanding balance at the end of each day. U.S. Bank National Association serves as a lender and the lending syndicate agent on behalf of other lenders participating in the credit facility. The amended credit facility terminates on March 20, 2009.

In March 2008, we received Board of Directors observation rights for Quest Midstream Partners, L.P.

On April 2, 2008, we purchased an additional \$1,500,000 in Class A Common Units from LONESTAR Midstream Partners, LP and GP LP Units from LSMP GP, LP.

Liquidity and Capital Resources

We expect to raise additional capital to support our future growth through equity offerings, rights offerings, issuances of senior securities or future borrowings to the extent permitted by the 1940 Act and our current credit facility and subject to market conditions. We generally may not issue additional common shares at a price below our net asset value (net of any sales load (underwriting discount)) without first obtaining approval of our stockholders and Board of Directors. Our stockholders granted us the authority to sell our common shares below net asset value, subject to certain conditions, through December 20, 2007, and we will seek approval at our 2008 Annual Stockholder Meeting to sell our common shares below net asset value. We are restricted in our ability to incur additional debt by the terms of our credit facility.

Contractual Obligations

The following table summarizes our significant contractual payment obligations as of February 29, 2008.

	Total	Fiscal 2008	Fiscal 2009	Fiscal 2010	Fiscal 2011	After 2011
Secured revolving credit facility (1)	\$32,100,000	\$32,100,000	—	—	—	—
	<u>\$32,100,000</u>	<u>\$32,100,000</u>	<u>—</u>	<u>—</u>	<u>—</u>	<u>—</u>

At February 29, 2008, the outstanding balance under the credit facility was \$32,100,000

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures, or capital resources.

Borrowings

On April 25, 2007, the Company entered into a secured committed credit facility with U.S. Bank, N.A. as a lender, agent and lead arranger, and Bank of Oklahoma, N.A. providing for a revolving credit facility up to \$20,000,000. On July 18, 2007, the maximum principal amount of the revolving credit facility was increased to \$35,000,000. On September 28, 2007 the maximum principal amount was increased to \$40,000,000 and the facility was amended to include First National Bank of Kansas as a lender. Subsequent to quarter end, the Company secured an extension to its revolving credit facility with a maximum principal amount up to \$40,000,000, and later amended the credit agreement to include Wells Fargo as a lender and to increase the total credit facility to \$50,000,000. The credit facility matures on March 21, 2008. The revolving credit facility has a variable annual interest rate equal to the one-month LIBOR plus 1.75 percent, a non-usage fee equal to an annual rate of 0.375 percent of the difference between the total credit facility commitment and the average outstanding balance at the end of each day for the preceding fiscal quarter, and is secured with all assets of the Company. The non-usage fee was not applicable during a defined 120 day "resting period" following the initial public offering. The credit facility contains a covenant precluding the Company from incurring additional debt.

For the three months ended February 29, 2008, the average principal balance and interest rate for the period during which the credit facilities were utilized was \$33,087,912 and 5.80 percent, respectively. As of February 29, 2008, there was \$32,100,000 outstanding under the credit facility.

Critical Accounting Policies

The financial statements included in this report are based on the selection and application of critical accounting policies, which require management to make significant estimates and assumptions. Critical accounting policies are those that are both important to the presentation of our financial condition and results of operations and require management's most difficult, complex or subjective judgments. While our critical accounting policies are discussed below, Note 2 in the Notes to the Financial Statements included in this report provides more detailed disclosure of all of our significant accounting policies.

Valuation of Portfolio Investments

We invest primarily in illiquid securities that generally are subject to restrictions on resale, have no established trading market and are fair valued on a quarterly basis. Fair value is intended to be the amount for which an investment could be exchanged in an orderly disposition over a reasonable period of time between willing parties other than in a forced liquidation or sale. Because of the inherent uncertainty of valuation, the fair values of such investments, which are determined in accordance with procedures approved by our Board of Directors, may differ materially from the fair values that would have been used had a ready market existed for the investments.

Interest and Fee Income Recognition

Interest income is recorded on an accrual basis to the extent that such amounts are expected to be collected. When investing in instruments with an original issue discount or payment-in-kind interest (in which case we choose payment-in-kind in lieu of cash), we will accrue interest income during the life of the investment, even though we will not necessarily be receiving cash as the interest is accrued. Commitment and facility fees generally are recognized as income over the life of the underlying loan, whereas due diligence, structuring, transaction service, consulting and management service fees for services rendered to portfolio companies generally are recognized as income when services are rendered.

Security Transactions and Investment Income Recognition

Security transactions are accounted for on the date the securities are purchased or sold (trade date). Realized gains and losses are reported on an identified cost basis. Distributions received from our equity investments generally are comprised of ordinary income, capital gains and return of capital from the portfolio company. We record investment income and returns of capital based on estimates made at the time such distributions are received. Such estimates are based on information available from each portfolio company and/or other industry sources. These estimates may subsequently be revised based on information received from the portfolio companies after their tax reporting periods are concluded, as the actual character of these distributions are not known until after our fiscal year-end.

Federal and State Income Taxation

We, as a corporation, are obligated to pay federal and state income tax on our taxable income. Our tax expense or benefit is included in the Statement of Operations based on the component of income or gains (losses) to which such expense or benefit relates. Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our business activities contain elements of market risk. We consider changes in interest rates and the effect such changes can have on the valuations of the distribution-paying equity securities and debt securities we hold and the cost of capital under our credit facility to be our principal market risk.

Debt investments in our portfolio are based on floating and fixed rates. Loans bearing a floating interest rate are usually based on LIBOR and, in most cases, a spread consisting of additional basis points. The interest rates for these debt instruments typically have one to six-month durations and reset at the current market interest rates. As of February 29, 2008, our floating rate debt investments totaled \$3,750,000 (35 percent) of our total debt investments of \$10,800,000. Based on a sensitivity analysis of the variable rate financial obligation in our portfolio at February 29, 2008, we estimate that a one percentage point interest rate movement in the average market interest rates (either higher or lower) over a three-month period would either increase or decrease net investment income by approximately \$9,375.

Our revolving credit facility has a variable annual interest rate equal to the one-month LIBOR plus 1.75 percent. We estimate that a one percentage point interest rate

movement in the average market interest rates (either higher or lower) for the three month period during which the credit facility was utilized would either increase or decrease net investment income by approximately \$83,639.

We carry our investments at fair value, as determined by our Board of Directors. Investments for which market quotations are readily available are fair valued at such market quotations. Securities that are not publicly traded or whose market price is not readily available are fair valued as determined in good faith by our Board of Directors. Because there are not readily available market quotations for most of the investments in our portfolio, we value substantially all of our portfolio investments at fair value as determined in good faith by our Board of Directors under a valuation policy and a consistently applied valuation process. Due to the inherent uncertainty of determining the fair value of investments that do not have readily available market quotations, the fair value of our investments may differ significantly from the fair values that would have been used had a ready market quotation existed for such investments, and these differences could be material. The Board of Directors has retained Duff & Phelps, LLC (an independent valuation firm) to provide third party valuation consulting services to the Board of Directors which consist of certain limited procedures that the Board of Directors has identified and requested they perform. For the three months ended February 29, 2008, the Board of Directors requested Duff & Phelps, LLC to perform the limited procedures on investments in ten portfolio companies comprising approximately 100.0 percent of our restricted investments at fair value as of February 29, 2008. Duff & Phelps, LLC's limited procedures did not involve an audit, review, compilation or any other form of examination or attestation under the standards of the Public Company Accounting Oversight Board (United States). Upon completion of the limited procedures, Duff & Phelps, LLC concluded that the fair value of the investments subjected to the limited procedures did not appear to be unreasonable. The Board of Directors is ultimately and solely responsible for determining the fair value of the investments in good faith.

As of February 29, 2008, the fair value of our long-term equity investments totaled \$155,110,623. The impact of a 10 percent increase in the fair value of these investments, net of capital gain incentive fees and related deferred taxes, would increase net assets applicable to common stockholders by approximately \$8,174,330. The impact of a 10 percent decrease in the fair value of these investments, net of the reduction of capital gain incentive fees and related deferred taxes, would decrease net assets applicable to common stockholders by approximately \$9,599,532.

We consider the management of risk essential to conducting our businesses. Accordingly, our risk management systems and procedures are designed to identify and analyze our risks, to set appropriate policies and limits and to continually monitor these risks and limits by means of reliable administrative and information systems and other policies and programs.

ITEM 4. CONTROLS AND PROCEDURES

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) of the Securities Exchange Act of 1934) as of the end of the period covered by this report. Based upon such evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective and provided reasonable assurance that information required to be disclosed by us in the reports we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

There have been no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) or 15d-15(f) of the Securities Exchange Act of 1934) during the fiscal quarter ended February 29, 2008, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II—OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are not currently subject to any material legal proceeding, nor, to our knowledge, is any material legal proceeding threatened against us.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended November 30, 2007, which could materially affect our business, financial condition or operating results. The risks described in our Annual Report on Form 10-K are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

We did not sell any securities during the three months ended February 29, 2008 that were not registered under the Securities Act of 1933.

We did not repurchase any of our common shares during the three months ended February 29, 2008.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

Not applicable.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

Not applicable.

ITEM 5. OTHER INFORMATION

Not applicable.

ITEM 6. EXHIBITS

<u>Exhibit</u>	<u>Description</u>
31.1	Certification by Chief Executive Officer pursuant to Exchange Act Rule 13a-14(a), as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002, is filed herewith
31.2	Certification by Chief Financial Officer pursuant to Exchange Act Rule 13a-14(a), as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002, is filed herewith
32.1	Certification by Chief Executive Officer and Chief Financial Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, is furnished herewith

All other exhibits for which provision is made in the applicable regulations of the Securities and Exchange Commission are not required under the related instruction or are inapplicable and therefore have been omitted.

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

CERTIFICATIONS

I, David J. Schulte, certify that:

1. I have reviewed this report on Form 10-Q of Tortoise Capital Resources Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (c) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
