Tortoise Capital Resources Corp. Releases First Quarter 2012 Financial Results

Apr 9, 2012 - LEAWOOD, Kan.--(BUSINESS WIRE)-- Tortoise Capital Resources Corp. (NYSE: TTO) today announced its financial results for the first quarter ended Feb. 29, 2012, on Form 10-Q filed April 9, 2012.

Highlights

- · First quarter distribution of \$0.11 with guidance of no less than \$0.44 for 2012
- TTO book value per share of \$10.37 as of Feb. 29, 2012, compared to \$9.85 per share last quarter
- · No material change to private securities portfolio

Quarterly Performance Review

The book value per share was \$10.37 as of Feb. 29, 2012, compared to last quarter's \$9.85 per share on Nov. 30, 2011. The fair value of the investment securities portfolio, excluding short-term investments, at Feb. 29, 2012, was \$76.8 million, with \$47.3 million of private securities and \$29.5 million of publicly traded securities. The investment securities portfolio increased \$7.9 million, as compared to Nov. 30, 2011. Of this increase, \$2.5 million is attributable to trading securities and the remaining \$5.4 million increase comes from other equity securities. High Sierra, one of the major holdings in the portfolio, drove the increase in equity securities.

TTO expects 2012 to be a year of transition during which the company will execute a plan of obtaining REIT status by 2013. During the 2012 calendar year assets acquired by TTO, if any, will be expected to create tax depreciation in order to shield all or a significant portion of any incremental income.

TTO holds publicly listed MLPs, which can be liquidated in order to help fund any future acquisitions. We expect to hold our private investments until an appropriate opportunity for liquidity is presented.

Distribution Guidance

On Feb. 6, 2012, the Company declared a dividend of \$0.11 per share. The distribution was paid on March 1, 2012 to stockholders of record on Feb. 22, 2012. The dividend reinvestment amounted to 3.4 percent. Our portfolio of real property assets and investment securities generate cash flow to us from which we pay distributions to stockholders. As of the first quarter 2012, the most significant source of our stockholder distributions continues to be the distributions from our investment securities. We continue to believe that our investments should support a sustainable annualized distribution of no less than \$0.44 per share.

Changes in Financial Reporting

As a result of the withdrawal of our election to be regulated as a BDC, we are no longer regulated by the Investment Company Act of 1940. Our reporting conforms to the format more commonly used by REITs. The 10-Q as filed for the period ended Feb. 29, 2012 reports TTO's first quarter financial results. As stated in the 10-K for the year ended Nov. 30, 2011, the consolidation of Mowood began when TTO withdrew its election to be treated as a BDC and began reporting financial results in accordance with general corporate reporting guidelines versus the AICPA Investment Company Audit Guide. Due to this transition, comparable prior year financial statements should be read in conjunction with the Management's Discussion & Analysis. Items on the consolidated statement of income for the period ended Feb. 28, 2011 have been reclassified and aggregated to conform to the presentation of results of operations for the period ended Feb. 29, 2012. Due to the change in strategy, income from investment securities is now reported in other income. Components of cash flows for the period ended Feb. 28, 2011 have also been reclassified and aggregated to conform to the presentation of cash flows for the period ended Feb. 29, 2012.
