

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, DC 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2017

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number: 001-33292

(Exact name of registrant as specified in its charter)

Maryland

(State or other jurisdiction of incorporation or organization)

20-3431375

(IRS Employer Identification No.)

1100 Walnut, Ste. 3350
Kansas City, MO

(Address of Principal Executive Offices)

64106

(Zip Code)

(816) 875-3705

(Registrant's telephone number, including area code)

n/a

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer	<input type="checkbox"/>	Accelerated filer	<input checked="" type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/> (Do not check if a smaller reporting company)	Smaller reporting company	<input type="checkbox"/>
		Emerging growth company	<input type="checkbox"/>

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act) Yes No

As of October 31, 2017, the registrant had 11,909,244 common shares outstanding.

CorEnergy Infrastructure Trust, Inc.

This Report should be read in its entirety. No one section of the Report deals with all aspects of the subject matter. It should be read in conjunction with the consolidated financial statements, related notes, and with the Management's Discussion & Analysis ("MD&A") included within, as well as provided in the Annual Report on Form 10-K, for the year ended December 31, 2016.

The consolidated unaudited financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information, the instructions to Form 10-Q, and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by generally accepted accounting principles for complete financial statements. In the opinion of Management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and nine months ended September 30, 2017 are not necessarily indicative of the results that may be expected for the year ended December 31, 2017 or for any other interim or annual period. For further information, refer to the consolidated financial statements and footnotes thereto included in the CorEnergy Infrastructure Trust, Inc. Annual Report on Form 10-K, for the year ended December 31, 2016.

Certain of the defined terms used in this Report are set forth below:

Accretion Expense: the expense recognized when adjusting the present value of the GIGS ARO for the passage of time.

Administrative Agreement: the Administrative Agreement dated December 1, 2011, as amended effective August 7, 2012, between the Company and Corridor.

Arc Logistics: Arc Logistics Partners LP (NYSE: ARCX).

Arc Terminals: Arc Terminals Holdings LLC, an indirect wholly-owned operating subsidiary of Arc Logistics.

ARO: the Asset Retirement Obligation liabilities assumed with the acquisition of GIGS.

ASC: FASB Accounting Standards Codification.

ASU: Accounting Standard Update.

Bbbs: standard barrel containing 42 U.S. gallons.

BB Intermediate: Black Bison Intermediate Holdings, LLC, the holding company of Black Bison Water Services.

Black Bison Loans: the financing notes between Corridor Bison and CorEnergy BBWS and BBWS.

BBWS: Black Bison Water Services, LLC, the borrower of the Black Bison financing notes, as well as all of the other collateral securing the Black Bison Loans.

Convertible Notes: the Company's 7.00% Convertible Senior Notes due 2020.

CorEnergy: CorEnergy Infrastructure Trust, Inc. (NYSE: CORR).

CorEnergy BBWS: CorEnergy BBWS, Inc., a wholly-owned taxable REIT subsidiary of CorEnergy.

CorEnergy Credit Facility: the Company's upsized \$160.0 million CorEnergy Revolver and the \$1.0 million MoGas Revolver with Regions Bank.

CorEnergy Revolver: the Company's \$160.0 million secured revolving line of credit facility with Regions Bank.

CorEnergy Term Loan: the Company's \$45.0 million secured term loan with Regions Bank that was paid off in conjunction with the amendment and restatement of the CorEnergy Credit Facility on July 28, 2017.

Corridor: Corridor InfraTrust Management, LLC, the Company's external manager pursuant to the Management Agreement.

Corridor Bison: Corridor Bison, LLC a wholly-owned subsidiary of CorEnergy.

Corridor MoGas: Corridor MoGas, Inc., a wholly-owned taxable REIT subsidiary of CorEnergy and the holding company of MoGas, United Property Systems and CorEnergy Pipeline Company, LLC.

Corridor Private: Corridor Private Holdings, Inc., an indirect wholly-owned taxable REIT subsidiary of CorEnergy.

CPI: Consumer Price Index.

Exchange Act: the Securities Exchange Act of 1934, as amended.

EXXI: Energy XXI Ltd, the parent company (and guarantor) of our tenant on the Grand Isle Gathering System lease, emerged from a reorganization under Chapter 11 of the US Bankruptcy Code on December 30, 2016, with the succeeding company named Energy XXI Gulf Coast, Inc. Throughout this document, references to EXXI will refer to both the pre- and post- bankruptcy entities.

EXXI Tenant: Energy XXI GIGS Services, LLC, a wholly-owned operating subsidiary of EXXI that is the tenant under Grand Isle Corridor's triple-net lease of the Grand Isle Gathering System.

FASB: Financial Accounting Standards Board.

FERC: Federal Energy Regulatory Commission.

Four Wood Corridor: Four Wood Corridor, LLC, a wholly-owned subsidiary of CorEnergy.

Four Wood Energy: Four Wood Energy Partners LLC, a wholly-owned subsidiary of Four Wood Capital Partners LLC.

Four Wood Notes: the financing notes between Four Wood Corridor and Corridor Private and SWD.

GAAP: U.S. generally accepted accounting principles.

GIGS: the Grand Isle Gathering System, owned by Grand Isle Corridor, LP and triple-net leased to a wholly-owned subsidiary of Energy XXI Gulf Coast, Inc.

Grand Isle Corridor LP: Grand Isle Corridor, LP, an indirect wholly-owned subsidiary of the Company.

Grand Isle Gathering System: a subsea midstream pipeline gathering system located in the shallow Gulf of Mexico shelf and storage and onshore processing facilities.

Grand Isle Lease Agreement: the June 2015 agreement pursuant to which the Grand Isle Gathering System assets are triple-net leased to EXXI Tenant.

Lightfoot: collectively, Lightfoot Capital Partners LP and Lightfoot Capital Partners GP LLC.

Management Agreement: references to the Management Agreement as in effect prior to May 1, 2015 mean the Management Agreement that became effective July 1, 2013, as amended effective January 1, 2014, while references to the Management Agreement as in effect on and after May 1, 2015 mean the new Management Agreement entered into May 8, 2015, effective as of May 1, 2015, between the Company and Corridor.

MMBTu: Million British Thermal Units, a measurement of natural gas.

MoGas: MoGas Pipeline LLC, an indirect wholly-owned subsidiary of CorEnergy.

MoGas Pipeline System: an approximately 263-mile interstate natural gas pipeline system in and around St. Louis and extending into central Missouri, owned and operated by MoGas.

MoGas Revolver: a \$1.0 million secured revolving line of credit facility at the MoGas subsidiary level with Regions Bank.

Mowood: Mowood, LLC, an indirect wholly-owned subsidiary of CorEnergy and the holding company of Omega Pipeline Company, LLC.

Mowood/Omega Revolver: a \$1.5 million revolving line of credit facility at the Mowood subsidiary level with Regions Bank.

NAREIT: National Association of Real Estate Investment Trusts.

Omega: Omega Pipeline Company, LLC, a wholly-owned subsidiary of Mowood, LLC.

Omega Pipeline: Omega's natural gas distribution system in south central Missouri.

Pinedale Credit Facility: a \$70.0 million secured term credit facility, with the Company and Prudential as current lenders, used by Pinedale Corridor, LP to finance a portion of the acquisition of the Pinedale LGS.

Pinedale LGS: the Pinedale Liquids Gathering System, a system consisting of approximately 150 miles of pipelines and four above-ground central gathering facilities located in the Pinedale Anticline in Wyoming, owned by Pinedale LP and triple-net leased to a wholly-owned subsidiary of Ultra Petroleum.

Pinedale Lease Agreement: the December 2012 agreement pursuant to which the Pinedale LGS assets are triple-net leased to a wholly owned subsidiary of Ultra Petroleum.

Pinedale LP: Pinedale Corridor, LP, an indirect subsidiary owned 81.05 percent by CorEnergy and 18.95 percent by Prudential.

Pinedale GP: the general partner of Pinedale LP and a wholly-owned subsidiary of CorEnergy.

Portland Lease Agreement: the January 2014 agreement pursuant to which the Portland Terminal Facility is triple-net leased to Arc Terminals, a wholly-owned subsidiary of Arc Logistics Partners LP.

Portland Terminal Facility: a petroleum products terminal located in Portland, Oregon.

Prudential: The Prudential Insurance Company of America.

QDI: qualified dividend income.

REIT: real estate investment trust.

SEC: Securities and Exchange Commission.

Series A Preferred Stock: the Company's 7.375% Series A Cumulative Redeemable Preferred Stock, par value \$0.001 per share, of which there currently are outstanding 52,000 shares represented by 5,200,000 depository shares, each representing 1/100th of a whole share of Series A Preferred.

SWD: SWD Enterprises, LLC, a wholly-owned subsidiary of Four Wood Energy Partners, LLC.

TRS: taxable REIT subsidiary.

UPL: Ultra Petroleum Corp.

Ultra Wyoming: Ultra Wyoming LGS LLC, an indirect wholly-owned subsidiary of Ultra Petroleum.

United Property Systems: United Property Systems, LLC, an indirect wholly-owned subsidiary of CorEnergy, acquired with the MoGas transaction in November 2014.

VIE: Variable interest entity.

WTI: West Texas Intermediate, grade of crude oil used for benchmarking price.

CAUTIONARY STATEMENT CONCERNING FORWARD-LOOKING STATEMENTS

Certain statements included or incorporated by reference in this Quarterly Report on Form 10-Q may be deemed "forward-looking statements" within the meaning of the federal securities laws. In many cases, these forward-looking statements may be identified by the use of words such as "will," "may," "should," "could," "believes," "expects," "anticipates," "estimates," "intends," "projects," "goals," "objectives," "targets," "predicts," "plans," "seeks," or similar expressions.

Although we believe the expectations reflected in any forward-looking statements are based on reasonable assumptions, forward-looking statements are not guarantees of future performance or results and we can give no assurance that these expectations will be attained. Our actual results may differ materially from those indicated by these forward-looking statements due to a variety of known and unknown risks and uncertainties. You should also understand that it is not possible to predict or identify all such factors and should not consider the following list to be a complete statement of all potential risks and uncertainties. Factors that could cause our actual results to differ materially from the results contemplated by such forward-looking statements include:

- the ability of our tenants and borrowers to make payments under their respective leases and mortgage loans, our reliance on certain major tenants under single tenant leases and our ability to re-lease properties;
- changes in economic and business conditions in the energy infrastructure sector where our investments are concentrated, including the financial condition of our tenants or borrowers and general economic conditions in the particular sectors of the energy industry served by each of our infrastructure assets;
- the inherent risks associated with owning real estate, including real estate market conditions, governing laws and regulations, including potential liabilities related to environmental matters, and the relative illiquidity of real estate investments;
- risks associated with the bankruptcy or default of any of our tenants or borrowers, including the exercise of the rights and remedies of bankrupt entities;
- the impact of laws and governmental regulations applicable to certain of our infrastructure assets, including additional costs imposed on our business or other adverse impacts as a result of any unfavorable changes in such laws or regulations;
- the loss of any member of our management team;
- our continued ability to access the debt and equity markets;
- our ability to successfully implement our selective acquisition strategy;
- our ability to obtain suitable tenants for our properties;
- our ability to refinance amounts outstanding under our credit facilities and our convertible notes at maturity on terms favorable to us;
- changes in interest rates under our current credit facilities and under any additional variable rate debt arrangements that we may enter into in the future;
- our ability to comply with certain debt covenants;
- dependence by us and our tenants on key customers for significant revenues, and the risk of defaults by any such tenants or customers;
- the risk of adverse impacts to our results of operations if the tenant exercises its early lease termination or lease buy-out options at our Portland Terminal Facility;
- our or our tenants' ability to secure adequate insurance and risk of potential uninsured losses, including from natural disasters;
- the continued availability of third-party pipelines, railroads or other facilities interconnected with certain of our infrastructure assets;
- risks associated with owning, operating or financing properties for which the tenants', mortgagors' or our operations may be impacted by extreme weather patterns and other natural phenomena;
- our ability to sell properties at an attractive price;
- market conditions and related price volatility affecting our debt and equity securities;
- competitive and regulatory pressures on the revenues of our interstate natural gas transmission business;
- changes in federal or state tax rules or regulations that could have adverse tax consequences;
- declines in the market value of our investment securities;
- our ability to maintain internal controls and processes to ensure all transactions are accounted for properly, all relevant disclosures and filings are timely made in accordance with all rules and regulations, and any potential fraud or embezzlement is thwarted or detected;

- changes in federal income tax regulations (and applicable interpretations thereof), or in the composition or performance of our assets, that could impact our ability to continue to qualify as a real estate investment trust for federal income tax purposes; and
- risks related to potential terrorist attacks, acts of cyber-terrorism, or similar disruptions that could disrupt access to our information technology systems or result in other significant damage to our business and properties, some of which may not be covered by insurance and all of which could adversely impact distributions to our stockholders.

Forward-looking statements speak only as of the date on which they are made. While we may update these statements from time to time, we are not required to do so other than pursuant to applicable laws. For a further discussion of these and other factors that could impact our future results and performance, see Part I, Item 1A, "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2016, filed with the SEC on March 2, 2017, and Part II, Item 1A, "Risk Factors", in this Report.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)
September 30, 2017

1. INTRODUCTION AND BASIS OF PRESENTATION

Introduction

CorEnergy Infrastructure Trust, Inc. ("CorEnergy" or "the Company"), was organized as a Maryland corporation and commenced operations on December 8, 2005. The Company's common shares are listed on the New York Stock Exchange ("NYSE") under the symbol "CORR" and the depositary shares representing its Series A Preferred Stock are listed on the NYSE under the symbol "CORR PrA".

The Company is primarily focused on acquiring and financing real estate assets within the U.S. energy infrastructure sector and concurrently entering into long-term triple-net participating leases with energy companies. The Company also may provide other types of capital, including loans secured by energy infrastructure assets. Targeted assets include pipelines, storage tanks, transmission lines, and gathering systems, among others. These sale-leaseback or real property mortgage transactions provide the energy company with a source of capital that is an alternative to other sources such as corporate borrowing, bond offerings, or equity offerings. Many of the Company's leases contain participation features in the financial performance or value of the underlying infrastructure real property asset. The triple-net lease structure requires that the tenant pay all operating expenses of the business conducted by the tenant, including real estate taxes, insurance, utilities, and expenses of maintaining the asset in good working order. CorEnergy considers its investments in these energy infrastructure assets to be a single business segment and reports them accordingly in its financial statements.

In 2013 CorEnergy qualified, and in March 2014 elected (effective as of January 1, 2013), to be treated as a REIT for federal income tax purposes. Because certain of the Company's assets may not produce REIT-qualifying income or be treated as interests in real property, those assets are held in wholly-owned Taxable REIT Subsidiaries ("TRSs") in order to limit the potential that such assets and income could prevent the Company from qualifying as a REIT. The Company's use of TRSs enables it to continue to engage in certain businesses while complying with REIT qualification requirements and also allows it to retain income generated by these businesses for reinvestment without the requirement of distributing those earnings. In the future, the Company may elect to reorganize and transfer certain assets or operations from its TRSs to the Company or other subsidiaries, including qualified REIT subsidiaries. TRSs hold the Company's securities portfolio, operating businesses and certain financing notes receivable.

Basis of Presentation and Use of Estimates

The accompanying consolidated financial statements include CorEnergy accounts and the accounts of its wholly-owned subsidiaries and have been prepared in accordance with GAAP set forth in the ASC, as published by the FASB, and with the SEC instructions to Form 10-Q, and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. The accompanying consolidated financial statements reflect all adjustments that are, in the opinion of management, necessary for a fair presentation of the Company's financial position, results of operations, and cash flows for the periods presented. There were no adjustments that, in the opinion of management, were not of a normal and recurring nature. All intercompany transactions and balances have been eliminated in consolidation, and the Company's net earnings are reduced by the portion of net earnings attributable to non-controlling interests.

Operating results for the three and nine months ended September 30, 2017 are not necessarily indicative of the results that may be expected for the year ending December 31, 2017 or any other interim or annual period. These consolidated financial statements and Management's Discussion and Analysis of the Financial Condition and Results of Operations should be read in conjunction with CorEnergy's Annual Report on Form 10-K, for the year ended December 31, 2016, filed with the SEC on March 2, 2017 (the "2016 CorEnergy 10-K").

2. RECENT ACCOUNTING PRONOUNCEMENTS

In May 2014, the FASB issued ASU 2014-09 "Revenue from Contracts with Customers" ("ASU 2014-09"), which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The standard was originally effective for interim and annual periods beginning after December 15, 2016 and permits the use of either the retrospective or cumulative effect transition method. On July 9, 2015, the FASB approved a one-year deferral of the effective date making the standard effective for interim and annual periods beginning after December 15, 2017. The Company is currently planning to use the modified retrospective transition method. The Company is also currently evaluating the impact that this standard will have on its consolidated financial statements and disclosures, as well as its processes and internal controls.

As part of its assessment work, the Company has formed an implementation team, completed training on the new revenue recognition model and is completing a review of its contracts. Based on this review and the analysis to date, the Company does not expect that adoption of the standard will have a significant impact on its consolidated financial statements based on the nature of its contracts and the fact that a substantial portion of its revenue consists of rental income from leasing arrangements, which is specifically excluded from ASU 2014-09.

In January 2016, the FASB issued ASU 2016-01 "Financial Instruments — Overall: Recognition and Measurement of Financial Assets and Financial Liabilities," which will require entities to measure their investments at fair value and recognize any changes in fair value in net income unless the investments qualify for the new practicability exception. The practicability exception will be available for equity investments that do not have readily determinable fair values. The guidance is effective for fiscal years beginning after December 15, 2017. The Company is currently evaluating the impact of adopting the new standard but does not believe that its adoption will have a material impact on its consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02 "Leases" ("ASU 2016-02"), which amends the existing accounting standards for lease accounting, including requiring lessees to recognize most leases on their balance sheets and making targeted changes to lessor accounting. ASU 2016-02 is effective for fiscal years and interim periods beginning after December 15, 2018, with early adoption permitted. At adoption, the standard will be applied using a modified retrospective approach. Management is in the process of evaluating the impact of the standard on its consolidated financial statements and related disclosures.

In June 2016, the FASB issued ASU 2016-13 "Financial Instruments - Credit Losses" ("ASU 2016-13"), which introduces an approach based on expected losses to estimate credit losses on certain types of financial instruments. The new model, referred to as the current expected credit losses ("CECL model"), will apply to financial assets subject to credit losses and measured at amortized cost, and certain off-balance sheet credit exposures. ASU 2016-13 is effective for fiscal years beginning after December 15, 2019, including interim periods within that fiscal year. Early application of the guidance will be permitted for all entities for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. Management is currently evaluating the impact that adopting the new standard will have on the Company's consolidated financial statements but believes that, unless the Company acquires any additional financing receivables, the impact will not be material.

In August 2016, the FASB issued ASU 2016-15, "Statement of Cash Flows: Classification of Certain Cash Receipts and Cash Payments." This new standard will make eight targeted changes to how cash receipts and cash payments are presented and classified in the statement of cash flows. The new standard is effective for fiscal years beginning after December 15, 2017 and will require adoption on a retrospective basis unless it is impracticable to apply, in which case the Company would be required to apply the amendments prospectively as of the earliest date practicable. Management is currently evaluating the impact of the new standard but does not expect that its adoption will have a material impact.

In January 2017, the FASB issued ASU 2017-01, "Clarifying the Definition of a Business," which clarifies the definition of "a business" to assist entities with evaluating whether transactions should be accounted for as acquisitions or disposals of assets or businesses. The standard introduces a screen for determining when assets acquired are not a business and clarifies that a business must include, at a minimum, an input and a substantive process that contribute to an output to be considered a business. This standard is effective for fiscal years beginning after December 15, 2017, including interim periods within that reporting period. Early adoption is allowed for transactions where the acquisition (or subsidiary deconsolidation) occurs before the effective date of the amendments and the transaction has not been previously reported in the financial statements. Management is currently evaluating the impact and timing of adopting the new standard.

In January 2017, the FASB issued ASU 2017-04, "Simplifying the Test for Goodwill Impairment" ("ASU 2017-04"), which simplifies how an entity is required to test goodwill for impairment by eliminating Step 2 from the goodwill impairment test. Step 2 measures a goodwill impairment loss by comparing the implied fair value of a reporting unit's goodwill with the carrying amount of that goodwill. Under the amendments in ASU 2017-04, an entity should recognize an impairment charge for the amount by which the carrying amount of a reporting unit exceeds its fair value; however, the loss recognized should not exceed the total amount of goodwill allocated to that reporting unit. The standard is effective for annual or interim tests performed in fiscal years beginning after December 15, 2019. Early adoption is permitted for goodwill impairment tests performed on testing dates after January 1, 2017. Effective January 1, 2017, Management has elected to early adopt this standard in connection with its goodwill impairment testing performed subsequent to January 1, 2017. As the standard will be applied prospectively, for measurement of goodwill impairment losses when an impairment is indicated, the impact of adoption to the financial statements will depend on various factors. However, elimination of the second step will reduce the complexity and cost of measuring any such impairment.

3. LEASED PROPERTIES AND LEASES

As of September 30, 2017, the Company had three significant leased properties located in Oregon, Wyoming, Louisiana, and the Gulf of Mexico, which are leased on a triple-net basis to major tenants, described in the table below. These major tenants are responsible for the payment of all taxes, maintenance, repairs, insurance, and other operating expenses relating to the leased properties. The long-term, triple-net leases generally have an initial term of 11 to 15 years with options for renewals. Lease payments are scheduled to increase at varying intervals during the initial terms of the leases. The following table summarizes the significant leased properties, major tenants and lease terms:

Summary of Leased Properties, Major Tenants and Lease Terms			
Property	Grand Isle Gathering System	Pinedale LGS ⁽¹⁾	Portland Terminal Facility
Location	Gulf of Mexico/Louisiana	Pinedale, WY	Portland, OR
Tenant	Energy XXI GIGS Services, LLC	Ultra Wyoming LGS, LLC	Arc Terminals Holdings LLC
Asset Description	Approximately 153 miles of offshore pipeline with total capacity of 120 thousand Bbls/d, including a 16-acre onshore terminal and saltwater disposal system.	Approximately 150 miles of pipelines and four central storage facilities.	A 39-acre rail and marine facility property adjacent to the Willamette River with 84 tanks and total storage capacity of approximately 1.5 million barrels.
Date Acquired	June 2015	December 2012	January 2014
Initial Lease Term	11 years	15 years	15 years ⁽²⁾
Renewal Option	Equal to the lesser of 9-years or 75 percent of the remaining useful life	5-year terms	5-year terms
Current Monthly Rent Payments	7/1/16 - 6/30/17: \$2,826,250 7/1/17 - 6/30/18: \$2,854,667	\$1,741,933	\$513,355
Initial Estimated Useful Life	27 years	26 years	30 years

(1) Non-Controlling Interest Partner, Prudential, funded a portion of the Pinedale LGS acquisition and, as a limited partner, holds 18.95 percent of the economic interest in Pinedale LP. Pinedale GP, a wholly-owned subsidiary of the Company, holds the remaining 81.05 percent of the economic interest.

(2) The lessee of the Portland Terminal Facility has a purchase option beginning in February 2017, which it can exercise with 90-days notice, as well as lease termination options on the fifth and tenth anniversaries of the lease. If exercised, the purchase option and termination options are subject to additional payment provisions and termination fees prescribed under the lease.

The future contracted minimum rental receipts for all leases as of September 30, 2017, are as follows:

Future Minimum Lease Receipts ⁽¹⁾	
Years Ending December 31,	Amount
2017	\$ 15,359,741
2018	61,409,965
2019	63,685,398
2020	70,846,857
2021	77,027,332
Thereafter	376,287,233
Total	\$ 664,616,526

(1) Future minimum lease receipts include base rents for the Portland Terminal Facility through its initial 15-year term.

The table below displays the Company's individually significant leases as a percentage of total leased properties and total lease revenues for the periods presented:

	As a Percentage of ⁽¹⁾					
	Leased Properties		Lease Revenues			
	September 30, 2017	December 31, 2016	For the Three Months Ended		For the Nine Months Ended	
		September 30, 2017	September 30, 2016	September 30, 2017	September 30, 2016	
Pinedale LGS	39.7%	39.8%	31.1%	30.4%	30.8%	30.4%
Grand Isle Gathering System	50.1%	50.0%	59.2%	59.8%	59.5%	59.8%
Portland Terminal Facility	10.0%	9.9%	9.5%	9.7%	9.6%	9.7%

(1) Insignificant leases are not presented; thus percentages may not sum to 100%.

The following table reflects the depreciation and amortization included in the accompanying Consolidated Statements of Income associated with the Company's leases and leased properties:

	For the Three Months Ended		For the Nine Months Ended	
	September 30, 2017	September 30, 2016	September 30, 2017	September 30, 2016
Depreciation Expense				
GIGS	\$ 2,438,649	\$ 2,153,928	\$ 7,315,947	\$ 6,451,578
Pinedale	2,217,360	2,217,360	6,652,080	6,652,080
Portland Terminal Facility	318,915	318,914	956,745	524,170
United Property Systems	9,059	8,515	27,178	23,365
Total Depreciation Expense	\$ 4,983,983	\$ 4,698,717	\$ 14,951,950	\$ 13,651,193
Amortization Expense - Deferred Lease Costs				
GIGS	\$ 7,641	\$ 7,641	\$ 22,923	\$ 22,923
Pinedale	15,342	15,342	46,026	46,026
Total Amortization Expense - Deferred Lease Costs	\$ 22,983	\$ 22,983	\$ 68,949	\$ 68,949
ARO Accretion Expense				
GIGS	\$ 170,904	\$ 184,104	\$ 492,162	\$ 542,561
Total ARO Accretion Expense	\$ 170,904	\$ 184,104	\$ 492,162	\$ 542,561

The following table reflects the deferred costs that are included in the accompanying Consolidated Balance Sheets associated with the Company's leased properties:

	September 30, 2017	December 31, 2016
Net Deferred Lease Costs		
GIGS	\$ 267,524	\$ 290,447
Pinedale	627,059	673,085
Total Deferred Lease Costs, net	\$ 894,583	\$ 963,532

Substantially all of the lease tenants' financial results are driven by exploiting naturally occurring oil and natural gas hydrocarbon deposits beneath the Earth's surface. As a result, the tenants' financial results are highly dependent on the performance of the oil and natural gas industry, which is highly competitive and subject to volatility. During the terms of the leases, management monitors the credit quality of its tenants by reviewing their published credit ratings, if available, reviewing publicly available financial statements, or reviewing financial or other operating statements, monitoring news reports regarding the tenants and their respective businesses, and monitoring the timeliness of lease payments and the performance of other financial covenants under their leases.

UPL

UPL is currently subject to the reporting requirements under the Exchange Act and is required to file with the SEC annual reports containing audited financial statements and quarterly reports containing unaudited financial statements. Its SEC filings can be found at www.sec.gov. Following emergence from bankruptcy, Ultra Petroleum Corp. stock is trading on the NASDAQ under the symbol UPL. The Company makes no representation as to the accuracy or completeness of the audited and unaudited financial statements of UPL but has no reason to doubt the accuracy or completeness of such information. In addition, UPL has no duty, contractual or otherwise, to advise the Company of any events that might have occurred subsequent to the date of such financial statements which could affect the significance or accuracy of such information. None of the information in the public reports of UPL that are filed with the SEC is incorporated by reference into, or in any way form, a part of this filing.

EXXI

EXXI is currently subject to the reporting requirements of the Exchange Act and is required to file with the SEC annual reports containing audited financial statements and quarterly reports containing unaudited financial statements. Its SEC filings can be found at www.sec.gov. Its stock is currently trading on the NASDAQ under the symbol EXXI. The Company makes no representation as to the accuracy or completeness of the audited and unaudited financial statements of EXXI but has no reason to doubt the accuracy or completeness of such information. In addition, EXXI has no duty, contractual or otherwise, to advise the Company of any events that might have occurred subsequent to the date of such financial statements which could affect the significance or accuracy of such information. None of the information in the public reports of EXXI that are filed with the SEC is incorporated by reference into, or in any way form, a part of this filing.

ARCX

On August 29, 2017, the parent company of our tenant at the Portland Terminal Facility, Arc Logistics, announced its definitive agreement to be acquired by Zenith Energy U.S., LP. ("Zenith"). The merger is targeted to close by February 7, 2018. In September, Arc Logistics filed a preliminary proxy pursuant to which it will ultimately solicit unit holder approval for the merger. In that preliminary proxy, Arc Logistics described a number of different actions available to it under the Portland Lease Agreement, which include (i) continuing with the current terminal lease, (ii) exercising its buy-out option on the terminal or (iii) terminating the lease at its fifth anniversary, subject to the termination provisions in the lease. The preliminary proxy states that Arc Logistics has not yet decided which of those plans of action it may select, and the Company has not received notice with respect to either a buy-out or termination option election. Additionally, it is not clear whether the proposed merger will have any impact on whether, or when, any of the options would be exercised.

ARCX is currently subject to the reporting requirements of the Exchange Act and is required to file with the SEC annual reports containing audited financial statements and quarterly reports containing unaudited financial statements. The audited financial statements and unaudited financial statements of Arc Logistics can be found on the SEC's website at www.sec.gov (NYSE: ARCX). The Company makes no representation as to the accuracy or completeness of the audited and unaudited financial statements of ARCX but has no reason to doubt the accuracy or completeness of such information. In addition, ARCX has no duty, contractual or otherwise, to advise the Company of any events that might have occurred subsequent to the date of such financial statements which could affect the significance or accuracy of such information. None of the information in the public reports of ARCX that are filed with the SEC is incorporated by reference into, or in any way form, a part of this filing.

4. FINANCING NOTES RECEIVABLE

Financing notes receivable are presented at face value plus accrued interest receivable and deferred loan origination costs, and net of related direct loan origination income. Each quarter the Company reviews its financing notes receivable to determine if the balances are realizable based on factors affecting the collectability of those balances. Factors may include credit quality, timeliness of required periodic payments, past due status, and management discussions with obligors. The Company evaluates the collectability of both interest and principal of each of its loans to determine if an allowance is needed. An allowance will be recorded when, based on current information and events, the Company determines it is probable that it will be unable to collect all amounts due according to the existing contractual terms. If the Company does determine an allowance is necessary, the amount deemed uncollectable is expensed in the period of determination. An insignificant delay or shortfall in the amount of payments does not necessarily result in the recording of an allowance. Generally, when interest and/or principal payments on a loan become past due, or if management otherwise does not expect the borrower to be able to service its debt and other obligations, the Company will place the loan on non-accrual status and will generally cease recognizing financing revenue on that loan until all principal and interest have been brought current. Interest income recognition is resumed if and when the previously reserved for financing notes become contractually current and performance has been demonstrated. Payments received subsequent to the recording of an allowance will be recorded as a reduction to principal.

Black Bison Financing Notes

On February 29, 2016, the Company foreclosed on 100 percent of the equity of BB Intermediate, the borrower of the Black Bison financing notes, as well as all of the other collateral securing the Black Bison Loans. The foreclosure was accepted in satisfaction of \$2.0 million of the total outstanding loan balance. On June 16, 2016, the Company entered into an asset sale agreement with Expedition Water Solutions for the sale of specified disposal wells and related equipment as outlined in the sale agreement. Consideration received by the company included \$748 thousand cash, net of fees, and the future right to royalty payments, which was recorded at its fair value of \$450 thousand. The rights to future cash payments are tied to the future volumes of water disposed of in each of the wells sold. The Company did not record any financing revenue related to the Black Bison Loans for the nine months ended September 30, 2016 or any subsequent period. These notes were considered by the Company to be on non-accrual status and were reflected as such in the financial statements. For the nine months ended September 30, 2016, the Company recorded \$832 thousand in provision for loan losses related to the Black Bison Loans.

Four Wood Financing Note Receivable

As a result of the decreased economic activity by SWD, the Company recorded a provision for loan loss with respect to the SWD Loans. The Consolidated Statements of Income for the nine months ended September 30, 2016 reflect a Provision for Loan Loss of \$3.5 million, which includes \$71 thousand of deferred origination income and \$98 thousand of interest accrued under the original loan agreements. The loans were placed on non-accrual status during the first quarter of 2016.

5. VARIABLE INTEREST ENTITIES

The FASB issued ASU 2015-02, "Consolidations (Topic 810) - Amendments to the Consolidation Analysis" ("ASU 2015-02"), which amended previous consolidation guidance, including introducing a separate consolidation analysis specific to limited partnerships and other similar entities. Under this analysis, limited partnerships and other similar entities are considered a VIE unless the limited partners hold substantive kick-out rights or participating rights. Management determined that Pinedale LP and Grand Isle Corridor LP are VIEs under the amended guidance because the limited partners of both partnerships lack both substantive kick-out rights and participating rights. As such, management evaluated the qualitative criteria under FASB ASC Topic 810 - Consolidation in conjunction with ASU 2015-02 to make a determination whether these partnerships should be consolidated on the Company's financial statements. ASC Topic 810-10 requires the primary beneficiary of a variable interest entity's activities to consolidate the VIE. The primary beneficiary is identified as the enterprise that has a) the power to direct the activities of the VIE that most significantly impact the entity's economic performance and b) the obligation to absorb losses of the entity that could potentially be significant to the VIE or the right to receive benefits from the entity that could potentially be significant to the VIE. The standard requires an ongoing analysis to determine whether the variable interest gives rise to a controlling financial interest in the VIE. Based on the general partners' roles and rights as afforded by the partnership agreements and its exposure to losses and benefits of each of the partnerships through its significant limited partner interests, management determined that CorEnergy is the primary beneficiary of both Pinedale LP and Grand Isle Corridor LP. Based upon that evaluation, the consolidated financial statements presented include full consolidation with respect to both of the partnerships.

6. INCOME TAXES

Deferred income taxes reflect the net tax effect of temporary differences between the carrying amount of assets and liabilities for financial reporting and tax purposes. Components of the Company's deferred tax assets and liabilities as of September 30, 2017 and December 31, 2016, are as follows:

Deferred Tax Assets and Liabilities		
	September 30, 2017	December 31, 2016
Deferred Tax Assets:		
Net operating loss carryforwards	\$ 1,735,011	\$ 1,144,818
Net unrealized loss on investment securities	—	61,430
Cost recovery of leased and fixed assets	636,614	739,502
Loan Loss Provision	385,180	608,086
Other loss carryforwards	4,404,525	3,187,181
Sub-total	<u>\$ 7,161,330</u>	<u>\$ 5,741,017</u>
Deferred Tax Liabilities:		
Basis reduction of investment in partnerships	\$ (2,191,957)	\$ (2,158,746)
Net unrealized gain on investment securities	(485,610)	—
Cost recovery of leased and fixed assets	(2,591,152)	(1,823,982)
Sub-total	<u>\$ (5,268,719)</u>	<u>\$ (3,982,728)</u>
Total net deferred tax asset	<u><u>\$ 1,892,611</u></u>	<u><u>\$ 1,758,289</u></u>

As of September 30, 2017, the total deferred tax assets and liabilities presented above relate to the Company's TRSs. The Company recognizes the tax benefits of uncertain tax positions only when the position is "more likely than not" to be sustained upon examination by the tax authorities based on the technical merits of the tax position. The Company's policy is to record interest and penalties on uncertain tax positions as part of tax expense. Tax years subsequent to the year ended December 31, 2012 remain open to examination by federal and state tax authorities.

Total income tax expense (benefit) differs from the amount computed by applying the federal statutory income tax rate of 35 percent for the three and nine months ended September 30, 2017 and 2016 to income from operations and other income and expense for the periods presented, as follows:

	Income Tax Expense (Benefit)			
	For the Three Months Ended		For the Nine Months Ended	
	September 30, 2017	September 30, 2016	September 30, 2017	September 30, 2016
Application of statutory income tax rate	\$ 3,279,099	\$ 3,400,018	\$ 9,005,926	\$ 7,425,354
State income taxes, net of federal tax expense (benefit)	8,784	28,642	(22,867)	(29,384)
Federal Tax Attributable to Income of Real Estate Investment Trust	(3,096,312)	(2,945,508)	(9,028,359)	(7,757,506)
Total income tax expense (benefit)	\$ 191,571	\$ 483,152	\$ (45,300)	\$ (361,536)

Total income taxes are computed by applying the federal statutory rate of 35 percent plus a blended state income tax rate. Corridor Public Holdings, Inc. and Corridor Private Holdings, Inc. had a blended state rate of approximately 3.78 percent for the three and nine months ended September 30, 2017 and 2.82 percent for the three and nine months ended September 30, 2016. CorEnergy BBWS, Inc. does not record a provision for state income taxes because it operates only in Wyoming, which does not have state income tax. Because Mowood Corridor, Inc. and Corridor MoGas, Inc. primarily only operate in the state of Missouri, a blended state income tax rate of 5 percent was used for the operations of both TRSs for the three and nine months ended September 30, 2017 and 2016. For the three and nine months ended September 30, 2017 and 2016, all of the income tax expense (benefit) presented above relates to the assets and activities held in the Company's TRSs. The components of income tax expense (benefit) include the following for the periods presented:

	Components of Income Tax Expense (Benefit)			
	For the Three Months Ended		For the Nine Months Ended	
	September 30, 2017	September 30, 2016	September 30, 2017	September 30, 2016
Current tax expense (benefit)				
Federal	\$ 58,303	\$ 88,032	\$ 79,865	\$ (350,698)
State (net of federal tax benefit)	6,828	7,093	9,157	(28,256)
Total current tax expense (benefit)	\$ 65,131	\$ 95,125	\$ 89,022	\$ (378,954)
Deferred tax expense (benefit)				
Federal	\$ 124,484	\$ 366,478	\$ (102,298)	\$ 18,546
State (net of federal tax benefit)	1,956	21,549	(32,024)	(1,128)
Total deferred tax expense (benefit)	\$ 126,440	\$ 388,027	\$ (134,322)	\$ 17,418
Total income tax expense (benefit), net	\$ 191,571	\$ 483,152	\$ (45,300)	\$ (361,536)

As of December 31, 2016, the TRSs had an aggregate net operating loss of \$3.0 million. The net operating loss may be carried forward for 20 years. If not utilized, this net operating loss will expire as follows: \$90 thousand, \$804 thousand, \$479 thousand and \$1.7 million in the years ending December 31, 2033, 2034, 2035 and 2036 respectively. The amount of deferred tax asset for net operating losses as of September 30, 2017 includes amounts for the nine months ended September 30, 2017. The aggregate cost of securities for federal income tax purposes and securities with unrealized appreciation and depreciation, were as follows:

	Aggregate Cost of Securities for Income Tax Purposes	
	September 30, 2017	December 31, 2016
Aggregate cost for federal income tax purposes	\$ 3,985,264	\$ 4,327,077
Gross unrealized appreciation	6,904,503	5,408,242
Gross unrealized depreciation	—	—
Net unrealized appreciation	\$ 6,904,503	\$ 5,408,242

7. PROPERTY AND EQUIPMENT

Property and equipment consist of the following:

Property and Equipment		
	September 30, 2017	December 31, 2016
Land	\$ 580,000	\$ 580,000
Natural gas pipeline	124,288,382	124,288,156
Vehicles and trailers	609,503	570,267
Office equipment and computers	268,559	267,095
Gross property and equipment	\$ 125,746,444	\$ 125,705,518
Less: accumulated depreciation	(11,803,423)	(9,292,712)
Net property and equipment	\$ 113,943,021	\$ 116,412,806

Depreciation expense was \$840 thousand and \$2.5 million for the three and nine months ended September 30, 2017, respectively, and \$838 thousand and \$2.5 million for the three and nine months ended September 30, 2016, respectively.

8. MANAGEMENT AGREEMENT

The Company pays its manager, Corridor, pursuant to a Management Agreement as described in the 2016 CorEnergy 10-K. Fees incurred under the Management Agreement for the three and nine months ended September 30, 2017 were \$1.8 million and \$5.5 million, respectively, compared to \$1.9 million and \$5.4 million, respectively, for the three and nine months ended September 30, 2016. Fees incurred under the Management Agreement are reported in the General and Administrative line item on the Consolidated Statements of Income.

The Company pays its administrator, Corridor, pursuant to an Administrative Agreement. Fees incurred under the Administrative Agreement for the three and nine months ended September 30, 2017 were \$68 thousand and \$201 thousand, respectively, compared to \$67 thousand and \$199 thousand, respectively, for the three and nine months ended September 30, 2016. Fees incurred under the Administrative Agreement are reported in the General and Administrative line item on the Consolidated Statements of Income.

9. FAIR VALUE

The following tables set forth the Company's assets and liabilities measured at fair value on a recurring basis, by level within the fair value hierarchy, as of September 30, 2017 and December 31, 2016.

September 30, 2017				
	Total	Fair Value		
		Level 1	Level 2	Level 3
Assets:				
Other equity securities	\$ 10,457,982	\$ —	\$ —	\$ 10,457,982
Interest Rate Swap Derivative	17,918	—	17,918	—
Total Assets	\$ 10,475,900	\$ —	\$ 17,918	\$ 10,457,982
December 31, 2016				
	Total	Fair Value		
		Level 1	Level 2	Level 3
Assets:				
Other equity securities	\$ 9,287,209	\$ —	\$ —	\$ 9,287,209
Interest Rate Swap Derivative	19,950	—	19,950	—
Total Assets	\$ 9,307,159	\$ —	\$ 19,950	\$ 9,287,209

At September 30, 2017, the only assets and liabilities measured at fair value on a recurring basis were the Company's derivatives and its equity securities. On March 30, 2016, the Company terminated one of the cash flow hedges with a notional amount of \$26.3 million concurrent with the assignment of the Pinedale Credit Facility. The remaining cash flow hedge was de-designated from hedge accounting as of March 30, 2016, and continues to be valued using a consistent methodology and therefore is classified as a Level 2 measurement. Subsequent to de-designation, changes in the fair value are recognized in earnings in the period in which the changes occur.

The valuation of the interest rate swaps are determined using widely accepted valuation techniques including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including forward interest rate curves. The inputs used to value the derivatives fall primarily within Level 2 of the value hierarchy.

The changes for all Level 3 securities measured at fair value on a recurring basis using significant unobservable inputs for the nine months ended September 30, 2017 and 2016 are as follows:

Level 3 Rollforward							
	Fair Value Beginning Balance	Acquisitions	Disposals	Total Realized and Unrealized Gains Included in Net Income	Return of Capital Adjustments Impacting Cost Basis of Securities	Fair Value Ending Balance	Changes in Unrealized Gains, Included In Net Income, Relating to Securities Still Held ⁽¹⁾
For the Nine Months Ended September 30, 2017							
Other equity securities	\$ 9,287,209	\$ —	\$ —	\$ 1,410,623	\$ (239,850)	\$ 10,457,982	\$ 1,410,623
Total	\$ 9,287,209	\$ —	\$ —	\$ 1,410,623	\$ (239,850)	\$ 10,457,982	\$ 1,410,623
For the Nine Months Ended September 30, 2016							
Other equity securities	\$ 8,393,683	\$ —	\$ —	\$ 958,443	\$ 113,610	\$ 9,465,736	\$ 958,443
Total	\$ 8,393,683	\$ —	\$ —	\$ 958,443	\$ 113,610	\$ 9,465,736	\$ 958,443

(1) Located in Net realized and unrealized gain on other equity securities in the Consolidated Statements of Income

The Company utilizes the beginning of reporting period method for determining transfers between levels. There were no transfers between levels 1, 2 or 3 for the nine months ended September 30, 2017 and 2016.

Valuation Techniques and Unobservable Inputs

The Company's other equity securities, which represent securities issued by private companies, are classified as Level 3 assets and the Company has elected to report at fair value under the fair value option. Significant judgment is required in selecting the assumptions used to determine the fair values of these investments.

As of September 30, 2017, the Company's investment in Lightfoot is its only remaining significant private company investment. As of both September 30, 2017 and December 31, 2016, the Company held a 6.6 percent and 1.5 percent equity interest in Lightfoot Capital Partners LP and Lightfoot Capital Partners GP, respectively. Lightfoot's assets include an ownership interest in Gulf LNG, a 1.5 billion cubic feet per day ("bcf/d") receiving, storage, and regasification terminal in Pascagoula, Mississippi, and common units and subordinated units representing an approximately 40 percent aggregate limited partner interest, and a noneconomic general partner interest, in Arc Logistics Partners LP (NYSE: ARCX). The Company holds observation rights on Lightfoot's Board of Directors.

In August 2017, ARCX and Lightfoot entered into a purchase agreement and plan of merger with Zenith, pursuant to which Zenith will acquire the limited partner units of ARCX held by Lightfoot, as well as Lightfoot's Gulf LNG and general partner interests. Under the terms of the agreement, Lightfoot will receive \$14.50 per unit of ARCX, and up to \$63.6 million for its interest in Gulf LNG, subject to certain conditions being met. Additionally, Lightfoot will receive \$94.5 million for its general partner interest. As of September 30, 2017, the Company's Lightfoot investment has been valued based on expected proceeds from the proposed merger transaction, discounted using a risk-free rate from an assumed closing date. The expected proceeds utilized in the valuation were developed based on the agreed-upon consideration under the terms of the proposed merger, less estimated transaction fees and expenses. There can be no assurances that the proposed merger transaction will close based on the terms currently outlined, or at all.

As of December 31, 2016, Lightfoot was valued using a combination of the following valuation techniques: (i) public share price of private companies' investments and (ii) discounted cash flow analysis using an estimated discount rate of 15.3 percent to 17.3 percent. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of the Company's investment may fluctuate from period to period. Additionally, the fair value of the Company's investment may differ from the values that would have been used had a ready market existed for such investment and may differ materially from the values that the Company may ultimately realize.

Certain condensed combined unaudited financial information of the unconsolidated affiliate, Lightfoot, is presented in the following tables:

	September 30, 2017	December 31, 2016
	<i>(Unaudited)</i>

The following section describes the valuation methodologies used by the Company for estimating fair value for financial instruments not recorded at fair value, but fair value is included for disclosure purposes only, as required under disclosure guidance related to the fair value of financial instruments.

Cash and Cash Equivalents — The carrying value of cash, amounts due from banks, federal funds sold and securities purchased under resale agreements approximates fair value.

Financing Notes Receivable — The financing notes receivable are valued on a non-recurring basis. The financing notes receivable are reviewed for impairment when events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable. Financing Notes with carrying values that are not expected to be recovered through future cash flows are written-down to their estimated net realizable value. Estimates of realizable value are determined based on unobservable inputs, including estimates of future cash flow generation and value of collateral underlying the notes.

Secured Credit Facilities — The fair value of the Company's long-term variable-rate debt under its secured credit facilities approximates carrying value.

Unsecured Convertible Senior Notes — The fair value of the unsecured convertible senior notes is estimated using quoted market prices.

Carrying and Fair Value Amounts

	Level within fair value hierarchy	September 30, 2017		December 31, 2016	
		Carrying Amount ⁽¹⁾	Fair Value	Carrying Amount ⁽¹⁾	Fair Value
Financial Assets:					
Cash and cash equivalents	Level 1	\$ 15,533,509	\$ 15,533,509	\$ 7,895,084	\$ 7,895,084
Financing notes receivable (Note 4)	Level 3	\$ 1,500,000	\$ 1,500,000	\$ 1,500,000	\$ 1,500,000
Financial Liabilities:					
Secured Credit Facilities	Level 2	\$ 17,534,177	\$ 17,534,177	\$ 89,387,985	\$ 89,387,985
Unsecured convertible senior notes	Level 1	\$ 111,835,285	\$ 132,347,160	\$ 111,244,895	\$ 129,527,940

(1) The carrying value of debt balances are presented net of unamortized original issuance discount and debt issuance costs.

10. DEBT

The following is a summary of the Company's debt facilities and balances as of September 30, 2017 and December 31, 2016:

	Total Commitment or Original Principal	Quarterly Principal Payments	Maturity Date	September 30, 2017		December 31, 2016	
				Amount Outstanding	Interest Rate	Amount Outstanding	Interest Rate
CorEnergy Secured Credit Facility:							
CorEnergy Revolver	\$ 160,000,000	\$ —	7/28/2022	\$ 10,000,000	3.99%	\$ 44,000,000	3.76%
CorEnergy Term Loan ⁽¹⁾	45,000,000	1,615,000	12/15/2019	—	—	36,740,000	3.74%
MoGas Revolver	1,000,000	—	7/28/2022	—	3.99%	—	3.77%
Omega Line of Credit	1,500,000	—	7/31/2018	—	5.24%	—	4.77%
Pinedale Secured Credit Facility:							
\$58.5M Term Loan – related party ⁽²⁾	11,085,750	167,139	3/30/2021	7,534,177	8.23%	8,860,577	8.00%
7.00% Unsecured Convertible Senior Notes	115,000,000	—	6/15/2020	114,000,000	7.00%	114,000,000	7.00%
Total Debt				\$ 131,534,177		\$ 203,600,577	
Less:							
Unamortized deferred financing costs ⁽³⁾				\$ 132,732		\$ 381,531	
Unamortized discount on 7.00% Convertible Senior Notes				2,031,983		2,586,166	
Long-term debt, net of deferred financing costs				\$ 129,369,462		\$ 200,632,880	
Debt due within one year				\$ 668,556		\$ 7,128,556	

(1) The CorEnergy Term Loan was paid off during the third quarter of 2017 in connection with entering into the amended and restated CorEnergy Credit Facility discussed below.

(2) \$47.4 million of the original \$58.5 million term loan is payable to CorEnergy under the same terms and eliminates in consolidation.

(3) Unamortized deferred financing costs related to our revolving credit facilities are included in Deferred Costs in the Assets section of the Consolidated Balance Sheets. Refer to the "Deferred Financing Costs" paragraph below.

CorEnergy Credit Facility

On July 8, 2015, the Company amended and upsized its credit facility with Regions Bank (as lender and administrative agent for the other participating lenders) to provide borrowing commitments of \$153.0 million, consisting of (i) a \$105.0 million revolver at the CorEnergy parent entity level (the "CorEnergy Revolver"), (ii) a \$45.0 million term loan at the CorEnergy parent entity level (the "CorEnergy Term Loan") and (iii) a \$3.0 million revolving credit facility at the MoGas subsidiary entity level (the "MoGas Revolver" and, collectively with the CorEnergy Revolver and the CorEnergy Term Loan, the "CorEnergy Credit Facility").

On April 18, 2017, the Company repaid the \$44.0 million in outstanding borrowings on the CorEnergy Revolver with a portion of the proceeds from a follow-on offering of its 7.375% Series A Preferred Stock, as discussed further in Note 11 ("Stockholder's Equity").

On July 28, 2017, the Company entered into an amendment and restatement of the CorEnergy Credit Facility with Regions Bank (as lender and administrative agent for other participating lenders). The amended facility provides for borrowing commitments of up to \$161.0 million, consisting of (i) \$160.0 million on the CorEnergy Revolver, subject to borrowing base limitations, and (ii) \$1.0 million on the MoGas Revolver. In connection with entering into the amended and restated facility on July 28, 2017, the Company used cash on hand and \$10.0 million of borrowings under the amended facility to repay the \$33.5 million outstanding balance on the CorEnergy Term Loan.

The amended facility has a 5-year term maturing on July 28, 2022, and provides for a springing maturity on February 28, 2020, and thereafter, if the Company fails to meet certain liquidity requirements from the springing maturity date through the maturity of the Company's convertible notes on June 15, 2020. Borrowings under the credit facility will generally bear interest on the outstanding principal amount using a LIBOR pricing grid that is expected to equal a LIBOR rate plus an applicable margin of 2.75 percent to 3.75 percent, based on the Company's senior secured recourse leverage ratio. Total availability is subject to a borrowing base. The CorEnergy Credit Facility contains, among other restrictions, certain financial covenants including the maintenance of certain financial ratios, as well as default and cross-default provisions customary for transactions of this nature (with applicable customary grace periods). As of September 30, 2017, the Company was in compliance with all covenants of the CorEnergy Credit Facility.

As of September 30, 2017, the Company had approximately \$130.5 million and \$1.0 million of availability under the CorEnergy Revolver and MoGas Revolver, respectively.

Pinedale Credit Facility

On December 20, 2012, Pinedale LP closed on a \$70.0 million secured term credit facility. Outstanding balances under the original facility generally accrued interest at a variable annual rate equal to LIBOR plus 3.25 percent. This credit facility was secured by the Pinedale LGS asset. The credit facility remained in effect until December 31, 2015, with an option to extend through December 31, 2016. Although the Company elected not to extend the facility for an additional one-year period, it did amend the facility to extend the maturity date to March 30, 2016. During the extension period, the company made principal payments of \$3.2 million and the credit facility bore interest on the outstanding principal amount at LIBOR plus 4.25 percent.

On March 4, 2016, the Company obtained a consent from its lenders under the CorEnergy Credit Facility, which permitted the Company to utilize the CorEnergy Revolving Credit Facility to refinance the Company's pro rata share of the remaining balance of the Pinedale secured term credit facility. On March 30, 2016, the Company and Prudential ("the Refinancing Lenders"), refinanced the remaining \$58.5 million principal balance of the \$70.0 million credit facility (on a pro rata basis equal to their respective equity interests in Pinedale LP, with the Company's 81.05 percent share being approximately \$47.4 million) and executed a series of agreements assigning the credit facility to CorEnergy Infrastructure Trust, Inc. as Agent for the Refinancing Lenders. The facility was further modified to extend the maturity date to March 30, 2021; to increase the LIBOR Rate to the greater of (i) 1.00 percent and (ii) the one-month LIBOR rate; and to increase the LIBOR Rate Spread to 7.00 percent per annum. The Company's portion of the debt and interest is eliminated in consolidation and Prudential's portion of the debt is shown as a related-party liability. The Company also terminated one of two related interest rate swaps with a notional amount of \$26.3 million.

Pinedale LP's credit facility with the Refinancing Lenders limits distributions by Pinedale LP to the Company. Such distributions are permitted to the extent required for the Company to maintain its REIT qualification, so long as Pinedale LP's obligations under the credit facility have not been accelerated following an Event of Default (as defined in the credit facility). Pinedale LP automatically entered into a Cash Control Period (as defined in the credit facility) with the Refinancing Lenders upon the April 29, 2016 bankruptcy filing by Ultra Wyoming and its parent guarantor, Ultra Petroleum. During the Cash Control Period, the Company as Agent swept all funds for the repayment of accrued interest, scheduled principal payments and principal prepayments on the loans. Ultra Petroleum emerged from bankruptcy in April 2017, resulting in the end of the Cash Control Period and, in May 2017, Pinedale LP resumed distributions.

The Company has provided to Prudential a guarantee against certain inappropriate conduct by or on behalf of Pinedale LP or CorEnergy. The credit facility also requires Pinedale LP to maintain minimum net worth levels and certain leverage ratios, which along with other provisions of the credit facility limit cash dividends and loans to the Company. At September 30, 2017, the net assets of Pinedale LP were \$145.0 million and Pinedale LP was in compliance with all of the financial covenants of the Pinedale Credit Facility.

Deferred Financing Costs

Previously existing deferred financing costs related to the CorEnergy Credit Facility were approximately \$1.8 million, of which approximately \$1.6 million will continue to be deferred and amortized under the amended and restated facility. Additionally, the Company incurred approximately \$1.3 million in new debt issuance costs which have been deferred and will be amortized over the term of the new facility. The total deferred financing costs of \$2.9 million are being amortized on a straight-line basis over the 5-year term of the amended and restated CorEnergy Credit Facility. Approximately \$234 thousand of existing deferred costs and new debt issuance costs were expensed as a loss on extinguishment of debt related to the amendment and restatement in the Consolidated Statements of Income for each of the three and nine months ended September 30, 2017.

A summary of deferred financing cost amortization expenses for the three and nine months ended September 30, 2017 and 2016 is as follows:

	For the Three Months Ended		For the Nine Months Ended	
	September 30, 2017	September 30, 2016	September 30, 2017	September 30, 2016
CorEnergy Credit Facility	\$ 185,948	\$ 272,074	\$ 730,096	\$ 806,452
Pinedale Credit Facility	—	—	—	156,330
Total Deferred Debt Cost Amortization Expense⁽¹⁾⁽²⁾	\$ 185,948	\$ 272,074	\$ 730,096	\$ 962,782

(1) Amortization of deferred debt issuance costs is included in interest expense in the Consolidated Statements of Income.

(2) For the amount of deferred debt cost amortization relating to the Convertible Notes included in the Consolidated Statements of Income, refer to the Convertible Note Interest Expense table below.

Contractual Payments

The remaining contractual principal payments as of September 30, 2017 under the CorEnergy and Pinedale credit facilities are as follows:

Year	CorEnergy Revolver	Pinedale Credit Facility	Total
2017	\$ —	\$ 167,139	\$ 167,139
2018	—	668,556	668,556
2019	—	668,556	668,556
2020	—	668,556	668,556
2021	—	5,361,370	5,361,370
Thereafter	10,000,000	—	10,000,000
Total Remaining Contractual Payments	\$ 10,000,000	\$ 7,534,177	\$ 17,534,177

Convertible Debt

On June 29, 2015, the Company completed a public offering of \$115.0 million aggregate principal amount of 7.00% Convertible Senior Notes Due 2020 (the "Convertible Notes"). The Convertible Notes mature on June 15, 2020 and bear interest at a rate of 7.00 percent per annum, payable semi-annually in arrears on June 15 and December 15 of each year, beginning on December 15, 2015. On May 23, 2016, the Company repurchased \$1.0 million of its convertible bonds on the open market.

The following is a summary of the impact of Convertible Notes on interest expense for the three and nine months ended September 30, 2017 and 2016:

	Convertible Note Interest Expense			
	For the Three Months Ended		For the Nine Months Ended	
	September 30, 2017	September 30, 2016	September 30, 2017	September 30, 2016
7.00% Convertible Notes	\$ 1,995,000	\$ 2,017,167	\$ 5,985,000	\$ 6,013,195
Discount Amortization	184,728	185,391	554,184	559,353
Deferred Debt Issuance Amortization	12,069	11,539	36,207	36,497
Total Convertible Note Interest Expense	\$ 2,191,797	\$ 2,214,097	\$ 6,575,391	\$ 6,609,045

The Convertible Notes were initially issued with an underwriters' discount of \$3.7 million which is being amortized over the life of the Convertible Notes. Including the impact of the convertible debt discount and related deferred debt issuance costs, the effective interest rate on the Convertible Notes is approximately 7.7 percent for each of the three and nine months ended September 30, 2017 and 7.8 percent and 7.7 percent for the three and nine months ended September 30, 2016, respectively.

11. STOCKHOLDER'S EQUITY

PREFERRED STOCK

On April 18, 2017, the Company closed a follow-on underwritten public offering of 2,800,000 depository shares, each representing 1/100th of a share of 7.375% Series A Preferred Stock, at a price of \$25.00 per depository share. On May 10, 2017, the Company sold an additional 150,000 depository shares at a public offering price of \$25.00 per depository share in connection with the underwriters' exercise of their over-allotment option to purchase additional shares. Total proceeds from the offering were

approximately \$71.2 million, after deducting underwriting discounts and other offering expenses. A portion of the proceeds from the offering were utilized to repay \$44.0 million in outstanding borrowings under the CorEnergy Revolver. Following the offering, the Company has a total of 5,200,000 depository shares outstanding. See Note 13 ("Subsequent Events") for further information regarding the declaration of a dividend on the 7.375% Series A Preferred Stock.

COMMON STOCK

As of September 30, 2017, the Company has 11,909,244 of common shares issued and outstanding. See Note 13 ("Subsequent Events") for further information regarding the declaration of a dividend on the common stock.

SHELF REGISTRATION

On February 18, 2016, the Company had a new shelf registration statement declared effective by the SEC, pursuant to which it may publicly offer additional debt or equity securities with an aggregate offering price of up to \$600.0 million.

As of September 30, 2017, the Company has issued 55,629 shares of common stock under the Company's dividend reinvestment plan pursuant to the February 18, 2016 shelf, reducing availability by approximately \$1.5 million. Shelf availability was further reduced by approximately \$73.8 million as a result of the follow-on offering of additional 7.375% Series A Preferred Stock during the second quarter of 2017. As of September 30, 2017, availability on the current shelf registration is approximately \$524.7 million.

12. EARNINGS PER SHARE

Basic earnings per share data is computed based on the weighted-average number of shares of common stock outstanding during the periods. Diluted EPS data is computed based on the weighted-average number of shares of common stock outstanding, including all potentially issuable shares of common stock. Diluted EPS for the three and nine months ended September 30, 2017 and for the nine months ended September 30, 2016 excludes the impact to income and the number of shares outstanding from the conversion of the 7.00% Convertible Senior Notes because such impact is antidilutive.

	For the Three Months Ended		For the Nine Months Ended	
	September 30, 2017	September 30, 2016	September 30, 2017	September 30, 2016
Net income attributable to CorEnergy stockholders	\$ 9,177,284	\$ 9,231,185	\$ 25,846,934	\$ 21,576,833
Less: preferred dividend requirements	2,396,875	1,037,109	5,557,113	3,111,327
Net income attributable to common stockholders	\$ 6,780,409	\$ 8,194,076	\$ 20,289,821	\$ 18,465,506
Weighted average shares - basic	11,904,933	11,872,729	11,896,803	11,909,431
Basic earnings per share	\$ 0.57	\$ 0.69	\$ 1.71	\$ 1.55
Net income attributable to common stockholders (from above)	\$ 6,780,409	\$ 8,194,076	\$ 20,289,821	\$ 18,465,506
Add: After tax effect of convertible interest ⁽¹⁾	—	2,214,097	—	—
Income attributable for dilutive securities	\$ 6,780,409	\$ 10,408,173	\$ 20,289,821	\$ 18,465,506
Weighted average shares - diluted	11,904,933	15,327,274	11,896,803	11,909,431
Diluted earnings per share	\$ 0.57	\$ 0.68	\$ 1.71	\$ 1.55

(1) The interest amounts in this line include the amortization of deferred costs and the amortization of the discount on the Convertible Notes. There is no income tax effect due to the Company's REIT status.

13. SUBSEQUENT EVENTS

The Company performed an evaluation of subsequent events through the date of the issuance of these financial statements and determined that no additional items require recognition or disclosure, except for the following:

Common Stock Dividend Declaration

On October 25, 2017, the Company's Board of Directors declared the 2017 third quarter dividend of \$0.75 per share for CorEnergy common stock. The dividend is payable on November 30, 2017 to shareholders of record on November 15, 2017.

Preferred Stock Dividend Declaration

On October 25, 2017, the Company's Board of Directors also declared a cash dividend of \$0.4609375 per depository share for its 7.375% Series A Preferred Stock. The preferred stock dividend is payable on November 30, 2017 to shareholders of record on November 15, 2017.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the Consolidated Financial Statements and Notes thereto in this Report on Form 10-Q of CorEnergy Infrastructure, Inc. ("the Company," "CorEnergy," "we" or "us"). The forward-looking statements included in this discussion and elsewhere in this Report on Form 10-Q involve risks and uncertainties, including anticipated financial performance, business prospects, industry trends, shareholder returns, performance of leases by tenants, performance on loans to customers, and other matters, which reflect management's best judgment based on factors currently known. See "Cautionary Statement Concerning Forward-Looking Statements" which is incorporated herein by reference. Actual results and experience could differ materially from the anticipated results and other expectations expressed in our forward-looking statements as a result of a number of factors, including but not limited to those discussed in Part I, Item 1A, "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2016, filed with the SEC on March 2, 2017, and Part II, Item 1A, "Risk Factors" in this Report on Form 10-Q.

BUSINESS OBJECTIVE

CorEnergy primarily owns assets in the U.S. energy sector that perform utility-like functions, such as pipelines, storage terminals, rail terminals and gas and electric transmission and distribution assets. Our objective is to provide shareholders with a stable and growing cash dividend, supported by long-term contracted revenue from operators of our assets, primarily under triple-net participating leases. These leases generate stable cash flows without direct commodity price exposure. We believe our leadership team's energy and utility expertise provides CorEnergy with a competitive advantage to acquire, own and lease U.S. energy infrastructure assets in a tax-efficient, transparent, investor-friendly REIT. We meet the capital needs of companies in the U.S. energy infrastructure sector because we are a passive, long-term partner using our management's extensive industry knowledge to customize our long-term leases and structured financings. Our leadership team also has extensive insight on the broad universe of assets that may be owned by a REIT and utilizes a disciplined investment philosophy developed through an average of over 24 years of relevant industry experience.

We expect our leases to provide us with contracted base rent, plus participating rent based upon asset-specific criteria. The energy industry commonly employs contracts with participating features, and we provide exposure to both the risk and opportunity of utilization of our assets, which we believe is a hallmark of infrastructure assets of all types. Our participating triple-net leases require the operator to pay all expenses of the business including maintaining our assets in good working order.

The majority of our assets leased to tenants under triple-net leases are dependent upon the tenants' exploitation of hydrocarbon reserves in the fields where our assets are located. These reserves are depleted over time, and therefore, may economically diminish the value of our assets over the period that the underlying reserves are exploited. Accordingly, we expect the contracted base rents under these leases, including fair market renewal rent expectations, to provide for a return on capital, as well as a return of capital, over the life of the asset. The portion of rents we believe to constitute a return of capital are utilized for debt repayment and/or are reserved for capital reinvestment activities in order to maintain our long-term earnings and dividend paying capacity. The return on capital is that portion of rents which are available for distribution to our shareholders through dividend payouts.

Base rents under our leases are structured on an estimated fair market value rent structure over the initial term, which includes assumptions related to the terminal value of our assets and expectations of tenant renewals. At the conclusion of the initial lease term, our leases generally contain fair market value repurchase options or fair market rent renewal terms. These clauses also act as safeguards against our tenants pursuing activities which would undermine or degrade the value of our assets faster than the underlying reserves are depleted. Our participating rents are structured to provide exposure to the commercial activity of the tenant, and as such, also provide protection in the event that the economic life of our assets is reduced based on accelerated production by our tenants.

Our assets are primarily mission-critical to our customers, in that utilization of our assets is necessary for the business they seek to conduct and their rental payments are an essential operating expense. For example, our crude oil gathering system assets are necessary to the exploitation of upstream crude oil reserves, so the operators' lease of those assets is economically critical to their operations. Some of our assets are subject to rate regulation by FERC or state public utility commissions. Further, energy infrastructure assets are an essential and growing component of the U.S. economy that give us the opportunity to assist the capital expansion plans and meet the capital needs of various midstream and upstream participants.

We intend to distribute substantially all of our cash available for distribution, less prudent reserves, on a quarterly basis. CorEnergy targets revenue growth of 1-3 percent annually from existing contracts through inflation escalations and participating rents and additional growth from acquisitions. Dependent on the level of revenue growth achieved, we will assess our ability to responsibly grow our dividend above current levels. Since qualifying as a REIT in 2013, we have grown our annualized dividend from \$2.50 per share to \$3.00 per share. Our management contract includes incentive provisions, aligning our leadership team with our stockholders' interests in raising the dividend only if we believe the rate is sustainable.

Recent Developments*Amendment and Restatement of CorEnergy Credit Facility*

On July 28, 2017, we entered into an amendment and restatement of the CorEnergy Credit Facility with Regions Bank (as lender and administrative agent for other participating lenders). The amended facility provides for commitments of up to \$161.0 million, comprised of (i) increased commitments on the CorEnergy Revolver of up to \$160.0 million, subject to borrowing base limitations, and (ii) a \$1.0 million commitment on the MoGas Revolver. The amended facility has a 5-year term maturing on July 28, 2022, and provides for a springing maturity on February 28, 2020, and thereafter, if we fail to meet certain liquidity requirements from the springing maturity date through the maturity of our convertible notes on June 15, 2020.

In connection with entering into the amended and restated facility, we used cash on hand and borrowings under the amended facility to repay the \$33.5 million outstanding balance on the CorEnergy Term Loan on the prior facility. See Part I, Item 1, Note 10 ("Debt") for further information.

Basis of Presentation

The consolidated financial statements include CorEnergy Infrastructure Trust, Inc., as of September 30, 2017, and its direct and indirect wholly-owned subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.

RESULTS OF OPERATIONS

The following tables summarize the financial data and key operating statistics for CorEnergy for the three and nine months ended September 30, 2017 and 2016. We believe the Operating Results detail presented below provides investors with information that will assist them in analyzing our operating performance. The following data should be read in conjunction with our consolidated financial statements and the notes thereto included in Part I, Item 1 of this Report. All information in Part I, Item 2 "Management's Discussion and Analysis of Financial Condition and Results of Operations," except for balance sheet data as of December 31, 2016, is unaudited.

The following table and discussion is a summary of our results of operations for the three and nine months ended September 30, 2017 and 2016:

	For the Three Months Ended		For the Nine Months Ended	
	September 30, 2017	September 30, 2016	September 30, 2017	September 30, 2016
Revenue				
Lease revenue	\$ 17,173,676	\$ 16,996,155	\$ 51,290,294	\$ 50,988,299
Transportation and distribution revenue	5,270,628	5,119,330	15,056,998	15,283,461
Financing revenue	—	—	—	162,344

(1) Refer to the "Non-GAAP Financial Measures" section that follows for additional details.

Three Months Ended September 30, 2017 Compared to the Three Months Ended September 30, 2016

Revenue. Consolidated revenues were \$22.4 million for the three months ended September 30, 2017 compared to \$22.1 million for the three months ended September 30, 2016, representing an increase of \$329 thousand. Lease revenue was \$17.2 million and \$17.0 million for the three months ended September 30, 2017 and 2016 with the increase of approximately \$178 thousand driven primarily by variable rent collected on the Pinedale lease during the third quarter 2017. Transportation and distribution revenue from our subsidiaries MoGas and Omega was \$5.3 million and \$5.1 million for the three months ended September 30, 2017 and 2016, respectively. The \$151 thousand increase primarily resulted from the timing of projects performed by Omega for Fort Leonard Wood.

Transportation and Distribution Expenses. Transportation and distribution expenses were \$2.4 million and \$1.5 million for the three months ended September 30, 2017 and 2016, respectively, representing an increase of \$902 thousand. The increase relates primarily to planned pipeline integrity maintenance work at MoGas during the third quarter of 2017, as well as higher costs resulting from the timing of projects performed by Omega for Fort Leonard Wood.

General and Administrative Expenses. General and administrative expenses were \$2.6 million for the three months ended September 30, 2017 compared to \$3.0 million for the three months ended September 30, 2016. The most significant components of the variance from the prior-year period are outlined in the following table and explained below:

	For the Three Months Ended	
	September 30, 2017	September 30, 2016
Management fees	\$ 1,827,424	\$ 1,934,873
Acquisition and professional fees	519,006	655,810
Other expenses	286,116	431,186
Total	\$ 2,632,546	\$ 3,021,869

Management fees are directly proportional to our asset base. For the three months ended September 30, 2017, management fees decreased \$107 thousand compared to the prior-year period due primarily to (i) the incentive fee for the second quarter 2016 being recorded in the third quarter of 2016 and (ii) certain fluctuations in the asset base. See Part I, Item 1, Note 8 ("Management Agreement") for additional information.

Acquisition and professional fees for the three months ended September 30, 2017 decreased \$137 thousand from the prior-year period due to a \$139 thousand decrease in professional fees. The decrease in professional fees during the three months ended September 30, 2017 is primarily attributable to lower legal fees compared to the prior-year period related to legal fees incurred in the monitoring of our assets at Pinedale and GIGS during the bankruptcy proceedings.

Generally, we expect asset acquisition expenses to be repaid over time from income generated by acquisitions. However, any particular period may reflect significant expenses arising from third party legal, engineering, and consulting fees that are incurred in the early to mid-stages of due diligence. Due to the uncertainty in the energy industry and the number of energy companies going through the bankruptcy process in 2016, the Company experienced lower asset acquisition costs. Asset acquisition costs during the three months ended September 30, 2017 were relatively consistent with the prior-year period due to a reimbursement of \$87 thousand in previously incurred costs recorded in the current-year period.

Other expenses for the three months ended September 30, 2017 decreased \$145 thousand compared to the prior-year period. The decrease is primarily related to higher expenses at Black Bison in the prior period due to the foreclosure and sale activities.

Depreciation, Amortization and ARO Accretion Expense. Depreciation, amortization and ARO accretion expense was \$6.0 million for the three months ended September 30, 2017 compared to \$5.7 million for the three months ended September 30, 2016. This increase was primarily related to depreciation expense, which increased \$287 thousand from the three months ended September 30, 2017 compared to the three months ended September 30, 2016. The change in depreciation expense was driven by a reduction in the useful life of GIGS property to 26.5 years at the end of 2016.

Net Distributions and Dividend Income. Net distributions and dividend income for the three months ended September 30, 2017 was \$213 thousand compared to \$278 thousand for the three months ended September 30, 2016. The portion of distributions and dividends deemed to be income versus a return of capital in any period are made at the time such distributions are received. These estimates may be subsequently revised based on information received from the portfolio company after their tax reporting periods are concluded. The following table provides a reconciliation of the gross cash distributions and dividend income received from our investment securities during the three months ended September 30, 2017 and 2016 to the net distributions and dividends recorded as income on the Consolidated Statements of Income.

	For the Three Months Ended	
	September 30, 2017	September 30, 2016
Gross cash distributions and dividend income received from investment securities	\$ 242,412	\$ 278,782
Add:		
Cash distributions received in prior period previously deemed a return of capital (dividend income) which have been reclassified as income (return of capital) in a subsequent period	—	—
Less:		
Cash distributions and dividends received in current period deemed a return of capital and not recorded as income (recorded as a cost reduction) in the current period	29,372	1,259
Net distributions and dividends recorded as income	\$ 213,040	\$ 277,523

Net Realized and Unrealized Gain on Other Equity Securities. For the three months ended September 30, 2017, the Company recorded a net gain on other equity securities of \$1.3 million compared to a \$1.4 million net gain recorded the same period in

2016, a decrease of \$91 thousand. The net gains recorded are directly related to fluctuations in the valuation of Lightfoot, which is dependent on the public share price of ARCX, the valuation of its Gulf LNG interest and its GP interest. In August 2017, ARCX and Lightfoot entered into a purchase agreement and plan of merger with Zenith Energy U.S., L.P. ("Zenith") pursuant to which Zenith will acquire the outstanding units of ARCX held by Lightfoot, as well as Lightfoot's Gulf LNG and GP interests. The net gain recorded during the three months ended September 30, 2017 is primarily due to an increased valuation of the GP interest, based on the terms of the merger. The increase in the prior-year period was primarily the result of fluctuations in the public share price of ARCX.

Interest Expense. For the three months ended September 30, 2017 and 2016, interest expense totaled approximately \$2.9 million and \$3.5 million, respectively. This decrease was attributable to (i) lower outstanding borrowings on the CorEnergy Revolver during the second quarter 2017 and (ii) refinancing the CorEnergy Credit Facility during the third quarter 2017, which included the payment of outstanding borrowings on the CorEnergy Term Loan.

Loss on Extinguishment of Debt. For the three months ended September 30, 2017, a loss on extinguishment of debt totaling approximately \$234 thousand was recorded in connection with entering into the amended and restated CorEnergy Credit Facility on July 28, 2017. There was no loss on extinguishment of debt recorded for the three months ended September 30, 2016. For additional information, see Part I, Item 1, Note 10 ("Debt").

Income Tax Expense. Income tax expense was \$192 thousand and \$483 thousand for the three months ended September 30, 2017 and 2016, respectively, representing a decrease of \$292 thousand. The decrease was primarily attributable to lower taxable income at our TRS entities, largely driven by increased costs related to planned pipeline integrity work at MoGas during the third quarter of 2017.

Net Income. Net income was \$9.6 million for each of the three months ended September 30, 2017 and 2016. For each of the three months ended September 30, 2017 and 2016, net income attributable to CorEnergy stockholders was \$9.2 million. After deducting \$2.4 million and \$1.0 million for the portion of preferred dividends that are allocable to each respective period, net income attributable to common stockholders for the three months ended September 30, 2017 was \$6.8 million, or \$0.57 per basic and diluted common share as compared to \$8.2 million, or \$0.69 per basic common share and \$0.68 per diluted common share, for the prior-year period.

Nine Months Ended September 30, 2017 Compared to the Nine Months Ended September 30, 2016

Revenue. Consolidated revenues were \$66.3 million for the nine months ended September 30, 2017 compared to \$66.4 million for the nine months ended September 30, 2016, representing a decrease of \$87 thousand. Lease revenue was \$51.3 million and \$51.0 million for the nine months ended September 30, 2017 and 2016, respectively, resulting in an increase of \$302 thousand. This increase in lease revenue was driven by annual CPI escalations pursuant to the Pinedale Lease Agreement in addition to variable rent collected on the Pinedale Lease during the third quarter 2017. Transportation and distribution revenue from our subsidiaries MoGas and Omega was \$15.1 million and \$15.3 million for the nine months ended September 30, 2017 and 2016, respectively. The \$226 thousand decrease primarily resulted from one month of natural gas revenues at Omega being presented on a gross basis in the prior-year period, prior to a new contract with the Department of Defense, which was effective February 1, 2016, whereby natural gas revenues and related costs are presented on a net basis.

Transportation and Distribution Expenses. Transportation and distribution expenses were \$5.1 million and \$4.2 million for the nine months ended September 30, 2017 and 2016, respectively, representing an increase of \$860 thousand. The increase relates primarily to planned pipeline integrity maintenance work performed at MoGas during 2017.

General and Administrative Expenses. General and administrative expenses were \$8.3 million for the nine months ended September 30, 2017 compared to \$9.1 million for the nine months ended September 30, 2016. The most significant components of the variance from the prior-year period are outlined in the following table and explained below:

	For the Nine Months Ended	
	September 30, 2017	September 30, 2016
Management fees	\$ 5,457,905	\$ 5,391,569
Acquisition and professional fees	1,930,511	2,187,459
Other expenses	863,709	1,505,933
Total	\$ 8,252,125	\$ 9,084,961

Management fees are directly proportional to our asset base. For the nine months ended September 30, 2017, management fees increased \$66 thousand compared to the prior-year period due to minimal fluctuations in the asset base. See Part I, Item 1, Note 8 ("Management Agreement") for additional information.

Acquisition and professional fees for the nine months ended September 30, 2017 decreased \$257 thousand from the prior-year period. An increase of \$434 thousand in acquisition expenses was more than offset by a \$691 thousand decrease in professional fees. Due to the uncertainty in the energy industry and the number of energy companies going through the bankruptcy process in 2016, the Company experienced lower asset acquisitions costs. During the nine months ended September 30, 2017, asset acquisition expenses increased primarily due to increased focus on potential acquisition opportunities.

For the nine months ended September 30, 2017, the decrease in professional fees is primarily attributable to the reimbursement of legal fees received in the current year for costs incurred during UPL's bankruptcy. Other factors that caused the decrease include increased costs in the prior year related to (i) monitoring of our assets at Pinedale and GIGS during their respective bankruptcies and (ii) expenses associated with the January 2016 Form S-3 Registration Statement.

Other expenses for the nine months ended September 30, 2017 decreased \$642 thousand compared to the prior-year period. The decrease is primarily related to (i) a non-cash gain recorded on settlement of accounts payable in the current-year period and (ii) higher expenses at Black Bison due to the foreclosure and sale activities in the prior-year period.

Depreciation, Amortization and ARO Accretion Expense. Depreciation, amortization and ARO accretion expense was \$18.0 million for the nine months ended September 30, 2017 compared to \$16.8 million for the nine months ended September 30, 2016. This increase was primarily related to depreciation expense, which increased \$1.3 million from the nine months ended September 30, 2017 to the nine months ended September 30, 2016. The change in depreciation expense was driven by (i) a reduction in the useful life of GIGS property to 26.5 years at the end of 2016 (\$864 thousand) and (ii) a \$433 thousand adjustment recorded in the prior-year period which reduced depreciation expense.

Provision for loan loss and disposition. For the nine months ended September 30, 2016, we recorded a provision for loan losses of approximately \$5.0 million. The prior-year provision for loan losses related primarily to a write-down of \$3.5 million on the SWD loans, with additional provisions recorded related to the Black Bison financing notes. There were no loan loss provisions recorded for the nine months ended September 30, 2017. For additional information, see Part I, Item 1, Note 4 ("Financing Notes Receivable").

Net Distributions and Dividend Income. Net distributions and dividend income for the nine months ended September 30, 2017 decreased \$389 thousand from the nine months ended September 30, 2016. The decrease was primarily the result of adjustments recorded in the first quarter of each year upon the receipt of the annual K-1s, which depict our share of income and losses from the investment in the security. The portion of distributions and dividends deemed to be income versus a return of capital in any period are made at the time such distributions are received. These estimates may be subsequently revised based on information received from the portfolio company after their tax reporting periods are concluded. The following table provides a reconciliation of the gross cash distributions and dividend income received from our investment securities during the nine months ended September 30, 2017 and 2016 to the net distributions and dividends recorded as income on the Consolidated Statements of Income.

	For the Nine Months Ended	
	September 30, 2017	September 30, 2016
Gross cash distributions and dividend income received from investment securities	\$ 717,791	\$ 753,655
Add:		
Cash distributions received in prior period previously deemed a return of capital (dividend income) which have been reclassified as income (return of capital) in a subsequent period	(148,649)	117,004
Less:		
Cash distributions and dividends received in current period deemed a return of capital and not recorded as income (recorded as a cost reduction) in the current period	91,200	3,394
Net distributions and dividends recorded as income	\$ 477,942	\$ 867,265

Net Realized and Unrealized Gain on Other Equity Securities. For the nine months ended September 30, 2017, the Company recorded a net gain on other equity securities of \$1.4 million compared to a net gain of \$1.0 million in the prior-year period, an increase of \$409 thousand. The net gains recorded are directly related to fluctuations in the valuation of Lightfoot, which is dependent on the public share price of ARCX, the valuation of its Gulf LNG interest and its GP interest. In August 2017, ARCX and Lightfoot entered into a purchase agreement and plan of merger with Zenith, pursuant to which Zenith will acquire the outstanding units of ARCX held by Lightfoot, as well as Lightfoot's Gulf LNG and GP interests. The gain recorded during the nine months ended September 30, 2017 is primarily due to an increased valuation of the GP interest, based on the terms of the merger. The increase in the prior-year period was primarily the result of fluctuations in the public share price of ARCX.

Interest Expense. For the nine months ended September 30, 2017 and 2016, interest expense totaled approximately \$9.6 million and \$11.0 million, respectively. This decrease was primarily attributable to (i) the Company internally refinancing its pro rata share of the Pinedale Credit Facility on March 30, 2016, which resulted in a reduction of the outstanding debt balance with third

parties, (ii) the payment of outstanding borrowings on the CorEnergy Revolver during the second quarter 2017 and (iii) refinancing the CorEnergy Credit Facility during the third quarter 2017, which included the payment of outstanding borrowings on the CorEnergy Term Loan.

Loss on Extinguishment of Debt. For the nine months ended September 30, 2017, a loss on extinguishment of debt totaling approximately \$234 thousand was recorded in connection with entering into the amended and restated CorEnergy Credit Facility on July 28, 2017. There was no loss on extinguishment of debt recorded for the nine months ended September 30, 2016. For additional information, see Part I, Item 1, Note 10 ("Debt").

Income Tax Benefit. Income tax benefit was \$45 thousand and \$362 thousand for the nine months ended September 30, 2017 and 2016, respectively, representing a decrease of \$316 thousand. The higher benefit in the prior year was primarily attributable to the loan loss provisions recorded in the prior-year period related to Black Bison and SWD.

Net Income. Net income was \$27.1 million and \$22.6 million for the nine months ended September 30, 2017 and 2016, respectively. For the nine months ended September 30, 2017 and 2016, net income attributable to CorEnergy stockholders was \$25.8 million and \$21.6 million, respectively. After deducting \$5.6 million and \$3.1 million for the portion of preferred dividends that are allocable to each respective period, net income attributable to common stockholders for the nine months ended September 30, 2017 was \$20.3 million, or \$1.71 per basic and diluted common share compared to \$18.5 million, or \$1.55 per basic and diluted common share for the prior-year period.

Common Equity Attributable to CorEnergy Shareholders per Share

As of September 30, 2017, our common equity decreased by approximately \$8.5 million to \$341.7 million from \$350.2 million as of December 31, 2016. This decrease principally consists of: (i) dividends paid to our shareholders of approximately \$32.5 million, (ii) \$2.6 million of offering costs related to the issuance of 7.375% Series A Preferred Stock, offset by (iii) net income attributable to CorEnergy common stockholders of approximately \$25.8 million; and (iv) \$795 thousand of common stock issued pursuant to reinvestment of dividends through the DRIP or director's compensation plans. The following book value per common share table does not reflect non-controlling interest equity.

	Book Value Per Common Share	
Analysis of Equity	September 30, 2017	December 31, 2016
Series A Cumulative Redeemable Preferred Stock 7.375%, \$130,000,000 and \$56,250,000 liquidation preference (\$2,500 per share, \$0.001 par value), 10,000,000 authorized; 52,000 and 22,500 issued and outstanding at September 30, 2017 and December 31, 2016, respectively	\$ 130,000,000	\$ 56,250,000
Capital stock, non-convertible, \$0.001 par value; 11,909,244 and 11,886,216 shares issued and outstanding at September 30, 2017 and December 31, 2016 (100,000,000 shares authorized)	11,909	11,886
Additional paid-in capital	341,678,080	350,217,746
Accumulated other comprehensive loss	(2,180)	(11,196)
Total CorEnergy Stockholders' Equity	\$ 471,687,809	\$ 406,468,436
Subtract: 7.375% Series A Preferred Stock	(130,000,000)	(56,250,000)
Total CorEnergy Common Equity	\$ 341,687,809	\$ 350,218,436
Common shares outstanding	11,909,244	11,886,216
Book Value per Common Share	\$ 28.69	\$ 29.46

NON-GAAP FINANCIAL MEASURES

We use certain financial measures that are not recognized under GAAP. The non-GAAP financial measures used in this Report include earnings before interest, taxes, depreciation and amortization as adjusted in the manner described below ("Adjusted EBITDA"); National Association of Real Estate Investment Trusts funds from operations ("NAREIT FFO"); funds from operations adjusted for securities investments ("FFO"); and FFO as further adjusted in the manner described below ("AFFO"). These supplemental measures are used by our management team and are presented because we believe they help investors understand our business, performance and ability to earn and distribute cash to our stockholders by providing perspectives not immediately apparent from net income. The presentation of Adjusted EBITDA, NAREIT FFO, FFO and AFFO are not intended to be considered in isolation or as a substitute for, or superior to, the financial information prepared and presented in accordance with GAAP.

We offer these measures to assist the users of our financial statements in assessing our operating performance under U.S. GAAP, but these measures are non-GAAP measures and should not be considered measures of liquidity, alternatives to net income or indicators of any other performance measure determined in accordance with GAAP, nor are they indicative of funds available to fund our cash needs, including capital expenditures (if any), to make payments on our indebtedness or to make distributions. Our method of calculating these measures may be different from methods used by other companies and, accordingly, may not be

comparable to similar measures as calculated by other companies. Investors should not rely on these measures as a substitute for any GAAP measure, including net income, cash flows from operating activities or revenues.

Adjusted EBITDA

Adjusted EBITDA is a non-GAAP financial measure that management and external users of our consolidated financial statements, such as industry analysts, investors and lenders may use to evaluate our ongoing operating results, including (i) the performance of our assets without regard to the impact of financing methods, capital structure or historical cost basis of our assets and (ii) the overall rates of return on alternative investment opportunities. We believe that the presentation of Adjusted EBITDA provides useful information to investors in assessing our financial condition and results of operations. Our presentation of Adjusted EBITDA represents income attributable to common stockholders adjusted for net realized and unrealized (gain) loss on securities, non-cash; depreciation, amortization and ARO accretion; (gain) loss on extinguishment of debt; interest expense, net; provision for loan losses; and preferred dividend requirements, less distributions and dividends received in prior period previously deemed a return of capital (recorded as a cost reduction) and reclassified as income in a subsequent period; non-cash settlement of accounts payable; non-controlling interest attributable to depreciation, amortization and interest expense; and income tax (expense) benefit. Adjusted EBITDA presented by other companies may not be comparable to our presentation, since each company may define these terms differently.

Adjusted EBITDA should not be considered a measure of liquidity and should not be considered as an alternative to operating income, net income or other indicators of performance determined in accordance with GAAP.

The following table presents a reconciliation of Income Attributable to Common Stockholders, as reported in the Consolidated Statements of Income and Comprehensive Income to Adjusted EBITDA:

	For the Three Months Ended		For the Nine Months Ended	
	September 30, 2017	September 30, 2016	September 30, 2017	September 30, 2016
Income Attributable to Common Stockholders	\$ 6,780,409	\$ 8,194,076	\$ 20,289,821	\$ 18,465,506
Add:				
Net realized and unrealized gain on securities, noncash portion	(1,310,825)	(1,429,599)	(1,319,423)	(998,377)
Depreciation, amortization, and ARO accretion	6,017,664	5,744,266	18,029,567	16,778,109
Interest expense, net	2,928,036	3,520,856	9,585,270	10,987,677
Loss on extinguishment of debt	234,433	—	234,433	—
Provision for loan losses	—	—	—	5,014,466
Preferred dividend requirements	2,396,875	1,037,109	5,557,113	3,111,327
Less:				
Distributions and dividends received in prior period previously deemed a return of capital (recorded as a cost reduction) and reclassified as income in a subsequent period ⁽¹⁾	—	—	(148,649)	117,004
Non-cash settlement of accounts payable	50,000	—	221,609	—
Non-controlling interest attributable to depreciation, amortization, and interest expense ⁽²⁾	574,447	604,765	1,729,565	1,852,594
Income tax (expense) benefit	(191,571)	(483,152)	45,300	361,536
Adjusted EBITDA	\$ 16,613,716	\$ 16,945,095	\$ 50,528,956	\$ 51,027,574

(1) We characterize distributions received from private investments estimated based on prior year activity. After receiving the K-1s, which depict our share of income and losses from the investment in the security, previously unrealized gains can be reclassified as dividend income.

(2) ARO accretion expense has no impact on non-controlling interest.

NAREIT FFO

FFO is a widely used measure of the operating performance of real estate companies that supplements net income determined in accordance with GAAP. As defined by the National Association of Real Estate Investment Trusts, NAREIT FFO represents net income (computed in accordance with GAAP), excluding gains (or losses) from sales of depreciable operating property, impairment losses of depreciable properties, real estate-related depreciation and amortization (excluding amortization of deferred financing costs or loan origination costs) and after adjustments for unconsolidated partnerships and non-controlling interests. Adjustments for non-controlling interests are calculated on the same basis. We define FFO attributable to common stockholders as defined above by NAREIT less dividends on preferred stock. Our method of calculating FFO attributable to common shareholders may differ from methods used by other REITs and, as such, may not be comparable.

FFO ADJUSTED FOR SECURITIES INVESTMENTS (FFO)

Due to the legacy investments that we hold, we have also historically presented a measure of FFO, to which we refer herein as FFO Adjusted for Securities Investments which is derived by further adjusting NAREIT FFO for distributions received from investment securities, income tax expense (benefit) from investment securities, net distributions and dividend income and net realized and unrealized gain or loss on other equity securities.

We present NAREIT FFO and FFO Adjusted for Securities Investments because we consider it an important supplemental measure of our operating performance and believe that it is frequently used by securities analysts, investors, and other interested parties in the evaluation of REITs, many of which present FFO when reporting their results. FFO is a key measure we use in assessing performance and in making resource allocation decisions.

Both NAREIT FFO and FFO Adjusted for Securities Investments are intended to exclude GAAP historical cost depreciation and amortization of real estate and related assets, which assumes that the value of real estate diminishes ratably over time. Historically, however, real estate values have risen or fallen with market conditions, and that may also be the case with certain of the energy infrastructure assets in which we invest. NAREIT FFO and FFO Adjusted for Securities Investments exclude depreciation and amortization unique to real estate and gains and losses from property dispositions and extraordinary items. As such, these performance measures provide a perspective not immediately apparent from net income when compared to prior-year periods. These metrics reflect the impact to operations from trends in base and participating rents, company operating costs, development activities, and interest costs.

We calculate NAREIT FFO in accordance with standards established by the Board of Governors of the National Association of Real Estate Investment Trusts in its March 1995 White Paper (as amended in November 1999 and April 2002) and FFO Adjusted for Securities Investment as NAREIT FFO with additional adjustments described above due to our legacy investments. This may differ from the methodology for calculating FFO utilized by other equity REITs and, accordingly may not be comparable to such other REITs. NAREIT FFO and FFO Adjusted for Securities Investments do not represent amounts available for management's discretionary use because of needed capital for replacement or expansion, debt service obligations, or other commitments and uncertainties. NAREIT FFO and FFO Adjusted for Securities Investments, as we have historically reported, should not be considered as an alternative to net income (computed in accordance with GAAP), as an indicator of our financial performance, or to cash flow from operating activities (computed in accordance with GAAP), as an indicator of our liquidity, or as an indicator of funds available for our cash needs, including our ability to make distributions or to service our indebtedness.

AFFO

Management uses AFFO as a measure of long-term sustainable operational performance. AFFO in excess of dividends is used for debt repayment, capital reinvestment activities, funding our ARO liability, or other commitments and uncertainties which are necessary to sustain our dividend over the long term. Based on our current asset base, we target a ratio of AFFO to dividends of 1.5 times. We believe that this level of coverage provides a prudent reserve level to achieve dividend stability and growth over the long-term. AFFO should not be considered as an alternative to net income (computed in accordance with GAAP), as an indicator of our financial performance, or as an alternative to cash flow from operating activities (computed in accordance with GAAP), as an indicator of our liquidity, or as an indicator of funds available for our cash needs, including our ability to make distributions or service our indebtedness.

For completeness, the following table sets forth a reconciliation of our net income as determined in accordance with GAAP and our calculations of NAREIT FFO, FFO Adjusted for Securities Investments, and AFFO for the three and nine months ended September 30, 2017 and 2016. AFFO is a supplemental, non-GAAP financial measure which we define as FFO Adjusted for Securities Investment plus (gain) loss on extinguishment of debt, provision for loan losses, net of tax, transaction costs, amortization of debt issuance costs, amortization of deferred lease costs, accretion of asset retirement obligation, income tax expense (benefit) unrelated to securities investments, non-cash costs associated with derivative instruments, and certain costs of a nonrecurring nature, less maintenance, capital expenditures (if any), amortization of debt premium, and other adjustments as deemed appropriate by Management. Also presented is information regarding the weighted-average number of shares of our common stock outstanding used for the computation of per share data:

NAREIT FFO, FFO Adjusted for Securities Investment and AFFO Reconciliation

	For the Three Months Ended		For the Nine Months Ended	
	September 30, 2017	September 30, 2016	September 30, 2017	September 30, 2016

(1) Diluted per share calculations include dilutive adjustments for convertible note interest expense, discount amortization and deferred debt issuance amortization. Refer to the Convertible Note Interest Expense table in Part I, Item 1, Note 10 ("Debt") for additional details.

(2) Diluted per share calculations include a dilutive adjustment for convertible note interest expense. Refer to the Convertible Note Interest Expense table in Part I, Item 1, Note 10 ("Debt") for additional details.

SEASONALITY

Our operating companies, MoGas and Omega, generally have stable revenues throughout the year and will complete necessary pipeline maintenance during the "non-heating" season, or quarters two and three. Therefore, operating results for the interim periods are not necessarily indicative of the results that may be expected for the full year.

ASSET PORTFOLIO AND RELATED DEVELOPMENTS

For detailed descriptions of our asset portfolio and related operations, other than our remaining private equity securities as of September 30, 2017, please refer to Part I, Item 2 - "Properties" in our Annual Report on Form 10-K for the year ended December 31, 2016, and to Part I, Item 1, Note 3 ("Leased Properties And Leases") and Note 4 ("Financing Notes Receivable") included in this Report. This section provides additional information concerning material developments related to our asset portfolio that occurred during the period ended September 30, 2017.

Portland Terminal

On August 29, 2017, the parent company of our tenant of the Portland Terminal, Arc Logistics, announced its definitive agreement to be acquired by Zenith. The merger is targeted to close by February 7, 2018.

In its preliminary proxy materials related to the acquisition by Zenith, dated September 26, 2017, Arc Logistics provided multiple financial projections of its partnership which included various scenarios for future use of our Portland Terminal. Scenarios included (i) continuing with the lease as-is, (ii) exercising its buy-out option on the terminal, and (iii) termination of the terminal lease. Additionally, the proxy disclosed that the transaction debt financing includes a "Delayed Draw Term Facility" which may be used to fund the buy-out of the Portland terminal.

Pursuant to the Portland Terminal lease agreement, the tenant has the right to repurchase the terminal from us, effective beginning in February 2017. Exercise of the repurchase option is subject to a 90-day notice requirement and the purchase price under the lease is based on nine times the greater of (i) the total of base and variable rent for the 12 months immediately preceding the notice or (ii) \$7.3 million. The tenant also has the option to terminate the lease on its fifth and tenth anniversaries for a termination fee of \$4.0 million and \$6.0 million, respectively, subject to providing written notice 12 months in advance of termination.

We have not received any notice from Arc Terminals regarding its intent with regard to either a buy-out of the terminal or termination of the terminal lease. It is not clear whether the proposed merger will have an impact on whether, or when, either of these rights may be exercised.

Grand Isle Gathering System

During June, EXXI successfully drilled its first development well in 2017, in the West Delta 30 field, with better-than-expected net pay. In July, EXXI's second development well encountered unanticipated fluid loss while being drilled and has been temporarily abandoned. The company reduced its 2017 capital program to \$125.0 million to \$155.0 million, from \$140.0 million to \$170.0 million, and will focus on its previously-announced workover and recompletion program, which includes fields served by the GIGS.

EXXI announced that no significant damage was incurred as a result of Hurricane Harvey or Hurricane Nate. However, in preparation for and during the course of the storms, production was shut in by both EXXI and third-party operators, primarily in the western region for Hurricane Harvey, and all fields for Hurricane Nate. Fields served by the GIGS are located primarily in the central region.

EXXI continues to work with financial advisors on a long-term plan and review strategic alternatives, including opportunities with both public and private companies. The company has also expanded its 2017 commodity hedging program and initiated its 2018 hedging program.

Pinedale LGS

UPL has announced that it is working with Fir Tree Partners, its largest shareholder, on a number of initiatives to maximize value. These strategies focus on UPL's capital structure and liquidity, the potential sale of non-core assets in the Marcellus and Unita basins and the increasing and stabilization of cash flows through commodity hedging and capital allocation concentrated on its key assets. Finally, UPL expects to increase clarity regarding the company's inventory and development plans, and the company's low-cost operating structure.

On September 18, 2017, UPL announced an increase in its borrowing base under its senior secured credit facility to \$1.4 billion, from \$1.2 billion. The company also announced on September 29, 2017 that it had closed on an incremental \$175.0 million secured term loan. Proceeds from the term loan were used to refinance borrowings under its revolving credit facility. Following these

financing transactions, UPL has indicated that it expects that its liquidity at September 30, 2017 will be approximately \$400.0 million. Additionally, during September 2017, UPL expanded its commodity hedging by entering into additional natural gas derivatives for 2018.

MoGas Pipeline

Effective March 1, 2017, MoGas entered into a long-term firm transportation services agreement with Laclede, its largest customer. The agreement, which amends a prior agreement, extends the termination date for Laclede's existing firm transportation agreement from October 31, 2017 to October 31, 2030. During the entire extended term, Laclede will continue to reserve 62,800 dekatherms per day of firm transportation capacity on MoGas. This service will continue at the full tariff rate of \$12.385 per dekatherm per month until October 31, 2018, at which time the rate will be reduced to \$6.386 per dekatherm per month for the remainder of the agreement.

MoGas continues to explore means to offset the decline in revenue from the amended Laclede contract. Such opportunities may include shippers transporting gas across MoGas to strike on Rockies, Mid-continent, Eastern and Gulf Coast basin basis differentials given its strategic location and numerous pipeline interconnects, new end-user customers, new cogeneration customers and increased capacity from existing shippers. In addition, MoGas has the right to request from FERC adjustments to its rates to mitigate the effect of higher operating costs or lost revenues by filing such a request any time MoGas deems necessary and appropriate.

Private Security Assets

Lightfoot

As of September 30, 2017, our investment in Lightfoot represented approximately 1.6 percent of our total assets. The fair value of Lightfoot at September 30, 2017 was \$10.5 million, as compared to the fair value at December 31, 2016 of \$9.3 million, representing an increase of approximately \$1.2 million, or 12.6 percent. The increase was primarily due to an increase in the value of Arc Logistics GP based on the terms of the proposed acquisition by Zenith, as discussed further below.

In August 2017, Arc Logistics announced its definitive agreement to be acquired by Zenith. Under the terms of the agreement, Lightfoot Capital Partners LP will receive \$14.50 per common unit of Arc Logistics LP and up to \$63.6 million for its 9.7 percent interest in Gulf LNG (a portion of which Gulf LNG purchase interest is conditioned upon a successful outcome to the Eni USA Gas Marketing L.L.C. ("Eni USA") litigation, discussed further below). Lightfoot Capital Partners GP will receive \$94.5 million for the 100 percent of the membership interests in Arc Logistics GP. Following the close of the merger, Lightfoot Capital Partners LP will use approximately \$15.1 million of its sale proceeds to purchase an interest in the Arc Terminal Joliet Holdings and Lightfoot Capital Partners GP will use approximately \$10.2 million of its sale proceeds to purchase an interest in Arc Terminal Joliet Holdings. Collectively, Lightfoot will own approximately 13.5 percent of Arc Terminal Joliet Holdings. CorEnergy owns approximately 6.6 percent of Lightfoot Capital Partners LP and 1.5 percent in Lightfoot Capital Partners GP. Accordingly, if the transaction closes in accordance with the current terms, we will receive our pro-rata share of the consideration proceeds and ownership in Arc Terminal Joliet Holdings.

During the three and nine months ended September 30, 2017, we received distributions of \$207 thousand and \$643 thousand, respectively, which are funded by Lightfoot's distributions from Arc Logistics and Gulf LNG. The ability of Arc Logistics and Gulf LNG to make quarterly distributions and the amount of such distributions are dependent on Arc Logistics' and Gulf LNG's business results, and neither Arc Logistics, Gulf LNG, nor Lightfoot is under any obligation to make such distributions. Additionally, future distributions will be impacted by the pending sale of Arc Logistics to Zenith, as discussed above.

On March 1, 2016, an affiliate of Gulf LNG received a Notice of Disagreement and Disputed Statements and a Notice of Arbitration from Eni USA, one of the two companies that had entered into a terminal use agreement for capacity of the liquefied natural gas facility owned by Gulf LNG and its subsidiaries. Should Eni USA terminate its agreement with Gulf LNG, this could materially impact Arc Logistics and Gulf LNG's ability to fund their distributions. There can be no assurance that our expectations concerning 2017 distributions from Lightfoot will be realized.

FEDERAL AND STATE INCOME TAXATION

In 2013 we qualified, and in March 2014 elected (effective as of January 1, 2013), to be treated as a REIT for federal income tax purposes (which we refer to as the "REIT Election"). Because certain of our assets may not produce REIT-qualifying income or be treated as interests in real property, those assets are held in wholly-owned TRSs in order to limit the potential that such assets and income could prevent us from qualifying as a REIT.

For the years ended in 2012 and before, the distributions we made to our stockholders from our earnings and profits were treated as qualified dividend income ("QDI") and return of capital. QDI is taxed to our individual shareholders at the maximum rate for

long-term capital gains, which through tax year 2012 was 15 percent and beginning in tax year 2013 is 20 percent. We elected to be taxed as a REIT for 2013 and subsequent years rather than a C corporation and generally will not pay federal income tax on taxable income of the REIT that is distributed to our stockholders. As a REIT, our distributions from earnings and profits will be treated as ordinary income and a return of capital, and generally will not qualify as QDI. To the extent that the REIT had accumulated C corporation earnings and profits from the periods prior to 2013, we distributed such earnings and profits in 2013. A portion of our normal distributions in 2013 have been characterized for federal income tax purposes as a distribution of those earnings and profits from non-REIT years and have been treated as QDI. In addition, to the extent we receive taxable distributions from our TRSs, or the REIT received distributions of C corporation earnings and profits, such portion of our distribution will be treated as QDI.

As a REIT, we hold and operate certain of our assets through one or more wholly-owned TRSs. Our use of TRSs enables us to continue to engage in certain businesses while complying with REIT qualification requirements and also allows us to retain income generated by these businesses for reinvestment without the requirement of distributing those earnings. In the future, we may elect to reorganize and transfer certain assets or operations from our TRSs to us or other subsidiaries, including qualified REIT subsidiaries.

Our equity securities are limited partnerships or limited liability companies which are treated as partnerships for federal and state income tax purposes. As a limited partner, we report our allocable share of taxable income in computing our taxable income. To the extent held by a TRS, the TRS's tax expense or benefit is included in the Consolidated Statements of Income based on the component of income or gains and losses to which such expense or benefit relates. Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. A valuation allowance is recognized if, based on the weight of available evidence, it is more likely than not that some portion or all of the deferred income tax asset will not be realized.

If we cease to qualify as a REIT, we, as a C corporation, would be obligated to pay federal and state income tax on our taxable income. Currently, the highest regular marginal federal income tax rate for a corporation is 35 percent. We may be subject to a 20 percent federal alternative minimum tax on our federal alternative minimum taxable income to the extent that our alternative minimum tax exceeds our regular federal income tax.

LIQUIDITY AND CAPITAL RESOURCES

Overview

At September 30, 2017, we had liquidity of approximately \$146.0 million comprised of cash of \$15.5 million plus revolver availability of \$130.5 million. During the third quarter of 2017, our liquidity was enhanced through the amendment and restatement of our CorEnergy Credit Facility. Commitments on the CorEnergy Revolver were increased from \$105.0 million to \$160.0 million under the new facility, subject to borrowing base limitations. In connection with entering into the new facility, we utilized cash on hand and revolver borrowings of \$10.0 million to repay the \$33.5 million outstanding balance on the CorEnergy Term Loan. See further discussion of the amended and restated facility below under "Revolving and Term Credit Facilities - CorEnergy Credit Facility" and in Part I, Item 1, Note 10 ("Debt").

We use cash flows generated from our operations to fund current obligations, projected working capital requirements, debt service payments and dividend payments. Management expects that future operating cash flows, along with access to financial markets, will be sufficient to meet future operating requirements and acquisition opportunities. If our ability to access the capital markets is restricted or if debt or equity capital were unavailable on favorable terms, or at all, our ability to fund acquisition opportunities or to comply with the REIT distribution rules could be adversely affected.

There are acquisition opportunities that are in preliminary stages of review, and consummation of any of these opportunities depends on a number of factors beyond our control. There can be no assurance that any of these acquisition opportunities will result in consummated transactions. As part of our disciplined investment philosophy, we plan to use a moderate level of leverage, approximately 25 percent to 50 percent of assets, supplemented with accretive equity issuance as needed, subject to current market conditions. We may invest in assets subject to greater leverage which could be both recourse and non-recourse to us.

Cash Flows - Operating, Investing, and Financing Activities

The following table presents our consolidated cash flows for the periods indicated below:

	For the Nine Months Ended	
	September 30, 2017	September 30, 2016
	(Unaudited)	
Net cash provided by (used in):		
Operating activities	\$ 42,837,537	\$ 41,654,565
Investing activities	40,277	194,197
Financing activities	(35,239,389)	(46,359,748)
Net increase (decrease) in cash and cash equivalents	<u>\$ 7,638,425</u>	<u>\$ (4,510,986)</u>

Cash Flows from Operating Activities

Net cash flows provided by operating activities for the nine months ended September 30, 2017 were primarily attributable to (i) lease receipts of \$45.9 million (\$51.3 million lease revenue, net of \$5.4 million of straight-line rent accrued during the period), (ii) \$10.0 million in net contributions from our operating subsidiaries MoGas and Omega, (iii) a \$685 thousand reduction in accounts and other receivables during the period and (iv) \$643 thousand in distributions and dividends received, partially offset by (v) \$8.3 million in general and administrative expenses and (vi) \$6.3 million in cash paid for interest.

Net cash flows provided by operating activities for the nine months ended September 30, 2016 were primarily attributable to (i) lease receipts of \$44.4 million (\$51.0 million lease revenue, net of \$6.6 million of straight-line rent accrued during the period), (ii) \$11.1 million in net contributions from our operating subsidiaries MoGas and Omega, (iii) \$1.4 million in escrow proceeds received from the sale of Vantacore (iv) \$744 thousand in distributions and dividends received and (v) \$343 thousand of unearned revenue received, partially offset by (vi) \$9.1 million in general and administrative expenses and (vii) \$7.8 million in cash paid for interest.

Cash Flows from Investing Activities

Net cash flows provided by investing activities for the nine months ended September 30, 2017 were attributable to \$91 thousand return of capital distributions received, offset by purchases of equipment of \$51 thousand.

Net cash flows provided by investing activities for the nine months ended September 30, 2016 were primarily attributable to (i) net proceeds from the sale of assets and liabilities held for sale of \$645 thousand and (ii) proceeds received on the foreclosure of BB Intermediate of \$223 thousand, partially offset by (iii) purchases of property and equipment of \$476 thousand and (iv) funding to close operations of Black Bison and Four Wood financing notes of \$202 thousand.

Cash Flows from Financing Activities

Net cash flows used in financing activities for the nine months ended September 30, 2017 were primarily attributable to (i) repayment of principal on the CorEnergy Revolver of \$44.0 million, (ii) principal payments of \$38.1 million on our secured credit facilities, (iii) common and preferred dividends paid of \$26.0 million and \$5.8 million, respectively, (iv) payment of \$1.3 million for debt issuance costs related to the CorEnergy Credit Facility refinancing and (v) distributions of \$1.1 million to our non-controlling interest, partially offset by (vi) net offering proceeds on Series A Preferred Stock of \$71.2 million and (vii) \$10.0 million in advances on the CorEnergy Revolver.

The net cash used in financing activities for the nine months ended September 30, 2016 was primarily attributable to (i) principal payments of \$57.8 million on our secured credit facilities, (ii) common and preferred dividends paid of \$26.3 million and \$3.1 million, respectively, (iii) repurchases of common stock of approximately \$2.0 million, (iv) repurchases of convertible debt of approximately \$900 thousand, partially offset by (v) a \$44.0 million drawn on the CorEnergy Revolver.

Revolving and Term Credit Facilities**CorEnergy Credit Facility**

On July 28, 2017, we entered into an amended and restated CorEnergy Credit Facility with Regions Bank (as lender and administrative agent for other participating lenders). The amended facility provides for commitments of up to \$161.0 million, comprised of (i) increased commitments on the CorEnergy Revolver of up to \$160.0 million, subject to borrowing base limitations, and (ii) a \$1.0 million commitment on the MoGas Revolver. The amended facility has a 5-year term maturing on July 28, 2022,

and provides for a springing maturity on February 28, 2020, and thereafter, if the Company fails to meet certain liquidity requirements from the springing maturity date through the maturity of the Company's convertible notes on June 15, 2020.

Under the terms of the amended and restated CorEnergy Credit Facility, we are subject to certain financial covenants as follows: (i) a minimum debt service coverage ratio of 2.0 to 1.0; (ii) a maximum total leverage ratio of 5.0 to 1.0; (iii) a maximum senior secured recourse leverage ratio (which generally excludes debt from Unrestricted Subs) of 3.0 to 1.0.; and (iv) a maximum total funded debt to capitalization ratio of 50 percent. Effective September 30, 2015, the CorEnergy Revolver was amended to clarify that the covenant related to our ability to make distributions is tied to AFFO and applicable REIT distribution requirements, and provides that, in the absence of any acceleration of maturity following an Event of Default, we may make distributions equal to the greater of the amount required to maintain our REIT status and 100 percent of AFFO for the trailing 12-month period.

Borrowings under the credit facility will generally bear interest on the outstanding principal amount using a LIBOR pricing grid that is expected to equal a LIBOR rate plus an applicable margin of 2.75 percent to 3.75 percent, based on the Company's senior secured recourse leverage ratio. The facility contains, among other restrictions, certain financial covenants including the maintenance of certain financial ratios, as well as default and cross-default provisions customary for transactions of this nature (with applicable customary grace periods), all of which are substantially the same as under the prior facility.

We were in compliance with all covenants at September 30, 2017 and had approximately \$130.5 million of available borrowing capacity on the CorEnergy Revolver.

In connection with entering into the amended and restated facility, we used cash on hand and borrowings under the amended facility to repay the \$33.5 million outstanding balance on the CorEnergy Term Loan on the prior facility. For a summary of the additional material terms of the CorEnergy Credit Facility, please refer to Part I, Item 1, Note 10 ("Debt") included in this Report.

Pinedale Credit Facility

On March 30, 2016, we and Prudential, as the Refinancing Lenders, and in proportion to our pro rata equity interests in Pinedale LP, refinanced the Pinedale Credit Facility and executed a series of agreements assigning the credit facility to CorEnergy Infrastructure Trust, Inc. as Agent for the Refinancing Lenders. As part of the refinancing, we terminated one of the derivative contracts, representing half of the amount hedged. The remaining derivative with a notional amount of \$26.3 million was de-designated from hedge accounting. The Pinedale Credit Facility is subject to (i) a minimum interest rate coverage ratio of 5.5 to 1.0; (ii) a maximum leverage ratio of 3.25 to 1.0; and (iii) a minimum net worth of \$115.0 million, each measured at the Pinedale LP level and not at the Company level. As a result of the March 30, 2016 refinancing, the minimum interest coverage ratio was amended to a ratio of 3.0 to 1.0. We were in compliance with all covenants at September 30, 2017.

For a summary of the additional material terms and the refinancing of the Pinedale Credit Facility, please see Part IV, Item 15, Note 12 ("Credit Facilities") included in our Annual Report on Form 10-K for the year ended December 31, 2016, and Part I, Item 1, Note 10 ("Debt") included in this Report.

Convertible Notes

As of September 30, 2017, we had \$114.0 million of face value of the Convertible Notes outstanding. Refer to Part IV, Item 15, Note 13 ("Convertible Debt") included in our Annual Report on Form 10-K for the year ended December 31, 2016 and Part I, Item 1, Note 10 ("Debt") included in this Report for additional information concerning the Convertible Notes.

MoGas Credit Facility

On July 28, 2017, the terms of the MoGas Revolver were amended and restated in connection with the CorEnergy Credit Facility, as discussed above. As a result, commitments under the MoGas Revolver were reduced to \$1.0 million. Refer to Part I, Item 1, Note 10 ("Debt") for further information. As of September 30, 2017, the co-borrowers were in compliance with all covenants and there have been no borrowings against the MoGas Revolver.

Mowood/Omega Revolver

The Mowood/Omega Revolver is used by Omega for working capital and general business purposes and is guaranteed and secured by the assets of Omega. On July 31, 2017, the previous maturity date of July 31, 2017 was amended and extended to July 31, 2018. Interest accrues at LIBOR plus 4 percent and is payable monthly in arrears with no unused fee. There was no outstanding balance at September 30, 2017.

Equity Offerings

On February 18, 2016, we had a new shelf registration statement declared effective by the SEC, pursuant to which we may publicly offer additional debt or equity securities with an aggregate offering price of up to \$600.0 million.

As of September 30, 2017, we have issued 55,629 shares of common stock under our dividend reinvestment plan pursuant to the February 18, 2016 shelf, reducing availability by approximately \$1.5 million. Shelf availability was further reduced by approximately \$73.8 million as a result of the follow-on offering of additional 7.375% Series A Preferred Stock during the second quarter of 2017. As of September 30, 2017, availability on the current shelf registration is approximately \$524.7 million.

Liquidity and Capitalization

Our principal investing activities are acquiring and financing real estate assets within the U.S. energy infrastructure sector and concurrently entering into long-term triple-net participating leases with energy companies. These investing activities have generally been financed from the proceeds of our public equity and debt offerings as well as our credit facilities mentioned above. Continued growth of our asset portfolio will depend in part on our continued ability to access funds through additional borrowings and securities offerings.

The following is our liquidity and capitalization on the below-noted dates:

Liquidity and Capitalization		
	September 30, 2017	December 31, 2016
Cash and cash equivalents	\$ 15,533,509	\$ 7,895,084
Revolver availability	\$ 130,547,304	\$ 52,144,837
Revolving credit facility	\$ 10,000,000	\$ 44,000,000
Long-term debt (including current maturities)	119,369,462	156,632,880
Stockholders' equity:		
Series A Preferred Stock 7.375%, \$0.001 par value	130,000,000	56,250,000
Capital stock, non-convertible, \$0.001 par value	11,909	11,886
Additional paid-in capital	341,678,080	350,217,746
Accumulated other comprehensive loss	(2,180)	(11,196)
CorEnergy equity	471,687,809	406,468,436
Total CorEnergy capitalization	\$ 601,057,271	\$ 607,101,316

We also have two lines of credit for working capital purposes for two of our subsidiaries with maximum availability of \$1.5 million and \$1.0 million at September 30, 2017. At December 31, 2016, these two lines of credit had maximum availability of \$1.5 million and \$3.0 million.

Currently, we are exploring options which may be available to refinance the Pinedale Credit Facility with third-party lenders, and expect that a refinancing of the facility may be consummated during the fourth quarter of 2017. If completed, such a refinancing transaction would provide increased liquidity based on our pro rata portion of the refinancing proceeds.

CONTRACTUAL OBLIGATIONS

The following table summarizes our significant contractual payment obligations as of September 30, 2017:

	Contractual Obligations				
	Notional Value	Less than 1 year	1-3 years	3-5 years	More than 5 years
Pinedale LP Debt ⁽¹⁾	\$ 7,534,177	\$ 668,556	\$ 1,337,112	\$ 5,528,509	\$ —
Interest payments on Pinedale LP Debt ⁽¹⁾		606,237	1,036,850	249,120	—
Convertible Debt	114,000,000	—	114,000,000	—	—
Interest payments on Convertible Debt		7,980,000	15,960,000	—	—
CorEnergy Revolver	10,000,000	—	—	10,000,000	—
Interest payments on CorEnergy Revolver		404,542	810,192	738,150	—
Totals		\$ 9,659,335	\$ 133,144,154	\$ 16,515,779	\$ —

(1) The amounts of Pinedale LP debt above represent Prudential's share of the principal and interest payments which is 18.95 percent of the total. Our share of the principal and interest are eliminated in consolidation as these became intercompany on March 30, 2016, due to CorEnergy taking over with Prudential as Refinancing Lenders on the Pinedale LP note. See Part I, Item 1, Note 10 ("Debt") for further information.

Fees paid to Corridor under the Management Agreement and the Administrative Agreement are not included because they vary as a function of the value of our total asset base. For additional information, see Part I, Item 1, Note 8 ("Management Agreement") included in this Report.

OFF-BALANCE SHEET ARRANGEMENTS

We do not have, and are not expected to have, any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

MAJOR TENANTS

As of September 30, 2017, we had three significant leases. For additional information concerning each of these leases, see Part I, Item 1, Note 3 ("Leased Properties And Leases") included in this Report.

DIVIDENDS

Our portfolio of real property assets, promissory notes, and investment securities generates cash flow to us from which we pay distributions to stockholders. For the period ended September 30, 2017, the sources of our stockholder distributions include lease revenue, transportation and distribution revenue from our real property assets, and distributions from our investment securities. Distributions to common stockholders are recorded on the ex-dividend date and distributions to preferred stockholders are recorded when declared by the Board of Directors. The characterization of any distribution for federal income tax purposes will not be determined until after the end of the taxable year.

On February 28, 2017, we paid 2016 fourth quarter dividends of \$0.75 per share of common stock and \$0.4609375 per depositary share for our 7.375% Series A Preferred Stock.

On May 31, 2017, we paid 2017 first quarter dividends of \$0.75 per share of common stock and \$0.4609375 per depositary share for our 7.375% Series A Preferred Stock.

On August 31, 2017, we paid 2017 second quarter dividends of \$0.75 per share of common stock and \$0.4609375 per depositary share for our 7.375% Series A Preferred Stock.

On October 25, 2017, our Board of Directors declared 2017 third quarter dividends of \$0.75 per share of common stock and \$0.4609375 per depositary share for our 7.375% Series A Preferred Stock payable on November 30, 2017.

A REIT is generally required to distribute during the taxable year an amount equal to at least 90 percent of the REIT taxable income (determined under Internal Revenue Code section 857(b)(2), without regard to the deduction for dividends paid). We intend to adhere to this requirement in order to maintain our REIT status. The Board of Directors will continue to determine the amount of any distribution that we expect to pay our stockholders.

IMPACT OF INFLATION AND DEFLATION

Deflation can result in a decline in general price levels, often caused by a decrease in the supply of money or credit. The predominant effects of deflation are high unemployment, credit contraction, and weakened consumer demand. Restricted lending practices could impact our ability to obtain financings or to refinance our properties and our tenants' ability to obtain credit. During inflationary periods, we intend for substantially all of our tenant leases to be designed to mitigate the impact of inflation. Generally, our leases include rent escalators that are based on the CPI, or other agreed upon metrics that increase with inflation.

CRITICAL ACCOUNTING ESTIMATES

The financial statements included in this Report are based on the selection and application of critical accounting policies, which require management to make significant estimates and assumptions. Critical accounting policies are those that are both important to the presentation of our financial condition and results of operations and require management's most difficult, complex, or subjective judgments. The preparation of the consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, recognition of distribution income, and disclosure of contingent assets and liabilities at the date of the consolidated financial statements. Actual results could differ from those estimates.

A discussion of our critical accounting estimates is presented under the heading "Critical Accounting Estimates" in Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the year ended December 31, 2016, as previously filed with the SEC. No material modifications have been made to our critical accounting estimates.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our business activities contain elements of market risk. We consider fluctuations in the value of our securities portfolio and fluctuations in interest rates to be our principal market risks. As of September 30, 2017, there were no material changes to our market risk exposure as compared to the end of our preceding fiscal year ended December 31, 2016.

As of September 30, 2017, the fair value of our securities portfolio (excluding short-term investments) totaled approximately \$10.5 million. We estimate that the impact of a 10 percent increase or decrease in the fair value of these securities, net of related deferred taxes, would increase or decrease net assets applicable to common shareholders by approximately \$640 thousand. The fair value of securities is determined using readily available market quotations from the principal market, if available. Because there are no readily available market quotations for many of the securities in our portfolio, we value our securities at fair value as determined in good faith under a valuation policy and a consistently applied valuation process, which has been approved by our Board of Directors. Due to the inherent uncertainty of determining the fair value of securities that do not have readily available market quotations, the fair value of our securities may differ significantly from the fair values that would have been used had a ready market quotation existed for such securities, and these differences could be material.

Long-term debt used to finance our acquisitions may be based on floating or fixed rates. As of September 30, 2017, we had \$118.7 million in long-term debt (net of current maturities) and \$10.0 million borrowed under our revolving credit facility. We have historically used interest rate swaps to manage our interest rate risk. The valuation of these instruments is determined using widely accepted valuation techniques including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including forward interest rate curves. The fair values of interest rate swaps are determined using the market standard methodology of netting the discounted future fixed cash payments and the discounted expected variable cash receipts. The variable cash receipts are based on an expectation of future interest rates derived from observable market interest rate forward curves. Changes in interest rates can cause interest charges to fluctuate on that portion of our variable rate debt which is not hedged. We currently have one interest rate swap with a notional amount of \$26.3 million outstanding, which is scheduled to mature on December 5, 2017.

Variable rate debt as of September 30, 2017 was \$7.5 million under the Pinedale Credit Facility and \$10.0 million under the CorEnergy Revolver. A 100 basis point increase or decrease in current LIBOR rates would result in a \$218 thousand increase or a \$118 thousand decrease of interest expense for the nine months ended September 30, 2017, respectively. As of September 30, 2017, the fair value of our interest rate swap derivative asset totaled approximately \$18 thousand. We estimate that the impact of a 100 basis point increase or decrease in the one-month LIBOR rate would increase or decrease the value of the interest rate swap by \$44 thousand as of September 30, 2017.

We consider the management of risk essential to conducting our businesses. Accordingly, our risk management systems and procedures are designed to identify and analyze our risks, to set appropriate policies and limits and to continually monitor these risks and limits by means of reliable administrative and information systems and other policies and programs.

ITEM 4. CONTROLS AND PROCEDURES**Conclusion Regarding Effectiveness of Disclosure Controls and Procedures**

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Accounting Officer (our principal executive and principal financial officers, respectively), we have evaluated the effectiveness of our disclosure controls and procedures, as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended, as of the end of the period covered by this Report. Based on that evaluation, these officers concluded that our disclosure controls and procedures were effective to ensure that the information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized, and reported within the time periods specified in the SEC rules and forms, and is accumulated and communicated to our management, including our Chief Executive Officer and Chief Accounting Officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting, as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act, that occurred during the quarterly period ending September 30, 2017 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are not currently subject to any material legal proceedings, nor, to our knowledge, is any material legal proceeding threatened against us.

ITEM 1A. RISK FACTORS

Part I, Item 1A, "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2016, sets forth information relating to important risks and uncertainties that could materially adversely affect our business, financial condition, or operating results. Those risk factors continue to be relevant to an understanding of our business, financial condition, and operating results for the quarter ended September 30, 2017. There have been no material changes to the risk factors contained in our Annual Report on Form 10-K for the year ended December 31, 2016, except as set forth below:

If the tenant exercises its early lease termination or lease buy-out option at our Portland Terminal Facility, our results of operations could be adversely impacted.

The tenant under the Portland Lease Agreement is Arc Terminals, and its parent, Arc Logistics, has guaranteed obligations of the tenant under that lease. Arc Logistics announced on August 29, 2017, that it has entered into an agreement of merger pursuant to which it expects to be acquired by Zenith Energy U.S., L.P. In September, Arc Logistics filed a preliminary proxy with the SEC pursuant to which it will ultimately solicit stockholder approval for the merger. In that preliminary proxy, Arc Logistics described three different actions available to it under the Portland Lease Agreement: (i) continuing with the Portland Lease Agreement as-is, (ii) terminate the Portland Lease Agreement, as allowed at its fifth anniversary, subject to a termination penalty payment and one year notice period, or (iii) exercise its buy-out option for the terminal under the Portland Lease Agreement, an action that first became available under the Portland Lease Agreement in February of 2017. The preliminary proxy states that Arc Logistics has not yet decided which of those plans of action Arc Logistics may select. The outside closing date for the Arc Logistics merger is February 7, 2018. It is not clear to us whether the proposed merger will have any impact on whether, or when, any of those actions is taken. However, if Arc Logistics should elect to terminate the Portland Lease Agreement, we may be unable to identify a suitable replacement tenant within the notice period, and, even if we succeed in identifying such a tenant, we may be unable to re-lease the facility on similar terms as those of the Portland Lease Agreement. Additionally, we could elect to fund additional capital expenditures at the Portland Terminal Facility and to provide other accommodations to suit a replacement tenant. If we were unable to secure a replacement tenant, we could be exposed to 100 percent of all applicable costs as the operator of the Portland Terminal Facility. If Arc Logistics exercises its buy-out option, there exists the risk that we could be unable to invest the proceeds from the sale in one or more properties that yield as favorable a return on our investment as the Portland Terminal Facility. These risks could adversely affect our results of operations, including our leasing revenues and our ability to reinvest in new opportunities and to make distributions to our stockholders.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

During the nine months ended September 30, 2017, we did not sell any securities that were not registered under the 1933 Act, nor did we repurchase any equity securities of the Company.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

None.

ITEM 6. EXHIBITS

Re: **Incentive Fee Under Management Agreement for CorEnergy Infrastructure Trust, Inc.**

Ladies and Gentlemen:

Reference is made to that certain Management Agreement, dated as of May 8, 2015 and effective as of May 1, 2015, by and between CorEnergy Infrastructure Trust, Inc., a Maryland corporation (the "Company"), and Corridor InfraTrust Management, LLC, a Delaware limited liability company ("Manager") (as such agreement has been, and may be further, amended, restated, supplemented or otherwise modified from time to time, the "Management Agreement"). Capitalized terms used and not defined herein are used as defined in the Management Agreement. The Company and the Manager have entered into this Letter Agreement to waive a portion of the Incentive Fee set forth in Section 8(b) of the Management Agreement applicable to the dividend paid during the calendar quarter ending September 30, 2017. This letter in no way supersedes our May 9, 2016 letter agreement (effective March 31, 2016) concerning the Management Fee calculation.

This letter documents that the Manager has recommended, and the Company has agreed, that the Manager shall only be paid an Incentive Fee of \$136,927 as a result of the dividend paid during the Company's September 30, 2017 calendar quarter. This agreed upon incentive fee payment constitutes a waiver by the Manager of \$11,858 of the Incentive Fee that would otherwise be due to the Manager from the Company.

The foregoing waiver shall not apply to any prior or future periods, although the Manager reserves the right to waive in the future any Incentive Fee payment to which it may be entitled for one or more future fiscal quarters of the Company.

The Company and the Manager mutually acknowledge and agree that this modification to the Incentive Fee payment right represents a discretionary action on the part of the Manager that is not required under the terms of the Management Agreement and that, except as specifically set forth herein, and as modified in our prior May 9, 2016 letter agreement concerning the Management Fee calculation, all provisions of the Management Agreement shall remain in full force and effect and shall not be affected by this letter.

Very truly yours,

CORRIDOR INFRATRUST MANAGEMENT, LLC

By: /s/ Richard C. Green, Jr.

EXHIBIT 12.1 - Computation of Ratio of Earnings to Combined Fixed Charges and Preferred Stock Dividends - CorEnergy Infrastructure Trust, Inc.

	For the Nine Months Ended September 30,		For the Years Ended December 31,		
	2017	2016	2015	2014	2013
Earnings:					
Pre-tax income from continuing operations before adjustment for income or loss from equity investees	\$ 25,163,165	\$ 28,561,682	\$ 11,782,422	\$ 6,973,693	\$ 2,967,257
Fixed charges ⁽¹⁾	9,585,270	14,417,839	9,781,184	3,675,122	3,288,378
Amortization of capitalized interest	—	—	—	—	—
Distributed income of equity investees	477,942	1,140,824	1,270,754	1,836,783	584,814
Pre-tax losses of equity investees for which charges arising from guarantees are included in fixed charges	—	—	—	—	—
Subtract:					
Interest capitalized	—	—	—	—	—
Preference security dividend requirements of consolidated subsidiaries	—	—	—	—	—
Noncontrolling interest in pre-tax income of subsidiaries that have not incurred fixed charges	—	—	—	—	—
Earnings	<u>\$ 35,226,377</u>	<u>\$ 44,120,345</u>	<u>\$ 22,834,360</u>	<u>\$ 12,485,598</u>	<u>\$ 6,840,449</u>
Combined Fixed Charges and Preference Dividends:					
Fixed charges ⁽¹⁾	\$ 9,585,270	\$ 14,417,839	\$ 9,781,184	\$ 3,675,122	\$ 3,288,378
Preferred security dividend ⁽²⁾	5,557,113	4,148,437	3,848,828	—	—
Combined fixed charges and preference dividends	<u>\$ 15,142,383</u>	<u>\$ 18,566,276</u>	<u>\$ 13,630,012</u>	<u>\$ 3,675,122</u>	<u>\$ 3,288,378</u>
Ratio of earnings to fixed charges	3.68	3.06	2.33	3.40	2.08
Ratio of earnings to combined fixed charges and preference dividends	2.33	2.38	1.68	3.40	2.08

(1) Fixed charges consist of interest expense, as defined under U.S. generally accepted accounting principles, on all indebtedness.

(2) In the current year column, this line represents the amount of preferred stock dividends accumulated as of September 30, 2017.

CERTIFICATIONS

I, David J. Schulte, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of CorEnergy Infrastructure Trust, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
