FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended **September 30, 2014**

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number: **001-33292**

COREENERGY INFRASTRUCTURE TRUST, INC.

(Exact name of registrant as specified in its charter)

Maryland

(State or other jurisdiction of incorporation or organization)

20-3431375

(IRS Employer Identification No.)

**1100 Walnut, Ste. 3350
Kansas City, MO**

(Address of Principal Executive Offices)

64106

(Zip Code)

(816) 875-3705

(Registrant's telephone number, including area code)

n/a

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer", "accelerated filer", and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company)

Accelerated filer

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act) Yes No

As of October 31, 2014, the registrant had 31,644,877 common shares outstanding.

This report should be read in its entirety. No one section of the report deals with all aspects of the subject matter. It should be read in conjunction with the consolidated financial statements, related notes and with the Management's Discussion & Analysis ("MD&A") included within, as well as provided in the 2013 Annual Report on Form 10-K, as amended.

The consolidated unaudited financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information, the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by generally accepted accounting principles for complete financial statements. In the opinion of Management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and nine months ended September 30, 2014 are not necessarily indicative of the results that may be expected for the year ended December 31, 2014. For further information, refer to the consolidated financial statements and footnotes thereto included in the CorEnergy Infrastructure Trust, Inc. Annual Report on Form 10-K, as amended, for the year ended December 31, 2013.

CorEnergy Infrastructure Trust, Inc.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
September 30, 2014

1. INTRODUCTION AND BASIS OF PRESENTATION

Introduction

CorEnergy Infrastructure Trust, Inc. ("CorEnergy"), was organized as a Maryland corporation and commenced operations on December 8, 2005. The Company's shares are listed on the New York Stock Exchange under the symbol "CORR." As used in this report, the terms "we", "us", "our" and the "Company" refer to CorEnergy and its subsidiaries.

We are primarily focused on acquiring and financing midstream and downstream real estate assets within the U.S. energy infrastructure sector and concurrently entering into long-term triple-net participating leases with energy companies. We also may provide other types of capital, including loans secured by energy infrastructure assets. We intend to acquire assets that are accretive to our shareholders and allow us to remain a diversified energy infrastructure real estate investment trust (REIT). Targeted assets include pipelines, storage tanks, transmission lines and gathering systems, among others. These sale-leaseback or real property mortgage transactions provide the energy company with a source of capital that is an alternative to sources such as corporate borrowing, bond offerings, or equity offerings. We expect to receive participation features in the financial performance or value of the underlying infrastructure real property asset. The triple-net lease structure requires that the tenant pay all operating expenses of the business conducted by the tenant, including real estate taxes, insurance, utilities, and expenses of maintaining the asset in good working order.

The Company's consolidated financial statements include the Company's direct and indirect wholly-owned subsidiaries. All significant intercompany balances and transactions have been eliminated in consolidation. The Company's financial statements also present non-controlling interests in the case of entities that are not wholly-owned subsidiaries of the Company.

The Company consolidates certain entities when it is deemed to be the primary beneficiary in a variable interest entity ("VIE"), as defined in Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic on Consolidation. The Topic on Consolidation requires the consolidation of VIEs in which an enterprise has a controlling financial interest. A controlling financial interest will have both of the following characteristics: (1) the power to direct the activities of a VIE that most significantly impact the VIE's economic performance, and (2) the obligation to absorb losses of the VIE that could potentially be significant to the VIE or the right to receive benefits from the VIE that could potentially be significant to the VIE. This topic requires an ongoing reassessment. The equity method of accounting is applied to entities in which the Company is not the primary beneficiary as defined in the Consolidation Topic of FASB ASC, or does not have effective control, but can exercise influence over the entity with respect to its operations and major decisions.

Taxable REIT subsidiaries hold our securities portfolio, operating business and a financing note receivable. Corridor Public Holdings, Inc. and its wholly-owned subsidiary Corridor Private Holdings, Inc. hold the securities portfolio. The operating company is held by Mowood Corridor, Inc. and its wholly-owned subsidiary, Mowood, LLC ("Mowood"), which is the holding company for Omega Pipeline Company, LLC ("Omega"). Omega owns and operates a natural gas distribution system in Fort Leonard Wood, Missouri. Omega is responsible for purchasing and coordinating delivery of natural gas to Fort Leonard Wood, as well as performing maintenance and expansion of the pipeline. In addition, Omega provides gas-marketing services to local commercial end users. A financing note receivable is held by CorEnergy BBWS ("BBWS").

Basis of Presentation and Use of Estimates

The accompanying consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles ("GAAP") for interim financial information set forth in the Accounting Standards Codification ("ASC"), as published by the Financial Accounting Standards Board ("FASB"), and with the Securities and Exchange Commission ("SEC") instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. The accompanying consolidated financial statements reflect all adjustments that are, in the opinion of management, necessary for a fair presentation of the Company's financial position, results of operations and cash flows for the interim period presented. There were no adjustments that, in the opinion of management, were not of a normal and recurring nature. Additionally, certain prior year balances have been reclassified to provide comparability of financial results across reporting periods.

Operating results for the three and nine months ended September 30, 2014 are not necessarily indicative of the results that may be expected for the year ending December 31, 2014. These consolidated financial statements and Management's Discussion and Analysis of the Financial Condition and Results of Operations should be read in conjunction with our Annual Report on Form 10-K, as amended, for the year ended December 31, 2013, filed with the SEC on March 19, 2014.

The financial statements included in this report are based on the selection and application of critical accounting policies, which require management to make significant estimates and assumptions. Critical accounting policies are those that are both important to the presentation of our financial condition and results of operations and require management's most difficult, complex or subjective judgments. Note 2 to the Consolidated Financial Statements, included in this report, further details information related to our significant accounting policies.

2. SIGNIFICANT ACCOUNTING POLICIES

A. *Use of Estimates* – The preparation of the consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, recognition of distribution income and disclosure of contingent assets and liabilities at the date of the consolidated financial statements. Actual results could differ from those estimates.

B. *Leased Property* – The Company includes assets subject to lease arrangements within Leased property, net of accumulated depreciation, in the Consolidated Balance Sheets. Lease payments received are reflected in lease revenue on the Consolidated Statements of Income, net of amortization of any off-market adjustments. Costs in connection with the creation and execution of a lease are capitalized and amortized over the lease term. See Note 4 for further discussion.

C. *Cash and Cash Equivalents* – The Company maintains cash balances at financial institutions in amounts that regularly exceed FDIC insured limits. The Company's cash equivalents are comprised of short-term, liquid money market instruments.

D. *Long-Lived Assets and Intangibles* – Property and equipment are stated at cost less accumulated depreciation. Depreciation is computed using the straight-line method over the estimated useful life of the asset. Expenditures for repairs and maintenance are charged to operations as incurred, and improvements, which extend the useful lives of assets, are capitalized and depreciated over the remaining estimated useful life of the asset.

The Company initially records long-lived assets at their acquisition cost, unless the transaction is accounted for as a business combination. If the transaction is accounted for as a business combination, the Company allocates the purchase price to the acquired tangible and intangible assets and liabilities based on their estimated fair values. The Company determines the fair values of assets and liabilities based on discounted cash flow models using current market assumptions, appraisals, recent transactions involving similar assets or liabilities and other objective evidence, and depreciates the asset values over the estimated remaining useful lives.

The Company may acquire long-lived assets that are subject to an existing lease contract with the seller or other lessee party and the Company may assume outstanding debt of the seller as part of the consideration paid. If, at the time of acquisition, the existing lease or debt contract is not at current market terms, the Company will record an asset or liability at the time of acquisition representing the amount by which the fair value of the lease or debt contract differs from its contractual value. Such amount is then amortized over the remaining contract term as an adjustment to the related lease revenue or interest expense. The Company periodically reviews its long-lived assets, primarily real estate, for impairment whenever events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable. The Company's review involves comparing current and future operating performance of the assets, the most significant of which is undiscounted operating cash flows, to the carrying value of the assets. Based on this analysis, a provision for possible loss is recognized, if any. No impairment write-downs were recognized during the three and nine months ended September 30, 2014 and September 30, 2013.

Costs in connection with the direct acquisition of a new asset are capitalized as a component of the purchase price and depreciated over the life of the asset. See Note 4 for further discussion.

E. *Investment Securities* – The Company's investments in securities are classified as either trading or other equity securities:

- *Trading securities* – The Company's publicly traded equity securities were classified as trading securities and were historically reported at fair value. The Company liquidated its trading securities in order to acquire real asset investments. As of March 31, 2013, all trading securities had been sold.
- *Other equity securities* – The Company's other equity securities represent interests in private companies which the Company has elected to report at fair value under the fair value option.
- *Realized and unrealized gains and losses on trading securities and other equity securities* – Changes in the fair values of the Company's securities during the period reported and the gains or losses realized upon sale of securities during the period are reflected as other income or expense within the accompanying Consolidated Statements of Income.

F. *Security Transactions and Fair Value* – Security transactions are accounted for on the date the securities are purchased or sold (trade date). Realized gains and losses are reported on an identified cost basis.

For equity securities that are freely tradable and listed on a securities exchange or over-the-counter market, the Company values those securities at their last sale price on that exchange or over-the-counter market on the valuation date. If the security is listed on more than one exchange, the Company will use the price from the exchange that it considers to be the principal, which may not necessarily represent the last sale price. If there has been no sale on such exchange or over-the-counter market on such day, the security will be valued at the mean between the last bid price and last ask price on such day.

The major components of net realized and unrealized gain or loss on trading securities for the three and nine months ended September 30, 2014 and September 30, 2013 are as follows:

	Major Components of Net Realized and Unrealized Gain (Loss) on Trading Securities			
	For the Three Months Ended		For the Nine Months Ended	
	September 30, 2014	September 30, 2013	September 30, 2014	September 30, 2013
Net unrealized gain on trading securities	\$ —	\$ —	\$ —	\$ —
Net realized loss on trading securities	—	(567,276)	—	(251,213)
Total net realized and unrealized loss on trading securities	\$ —	\$ (567,276)	\$ —	\$ (251,213)

The Company holds investments in illiquid securities including debt and equity securities of privately-held companies. These investments generally are subject to restrictions on resale, have no established trading market and are valued on a quarterly basis. Because of the inherent uncertainty of valuation, the fair values of such investments, which are determined in accordance with procedures approved by the Company's Board of Directors, may differ materially from the values that would have been used had a ready market existed for the investments.

The Company determines fair value to be the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company has determined the principal market, or the market in which the Company exits its private portfolio investments with the greatest volume and level of activity, to be the private secondary market. Typically, private companies are bought and sold based on multiples of EBITDA, cash flows, net income, revenues, or in limited cases, book value.

For private company investments, value is often realized through a liquidity event. Therefore, the value of the company as a whole (enterprise value) at the reporting date often provides the best evidence of the value of the investment and is the initial step for valuing the Company's privately issued securities. For any one company, enterprise value may best be expressed as a range of fair values, from which a single estimate of fair value will be derived. In determining the enterprise value of a portfolio company, an analysis is prepared consisting of traditional valuation methodologies including market and income approaches. The Company considers some or all of the traditional valuation methods based on the individual circumstances of the portfolio company in order to derive its estimate of enterprise value.

The fair value of investments in private portfolio companies is determined based on various factors, including enterprise value, observable market transactions, such as recent offers to purchase a company, recent transactions involving the purchase or sale of the equity securities of the company, or other liquidation events. The determined equity values may be discounted when the Company has a minority position, or is subject to restrictions on resale, has specific concerns about the receptivity of the capital markets to a specific company at a certain time, or other comparable factors exist.

The Company undertakes a multi-step valuation process each quarter in connection with determining the fair value of private investments. We have retained an independent valuation firm to provide third party valuation consulting services based on procedures that the Company has identified and may ask them to perform from time to time on all or a selection of private investments as determined by the Company. The multi-step valuation process is specific to the level of assurance that the Company requests from the independent valuation firm. For positive assurance, the process is as follows:

- The independent valuation firm prepares the valuations and the supporting analysis.
- The valuation report is reviewed and approved by senior management.
- The Audit Committee of the Board of Directors reviews the supporting analysis and accepts the valuations.

G. *Financing Notes Receivable* – Financing notes receivable are presented at face value plus accrued interest receivable and deferred loan origination fees and net of related direct loan origination costs. The financing notes receivable are discussed more

fully in Note 5. At September 30, 2014 the Company determined that an allowance for financing notes receivable was not deemed necessary.

H. *Lease Receivable* – Lease receivables are determined according to the terms of the lease agreements entered into by the Company and its lessees, as discussed within Note 4. Lease payments by our tenants, have remained timely and without lapse. At September 30, 2014 and December 31, 2013, the Company determined that an allowance for lease payments receivable was not deemed necessary.

I. *Accounts Receivable* – Accounts receivable are presented at face value net of an allowance for doubtful accounts. Accounts are considered past due based on the terms of sale with the customers. The Company reviews accounts for collectibility based on an analysis of specific outstanding receivables, current economic conditions and past collection experience. At September 30, 2014 and December 31, 2013, the Company determined that an allowance for doubtful accounts was not deemed necessary.

J. *Derivative Instruments and Hedging Activities* – FASB ASC 815, *Derivatives and Hedging* (“ASC 815”), provides the disclosure requirements for derivatives and hedging activities with the intent to provide users of financial statements with an enhanced understanding of: (a) how and why an entity uses derivative instruments, (b) how the entity accounts for derivative instruments and related hedged items, and (c) how derivative instruments and related hedged items affect an entity's financial position, financial performance, and cash flows. Further, qualitative disclosures are required that explain the Company's objectives and strategies for using derivatives, as well as quantitative disclosures about the fair value of and gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative instruments. Accordingly, the Company's derivative assets and liabilities are presented on a gross basis.

As required by ASC 815, the Company records all derivatives on the balance sheet at fair value. The accounting for changes in the fair value of derivatives depends on the intended use of the derivative, whether the Company has elected to designate a derivative in a hedging relationship and apply hedge accounting and whether the hedging relationship has satisfied the criteria necessary to apply hedge accounting. Derivatives designated and qualifying as a hedge of the exposure to changes in the fair value of an asset, liability, or firm commitment attributable to a particular risk, such as interest rate risk, are considered fair value hedges. Derivatives designated and qualifying as a hedge of the exposure to variability in expected future cash flows, or other types of forecasted transactions, are considered cash flow hedges. Derivatives may also be designated as hedges of the foreign currency exposure of a net investment in a foreign operation. Hedge accounting generally provides for the matching of the timing of gain or loss recognition on the hedging instrument with the recognition of the changes in the fair value of the hedged asset or liability that are attributable to the hedged risk in a fair value hedge or the earnings effect of the hedged forecasted transactions in a cash flow hedge. The Company may enter into derivative contracts that are intended to economically hedge certain of its risks, even though hedge accounting does not apply or the Company elects not to apply hedge accounting.

FASB ASC 820, *Fair Value Measurements and Disclosure* (“ASC 820”), defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. In accordance with ASC 820, the Company made an accounting policy election to measure the credit risk of its derivative financial instruments that are subject to master netting agreements on a net basis by counterparty portfolio.

K. *Fair Value Measurements* – Various inputs are used in determining the fair value of the Company's assets and liabilities. These inputs are summarized in the three broad levels listed below:

- Level 1 – quoted prices in active markets for identical investments
- Level 2 – other significant observable inputs (including quoted prices for similar investments, market corroborated inputs, etc.)
- Level 3 – significant unobservable inputs (including the Company's own assumptions in determining the fair value of investments)

ASC 820 applies to reported balances that are required or permitted to be measured at fair value under existing accounting pronouncements; accordingly, the standard does not require any new fair value measurements of reported balances. ASC 820 emphasizes that fair value is a market-based measurement, not an entity-specific measurement. Therefore, a fair value measurement should be determined based on the assumptions that market participants would use in pricing the asset or liability. As a basis for considering market participant assumptions in fair value measurements, ASC 820 establishes a fair value hierarchy that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity (observable inputs that are classified within Levels 1 and 2 of the hierarchy) and the reporting entity's own assumptions about market participant assumptions (unobservable inputs classified within Level 3 of the hierarchy).

Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access. Level 2 inputs are inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs may include quoted prices for similar assets and liabilities in active markets, as well as inputs that are observable for the asset or liability (other than quoted prices), such as interest rates, foreign exchange rates, and yield curves that are observable at commonly quoted intervals. Level 3 inputs are unobservable inputs for the asset or liability, which are typically based on an entity's own assumptions, as there is little, if any, related market activity. In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

L. *Revenue Recognition* – Specific recognition policies for the Company's revenue items are as follows:

- *Lease Revenue* – Income related to the Company's leased property is recognized on a straight-line basis over the term of the lease when collectibility is reasonably assured. Rental payments received in advance are classified as unearned revenue and included in liabilities within the Consolidated Balance Sheets. Unearned revenue is amortized ratably over the lease period as revenue recognition criteria are met. Rental payments received in arrears are accrued and classified as Lease Receivable and included in assets within the Consolidated Balance Sheets.
- *Sales Revenue* – Revenues related to natural gas distribution and performance of management services are recognized in accordance with GAAP upon delivery of natural gas and upon the substantial performance of management and supervision services related to the expansion of the natural gas distribution system. Omega, acting as a principal, provides for transportation services and natural gas supply for its customers. In addition, Omega is paid fees for the operation and maintenance of its natural gas distribution system, including any necessary expansion of the distribution system. Omega is responsible for the coordination, supervision and quality of the expansions while actual construction is generally performed by third party contractors. Revenues from expansion efforts are recognized in accordance with GAAP using either a completed contract or percentage of completion method based on the level and volume of estimates utilized, as well as the certainty or uncertainty of our ability to collect those revenues.
- *Financing Revenue* – Our financing notes receivable are considered a core product offering and therefore the related income is presented as a component of operating income in the revenue section. For increasing rate loans, base interest income is recorded ratably over the life of the loan, using the effective interest rate. The net amount of deferred loan origination fees and costs are amortized on a straight-line basis over the life of the loan and reported as an adjustment to yield in financing revenue. Participating financing revenues are recorded when specific performance criteria have been met.

M. *Cost of Sales* – Included in the Company's cost of sales are the amounts paid for gas and propane, along with related transportation, which are delivered to customers, as well as the cost of material and labor related to the expansion of the natural gas distribution system.

N. *Asset Acquisition Expenses* – Costs incurred in connection with the research of real property acquisitions not expected to be accounted for as business combinations are expensed until it is determined that the acquisition of the real property is probable. Upon such determination, costs incurred in connection with the acquisition of the property are capitalized as described in paragraph (D) above. Deferred costs related to an acquisition that we have determined, based on our judgment, not to pursue are expensed in the period in which such determination is made.

O. *Offering Costs* – Offering costs related to the issuance of common stock are charged to additional paid-in capital when the stock is issued.

P. *Debt Issuance Costs* – Costs incurred for the issuance of new debt are capitalized and amortized over the debt term. See Note 13 for further discussion.

Q. *Distributions to Stockholders* – Distributions to stockholders are determined by the Board of Directors and are recorded on the ex-dividend date.

R. *Other Income Recognition* – Specific policies for the Company's other income items are as follows:

- *Securities Transactions and Investment Income Recognition* – Securities transactions are accounted for on the date the securities are purchased or sold (trade date). Realized gains and losses are reported on an identified cost basis. Distributions received from our equity investments are generally comprised of ordinary income, capital gains and distributions received from investment securities from the portfolio company. The Company records investment income and return of capital

based on estimates made at the time such distributions are received. Such estimates are based on information available from each portfolio company and other industry sources. These estimates may subsequently be revised based on information received from the portfolio companies after their tax reporting periods are concluded, as the actual character of these distributions are not known until after our fiscal year end.

Subsequent to December 31, 2013, the Company reallocated the amount of 2013 income and return of capital it recognized for the period January 1, 2013 to December 31, 2013 based on the 2013 tax reporting information received from the individual portfolio companies. This reclassification amounted to an increase in net distributions and dividend income on securities of \$863 thousand or \$0.04 per share; a decrease in net realized and unrealized gains on other equity securities of \$863 thousand or \$0.04 per share for the year ended December 31, 2013. This reclassification had no impact on net income.

Prior to September 30, 2014, the Company reallocated the amount of 2014 income and return of capital it recognized for the period January 1, 2014 to September 30, 2014 based on estimated 2014 tax reporting information received from the individual portfolio companies. This reclassification amounted to an increase in net distributions and dividend income on securities of \$823 thousand or \$0.03 per share; an increase in net realized and unrealized loss on other equity securities of \$823 thousand or \$0.03 per share for the nine months ended September 30, 2014. This reclassification had no impact on net income.

- *Dividends and distributions from investments* – Dividends and distributions from investments are recorded on their ex-dates and are reflected as other income within the accompanying Consolidated Statements of Income. Distributions received from the Company's investments are generally characterized as ordinary income, capital gains and distributions received from investment securities. The portion characterized as return of capital is paid by our investees from their cash flow from operations. The Company records investment income, capital gains and distributions received from investment securities based on estimates made at the time such distributions are received. Such estimates are based on information available from each company and other industry sources. These estimates may subsequently be revised based on information received from the entities after their tax reporting periods are concluded, as the actual character of these distributions is not known until after the fiscal year end of the Company.

S. Federal and State Income Taxation – In 2013 we qualified, and in January 2014 elected (effective as of January 1, 2013), to be treated as a REIT for federal income tax purposes (which we refer to as the "REIT Election"). Because certain of our assets may not produce REIT-qualifying income or be treated as interests in real property, those assets are held in wholly-owned Taxable REIT Subsidiaries ("TRSs") in order to limit the potential that such assets and income could prevent us from qualifying as a REIT.

As a REIT, our distributions from earnings and profits will be treated as ordinary income and a return of capital, and generally will not qualify as qualified dividend income ("QDI"). To the extent that the REIT had accumulated C corporation earnings and profits from the periods prior to 2013, we have distributed such earnings and profits in 2013. A portion of our normal distribution was characterized for federal income tax purposes as a distribution of those earnings and profits from non-REIT years and have been treated as QDI.

As a REIT, the Company holds and operates certain of our assets through one or more wholly-owned TRSs. A TRS is a subsidiary of a REIT that is subject to applicable corporate income tax. Our use of TRSs enables us to continue to engage in certain businesses while complying with REIT qualification requirements and also allows us to retain income generated by these businesses for reinvestment without the requirement of distributing those earnings. In the future, we may elect to reorganize and transfer certain assets or operations from our TRSs to the Company or other subsidiaries, including qualified REIT subsidiaries.

The Company's trading securities and other equity securities are limited partnerships or limited liability companies which are treated as partnerships for federal and state income tax purposes. As a limited partner, the Company reports its allocable share of taxable income in computing its own taxable income. The Company's tax expense or benefit is included in the Consolidated Statements of Income based on the component of income or gains and losses to which such expense or benefit relates. Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. A valuation allowance is recognized if, based on the weight of available evidence, it is more likely than not that some portion or all of the deferred income tax asset will not be realized. Due to our decision to structure ourselves as a REIT in December 2012, it is expected that for the year ended December 31, 2013 and future periods, any deferred tax liability or asset will be related entirely to the assets and activities of the Company's TRSs.

If we cease to qualify as a REIT, the Company, as a C corporation, would be obligated to pay federal and state income tax on its taxable income. Currently, the highest regular marginal federal income tax rate for a corporation is 35 percent. The Company may

be subject to a 20 percent federal alternative minimum tax on its federal alternative minimum taxable income to the extent that its alternative minimum tax exceeds its regular federal income tax.

T. Recent Accounting Pronouncements – In August 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2014-15, Disclosure of Uncertainties about an Entity’s Ability to Continue as a Going Concern (“ASU No. 2014-15”) that will require management to evaluate whether there are conditions and events that raise substantial doubt about the Company’s ability to continue as a going concern within one year after the financial statements are issued on both an interim and annual basis. Management will be required to provide certain footnote disclosures if it concludes that substantial doubt exists or when its plans alleviate substantial doubt about the Company’s ability to continue as a going concern. ASU No. 2014-15 becomes effective for annual periods beginning in 2016 and for interim reporting periods starting in the first quarter of 2017. The Company does not expect the adoption of this amendment to have a material impact on its consolidated financial statements.

In May 2014, the FASB issued ASU No. 2014-09 "Revenue from Contracts with Customers." ASU No. 2014-09 adds to the FASB ASC by detailing new guidance in order to make a more clarified set of principles for recognizing revenue from customer contracts. ASU No. 2014-09 is effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. Management has evaluated this amendment and does not expect adoption to have a material impact on the Company's consolidated financial statements.

In April 2014, the FASB issued ASU 2014-08 "Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity". Under this guidance, only disposals representing a strategic shift in operations would be presented as discontinued operations. This guidance requires expanded disclosure that provides information about the assets, liabilities, income and expenses of discontinued operations. Additionally, the guidance requires additional disclosure for a disposal of a significant part of an entity that does not qualify for discontinued operations reporting. This guidance will be effective for reporting periods beginning on or after December 15, 2014 with early adoption permitted for disposals or classifications of assets as held-for-sale that have not been reported in financial statements previously issued or available for issuance. The Company has not elected early adoption, however we anticipate the effects of applying the revised guidance will vary based upon the nature and size of future disposal transactions. It is expected that fewer disposal transactions will meet the new criteria to be reported as discontinued operations.

In July 2013, the FASB issued ASU No. 2013-11 "Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists." ASU No. 2013-11 amends FASB ASC Topic 740 *Income taxes*, to include explicit guidance on the financial statement presentation of an unrecognized tax benefit when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists. ASU No. 2013-11 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. Management has adopted this amendment and it did not have a material impact on the Company's consolidated financial statements.

3. LEASED PROPERTIES

Pinedale LGS

Our subsidiary, Pinedale Corridor, LP ("Pinedale LP"), owns a system of gathering, storage, and pipeline facilities (the "Liquids Gathering System" or "Pinedale LGS"), with associated real property rights in the Pinedale Anticline in Wyoming.

Physical Assets

The Pinedale LGS consists of more than 150 miles of pipelines with 107 receipt points and four above-ground central gathering facilities. The system is leased to and used by Ultra Petroleum Corp. ("Ultra Petroleum") as a method of separating water, condensate and associated flash gas from a unified stream and subsequently selling or treating and disposing of the separated products. Prior to entering the Pinedale LGS, a commingled hydrocarbon stream is separated into wellhead natural gas and a liquids stream. The wellhead natural gas is transported to market by a third party. The remaining liquids, primarily water, are transported by the Pinedale LGS to one of its four central gathering facilities where they pass through a three-phase separator which separates condensate, water and associated natural gas. Condensate is a valuable hydrocarbon commodity that is sold by Ultra Petroleum; water is transported to disposal wells or a treatment facility for re-use; and the natural gas is sold or otherwise used by Ultra Petroleum for fueling on-site operational equipment. To date, no major operational issues have been reported with respect to the Pinedale LGS.

The asset is depreciated for book purposes over an estimated useful life of 26 years. The amount of depreciation recognized for the leased property for each of the three-month periods ended September 30, 2014 and 2013 was \$2.2 million, and for each of the nine-month periods ended September 30, 2014 and 2013 was \$6.7 million.

See Note 4 for further information regarding the Pinedale Lease Agreement (as defined therein).

Non-Controlling Interest Partner

Prudential Financial, Inc. ("Prudential") funded a portion of the Pinedale LGS acquisition and, as a limited partner, holds 18.95 percent of the economic interest in Pinedale LP. The general partner, Pinedale GP, holds the remaining 81.05 percent of the economic interest.

Debt

Pinedale LP borrowed \$70 million pursuant to a secured term credit facility with KeyBank National Association ("KeyBank") serving as a lender and the administrative agent on behalf of other lenders participating in the credit facility. The credit facility will remain in effect through December 2015, with an option to extend through December 2016. The credit facility is secured by the LGS. See Note 13 for further information regarding the credit facility.

Portland Terminal Facility

On January 21, 2014, we completed a follow-on equity offering of 7,475,000 shares of common stock, raising approximately \$49 million in gross proceeds at \$6.50 per share (net proceeds of approximately \$46 million after underwriters' discount). Concurrently, our subsidiary, LCP Oregon, used the net proceeds from the offering to close on a Purchase and Sale Agreement to acquire a petroleum products terminal facility and certain associated real property rights located in Portland, Oregon ("Portland Terminal Facility") for \$40 million in cash. LCP Oregon also entered into a long-term triple-net Lease Agreement relating to the use of the Portland Terminal Facility (the "Portland Lease Agreement") with Arc Terminals Holdings LLC ("Arc Terminals"), an indirect wholly-owned subsidiary of Arc Logistics Partners LP ("Arc Logistics").

The Portland Terminal Facility is a rail and marine facility adjacent to the Willamette River in Portland, Oregon. The 39-acre site has 84 tanks with a total storage capacity of approximately 1,500,000 barrels. The Portland Terminal Facility is capable of receiving, storing and delivering crude oil and refined petroleum products. Products are received and delivered via railroad or marine (up to Panamax size vessels). The marine facilities are accessed through a neighboring terminal facility via an owned pipeline. The Portland Terminal Facility offers heating systems, emulsions and an on-site product testing laboratory as ancillary services.

We anticipate funding an additional \$10 million of terminal-related improvement projects in support of Arc Terminals' commercial strategy to optimize the Portland Terminal Facility and generate stable cash flows, including: i) upgrade a portion of the existing storage assets; ii) enhance existing terminal infrastructure; and iii) develop, design, engineer and construct throughput expansion opportunities. As of September 30, 2014, additional spending on terminal-related projects totaled approximately \$4.4 million.

The asset is depreciated for book purposes over an estimated useful life of 30 years. The amount of depreciation recognized for the leased property for each of the three months ended September 30, 2014 and 2013 was \$374 thousand and \$0, respectively. The amount of depreciation recognized for the leased property for each of the nine months ended September 30, 2014 and 2013, was \$1.0 million and \$0, respectively.

See Note 4 for further information regarding the Portland Lease Agreement related to the Portland Terminal Facility assets.

Eastern Interconnect Project (EIP)

Physical Assets

The EIP transmission assets are utilized by the lessee to move electricity across New Mexico between Albuquerque and Clovis. The physical assets include 216 miles of 345 kilovolt transmission lines, towers, easement rights, converters and other grid support components. Originally, the assets were depreciated for book purposes over an estimated useful life of 20 years. Pursuant to the Purchase Agreement discussed in Note 4, the Company reevaluated the residual value used to calculate its depreciation of the EIP, and determined that a change in estimate was necessary. The change in estimate resulted in higher depreciation expenses beginning in November of 2012 through the expiration of the lease in April 2015.

The amount of depreciation expense related to the EIP leased property for each of the three-month periods ended September 30, 2014 and 2013 was \$570 thousand. The amount of depreciation expense related to the EIP leased property for each of the nine-month periods ended September 30, 2014 and 2013 was \$1.7 million.

See Note 4 for further information regarding the PNM Lease Agreement related to the EIP transmission assets.

4. LEASES

As of September 30, 2014 the Company had three significant leases. The table below displays the impact of each lease on total leased properties and total lease revenues for the periods presented.

	As a Percentage of					
	Leased Properties		Lease Revenues			
	As of September 30, 2014	As of December 31, 2013	For the Three Months Ended		For the Nine Months Ended	
			September 30, 2014	September 30, 2013	September 30, 2014	September 30, 2013
Pinedale LGS	79.95%	94.23%	70.59%	88.68%	72.45%	88.68%
Portland Terminal Facility	16.77%	—	20.53%	—	18.44%	—
Public Service of New Mexico	3.28%	5.77%	8.88%	11.32%	9.11%	11.32%

Pinedale LGS

Pinedale LP entered into a long-term triple-net Lease Agreement on December 20, 2012, relating to the use of the Pinedale LGS (the "Pinedale Lease Agreement") with Ultra Wyoming LGS, LLC ("Ultra Wyoming"), an indirect wholly-owned subsidiary of Ultra Petroleum. Ultra Wyoming utilizes the Pinedale LGS to gather and transport a commingled stream of oil, natural gas and water, then further utilizes the Pinedale LGS to separate this stream into its separate components. Ultra Wyoming's obligations under the Pinedale Lease Agreement are guaranteed by Ultra Petroleum and Ultra Petroleum's operating subsidiary, Ultra Resources, Inc. ("Ultra Resources"), pursuant to the terms of a Parent Guaranty. Annual rent for the initial term under the Pinedale Lease Agreement is a minimum of \$20 million (as adjusted annually for changes based on the Consumer Price Index ("CPI"), subject to annual maximum adjustments of 2 percent), with the exact rental amount determined by the actual volume of the components handled by the Pinedale LGS, subject to Pinedale LP not being in default under the Pinedale Lease Agreement. For 2014, the increase in quarterly rent is \$76 thousand, based on the CPI adjustment as specified in the lease terms. Total annual rent may not exceed \$27.5 million.

As of September 30, 2014 and December 31, 2013, approximately \$811 thousand and \$857 thousand, respectively, of net deferred lease costs are included in the accompanying Consolidated Balance Sheets. The deferred costs are amortized over the 15 year life of the Pinedale LGS lease. For each of the three months ended September 30, 2014 and 2013, \$15 thousand is included in amortization expense within the Consolidated Statements of Income. For each of the nine months ended September 30, 2014 and 2013, \$46 thousand, is included in amortization expense within the Consolidated Statements of Income. Approximately \$2.6 million in gross asset acquisition costs related to the Pinedale LGS acquisition is included in Leased Property within the Consolidated Balance Sheets. The asset acquisition costs are being depreciated over the anticipated 26 year life of the asset and are included in depreciation expense within the Consolidated Statements of Income.

The assets, which comprise the Pinedale LGS, include real property and land rights to which the purchase consideration was allocated based on relative fair values and equaled \$122.3 million and \$105.7 million, respectively, at the time of acquisition. The land rights are being depreciated over the 26 year life of the related land lease with associated depreciation expense expected to be approximately \$4.1 million for each of the next five years.

In view of the fact that Ultra Petroleum leases a substantial portion of the Company's net leased property, which is a significant source of revenues and operating income, its financial condition and ability and willingness to satisfy its obligations under its lease with the Company are expected to have a considerable impact on the results of operation going forward.

Ultra Petroleum is currently subject to the reporting requirements of the Securities Exchange Act of 1934, as amended (the "Exchange Act") and is required to file with the SEC annual reports containing audited financial statements and quarterly reports containing unaudited financial statements. The audited financial statements and unaudited financial statements of Ultra Petroleum can be found on the SEC's website at www.sec.gov. The Company makes no representation as to the accuracy or completeness of the audited and unaudited financial statements of Ultra Petroleum, but has no reason to doubt the accuracy or completeness of such information. In addition, Ultra Petroleum has no duty, contractual or otherwise, to advise the Company of any events that might have occurred subsequent to the date of such financial statements which could affect the significance or accuracy of such information. Summary Consolidated Balance Sheets and Consolidated Statements of Operations for Ultra Petroleum are provided below.

Portland Terminal Facility

LCP Oregon entered into the Portland Lease Agreement on January 21, 2014. Arc Logistics has guaranteed the obligations of Arc Terminals under the Portland Lease Agreement. The Portland Lease Agreement grants Arc Terminals substantially all authority to operate the Portland Terminal Facility. During the initial term, Arc Terminals will make base monthly rental payments and variable rent payments based on the volume of liquid hydrocarbons that flowed through the Portland Terminal Facility in the prior month. The base rent in the initial year of the Portland Lease Agreement increased to approximately \$418 thousand per month starting with August 2014 and each month thereafter. The base rent is also expected to increase during the initial year of the Portland Lease Agreement based on a percentage of specified construction costs at the Portland Terminal Facility incurred by LCP Oregon, estimated at \$10 million. Variable rent is capped at 30 percent of total rent, which would be the equivalent of the Portland Terminal Facility's expected throughput capacity.

Arc Logistics is a fee-based, growth-oriented Delaware limited partnership formed by Lightfoot to own, operate, develop and acquire a diversified portfolio of complementary energy logistics assets. In November 2013, Arc Logistics completed its initial public offering ("IPO"). Arc Logistics' public disclosures filed with the SEC indicate that Arc Logistics is principally engaged in the terminaling, storage, throughput and transloading of crude oil and petroleum products with energy logistics assets strategically located in the East Coast, Gulf Coast and Midwest regions of the U.S. It is focused on growing its business through the optimization, organic development and acquisition of terminaling, storage, rail, pipeline and other energy logistics assets that generate stable cash flows and offer customers multiple supply and delivery modes via pipelines, rail, marine and truck. Arc Logistics indicated in its 2013 Form 10-K that it had approximately 5 million barrels of crude oil and petroleum product storage capacity. Arc Terminals is a wholly-owned subsidiary of Arc Logistics.

Arc Logistics is currently subject to the reporting requirements of the Exchange Act and is required to file with the SEC annual reports containing audited financial statements and quarterly reports containing unaudited financial statements. The audited financial statements and unaudited financial statements of Arc Logistics can be found on the SEC's web site at www.sec.gov. The Company makes no representation as to the accuracy or completeness of the audited and unaudited financial statements of Arc

Logistics but has no reason to doubt the accuracy or completeness of such information. In addition, Arc Logistics has no duty, contractual or otherwise, to advise the Company of any events that might have occurred subsequent to the date of such financial statements which could affect the significance or accuracy of such information. None of the information in the public reports of Arc Logistics that are filed with the SEC is incorporated by reference into, or in any way form, a part of this filing.

Public Service Company of New Mexico ("PNM")

EIP is leased on a triple-net basis through April 1, 2015 (the "PNM Lease Agreement") to PNM, an independent electric utility company serving approximately 500 thousand customers in New Mexico. PNM is a subsidiary of PNM Resources Inc. (NYSE: PNM) ("PNM Resources"). Per the PNM Lease Agreement, at the time of expiration of the PNM Lease Agreement, the Company could choose to renew the PNM Lease Agreement with the lessee, the lessee could offer to repurchase the EIP, or the PNM Lease Agreement could be allowed to expire and the Company could find another lessee.

At the time of acquisition, the rate of the PNM Lease Agreement was determined to be above market rates for similar leased assets and the Company recorded an intangible asset of \$1.1 million for this premium which is being amortized as a reduction to lease revenue over the remaining lease term. See Note 12 below for further information as to the intangible asset.

On November 1, 2012 the Company entered into a definitive Purchase Agreement with PNM to sell the Company's 40 percent undivided interest in the EIP upon termination of the PNM Lease Agreement on April 1, 2015 for \$7.7 million. Upon execution of the Agreement, the schedule of the lease payments under the PNM Lease Agreement was changed so that the last scheduled semi-annual lease payment was received by the Company on October 1, 2012. Additionally, PNM's remaining basic lease payments due to the Company were accelerated. The semi-annual payments of approximately \$1.4 million that were originally scheduled to be paid on April 1, and October 1, 2013, were received by the Company on November 1, 2012. The three remaining lease payments due April 1, 2014, October 1, 2014 and April 1, 2015 were paid in full on January 2, 2014, a portion of which is reported as an unearned revenue liability within the Consolidated Balance Sheets. The amount of revenue included in lease revenue on the consolidated statements of income is \$638 thousand for the three month periods ended September 30, 2014 and 2013. For the nine month periods ended September 30, 2014 and 2013, revenue of \$1.9 million was included lease revenue on the income statement.

PNM Resources is currently subject to the reporting requirements of the Exchange Act and is required to file with the SEC annual reports containing audited financial statements and quarterly reports containing unaudited financial statements. The audited financial statements and unaudited financial statements of PNM Resources can be found on the SEC's web site at www.sec.gov. The Company makes no representation as to the accuracy or completeness of the audited and unaudited financial statements of PNM Resources but has no reason to doubt the accuracy or completeness of such information. In addition, PNM Resources has no duty, contractual or otherwise, to advise the Company of any events that might have occurred subsequent to the date of such financial statements which could affect the significance or accuracy of such information. None of the information in the public reports of PNM Resources that are filed with the SEC is incorporated by reference into, or in any way form, a part of this filing.

The future contracted minimum rental receipts for all net leases as of September 30, 2014 are as follows:

Future Minimum Lease Receipts	
Years Ending December 31,	Amount
2014	\$ 6,463,288
2015	25,547,516
2016	25,547,516
2017	25,547,516
2018	25,547,516
Thereafter	242,411,842
Total	\$ 351,065,194

5. FINANCING NOTES RECEIVABLE

On March 13, 2014, our wholly-owned subsidiary, Corridor Bison, LLC ("Corridor Bison") entered into a Loan Agreement with Black Bison Water Services, LLC ("Black Bison WS"). Black Bison WS's initial Loan draw in the amount of \$4.3 million was used to acquire real property in Wyoming and to pay Loan transaction expenses. Corridor Bison agreed to loan Black Bison WS up to \$11.5 million (the "Black Bison Loan") to finance the acquisition and development of real property that will provide water sourcing, water disposal, or water treating and recycling services for the oil and natural gas industry.

On July 23, 2014, the Company increased its secured financing to Black Bison WS from \$11.5 million to \$15.3 million. The Company executed an amendment to the Loan Agreement to increase the loan to \$12 million, and entered into an additional loan for \$3.3 million from a taxable REIT subsidiary of the Company, CorEnergy BBWS, Inc. ("CorEnergy BBWS"), on substantially the same terms (the "TRS Loan" and, together with the Black Bison Loan, as amended, the "Loans"). The purpose of the increase in the secured financing was to fund the acquisition and development of real property and related equipment that will provide water sourcing, water disposal, or water treating and recycling services for the oil and natural gas industry. There were no other material changes to the terms of the Loan Agreement. In connection with the Amendment and the TRS Loan, the Company fully funded the remainder of the \$15.3 million capacity of the combined Loans.

Interest will initially accrue on the outstanding principal amount of both Loans at an annual base rate of 2 percent, which base rate will increase by 2 percent of the current base rate per year. In addition, starting in April 2015 and continuing for each month thereafter, the outstanding principal of the Loans will bear variable interest calculated as a function of the increase in volume of water treated by Black Bison WS during the particular month. The base interest plus variable interest, paid monthly, is capped at 19 percent per annum. The Loans mature on March 31, 2024 and are to be amortized by quarterly payments beginning March 31, 2015 and annual prepayments based upon free cash flows of the Borrower and its affiliates commencing in April 2015. The Loans are secured by the real property and equipment held by Black Bison WS and the outstanding equity in Black Bison WS and its affiliates. The Loans are also guaranteed by all affiliates of Black Bison WS. The Company believes the notes receivable are fully collectible as of September 30, 2014.

As a condition to the Black Bison Loan, Corridor Bison acquired a Warrant to purchase a number of equity units, which as of March 13, 2014 represented 15 percent of the outstanding equity of Black Bison Intermediate Holdings, LLC ("Intermediate Holdings"). Corridor Bison paid \$34 thousand for the Warrant, which amount was determined to represent the fair value of the Warrant as of the date of purchase. The exercise price of the Warrant, \$3.16 per unit, was determined based on the value of 15 percent of the contributed capital of Intermediate Holdings as of the date of purchase. The exercise price increases at a rate of 12 percent per annum. The Warrant grants to the holder certain rights with respect to the management of Intermediate Holdings and Black Bison WS.

In anticipation of the July 2014 modifications to the Black Bison agreements described above, Corridor Bison assigned to CorEnergy BBWS its rights and obligations in the Warrant dated March 13, 2014. As a condition of the TRS Loan, the parties entered into an Amended and Restated Warrant, pursuant to which the amount available to purchase thereunder was increased to a number of equity units, which as of July 23, 2014 represented 18.72 percent of the outstanding equity of Intermediate Holdings. CorEnergy BBWS paid an additional \$51 thousand for this increase in the amount that could be purchased pursuant to the Amended and Restated Warrant. The amount paid was determined to be the current value of the incremental amount that could be purchased under the Amended and Restated Warrant.

6. VARIABLE INTEREST ENTITIES

The Company's variable interest in Variable Interest Entities ("VIE" or "VIEs") currently are in the form of equity ownership and loans provided by the Company to a VIE. The Company examines specific criteria and uses its judgment when determining if the Company is the primary beneficiary of a VIE and is therefore required to consolidate the investments. Factors considered in determining whether the Company is the primary beneficiary include risk- and reward-sharing, experience and financial condition of the other partner(s), voting rights, involvement in day-to-day capital and operating decisions, representation on a VIE's executive committee or Board of Directors, whether or not the Company has the power to direct the activities of the VIE that most significantly impact the VIE's economic performance, existence of unilateral kick-out rights or voting rights, and level of economic disproportionality between the Company and the other partner(s).

Consolidated VIEs

As of September 30, 2014, the Company does not have any investments in VIEs that qualify for consolidation.

Unconsolidated VIE

At September 30, 2014, the Company's recorded investment in Black Bison WS and Intermediate Holdings, collectively a VIE that is unconsolidated, was \$16.0 million. The Company's maximum exposure to loss associated with the investment is limited to the Company's outstanding note receivable, related accrued interest receivable and the purchase price paid for the Warrant, discussed in Note 5, totaling \$16.0 million. While this entity is a VIE, the Company has determined that the power to direct the activities of the VIE that most significantly impact the VIE's economic performance is not held by the Company, therefore the VIE is not consolidated.

7. INCOME TAXES

Deferred income taxes reflect the net tax effect of temporary differences between the carrying amount of assets and liabilities for financial reporting and tax purposes. Components of the Company's deferred tax assets and liabilities as of September 30, 2014 and December 31, 2013 are as follows:

Deferred Tax Assets and Liabilities				
	September 30, 2014		December 31, 2013	
Deferred Tax Assets:				
Net operating loss carryforwards	\$	(137,793)	\$	(65,248)
Cost recovery of leased and fixed assets		(896,700)		(966,914)
Sub-total	\$	(1,034,493)	\$	(1,032,162)
Deferred Tax Liabilities:				
Basis reduction of investment in partnerships	\$	5,633,662	\$	6,335,805
Net unrealized gain on investment securities		974,064		28,444
Sub-total		6,607,726		6,364,249
Total net deferred tax liability	\$	5,573,233	\$	5,332,087

For the period ended September 30, 2014, the total deferred tax liability presented above relates to assets held in the Company's TRSs. The Company recognizes the tax benefits of uncertain tax positions only when the position is "more likely than not" to be sustained upon examination by the tax authorities based on the technical merits of the tax position. The Company's policy is to record interest and penalties on uncertain tax positions as part of tax expense. As of September 30, 2014, the Company had no uncertain tax positions and no penalties and interest were accrued. Tax years subsequent to the year ending November 30, 2006 remain open to examination by federal and state tax authorities.

Total income tax expense differs from the amount computed by applying the federal statutory income tax rate of 35 percent for the three and nine months ended September 30, 2014 and September 30, 2013 to income or loss from operations and other income and expense for the years presented, as follows:

	Income Tax Expense (Benefit)			
	For the Three Months Ended		For the Nine Months Ended	
	September 30, 2014	September 30, 2013	September 30, 2014	September 30, 2013
Application of statutory income tax rate	\$ 775,982	\$ 540,602	\$ 3,004,593	\$ 1,851,535
State income taxes, net of federal tax benefit	15,321	120,139	118,090	191,978
Federal Tax Attributable to Income of Real Estate Investment Trust	(466,420)	444,384	(1,541,408)	324,310
Total income tax expense	\$ 324,883	\$ 1,105,125	\$ 1,581,275	\$ 2,367,823

Total income taxes are computed by applying the federal statutory rate of 35 percent plus a blended state income tax rate, which was approximately 3.11 percent for the three and nine months ended September 30, 2014 and 2.26 percent for the three and nine months ended September 30, 2013. CorEnergy BBWS does not pay any state taxes because it operates only in Wyoming, which does not have state income tax. Because Mowood operates only in the state of Missouri, a blended state income tax rate of 5 percent was used for the operations of our Mowood TRS for the three and nine months ended September 30, 2014 and 2013. The restructuring done in December 2012 causes us to hold and operate certain of our assets through one or more TRSs. A TRS is a subsidiary of a REIT that is subject to applicable corporate income tax. For the three and nine months ended September 30, 2014, all of the income tax expense presented above relates to the assets and activities held in the Company's TRSs. The components of income tax expense include the following for the periods presented:

Components of Income Tax Expense (Benefit)

	For the Three Months Ended		For the Nine Months Ended	
	September 30, 2014	September 30, 2013	September 30, 2014	September 30, 2013
Current tax expense (benefit)				
Federal	\$ 446,391	\$ (665,471)	\$ 1,230,768	\$ 149,550
State (net of federal tax benefit)	39,663	(14,810)	109,361	37,817
Total current tax expense (benefit)	486,054	(680,281)	1,340,129	187,367
Deferred tax expense (benefit)				
Federal	(136,829)	1,650,457	232,417	2,026,295
State (net of federal tax benefit)	(24,342)	134,949	8,729	154,161
Total deferred tax expense (benefit)	(161,171)	1,785,406	241,146	2,180,456
Total income tax expense, net	\$ 324,883	\$ 1,105,125	\$ 1,581,275	\$ 2,367,823

As of December 31, 2013, the TRSs had a net operating loss for federal income tax purposes of approximately \$160 thousand. The net operating loss may be carried forward for 20 years. If not utilized, this net operating loss will expire in the year ending December 31, 2033. A total Net Operating Loss of approximately \$182 thousand has been incurred by the TRSs for the nine months ended September 30, 2014.

The aggregate cost of securities for federal income tax purposes and securities with unrealized appreciation and depreciation, were as follows:

Aggregate Cost of Securities for Income Tax Purposes		
	September 30, 2014	December 31, 2013
Aggregate cost for federal income tax purposes	\$ 8,436,355	\$ 6,604,635
Gross unrealized appreciation	16,984,522	16,699,686
Net unrealized appreciation	\$ 16,984,522	\$ 16,699,686

8. PROPERTY AND EQUIPMENT

Property and equipment consists of the following:

Property and Equipment		
	September 30, 2014	December 31, 2013
Natural gas pipeline	\$ 5,215,424	\$ 5,215,424
Vehicles and trailers	128,958	125,117
Computers	15,627	15,627
Gross property and equipment	5,360,009	5,356,168
Less: accumulated depreciation	(2,243,135)	(2,037,685)
Net property and equipment	\$ 3,116,874	\$ 3,318,483

The amounts of depreciation of property and equipment recognized for each of the three-month periods ended September 30, 2014 and 2013 was \$71 thousand. The amount of depreciation of the property and equipment recognized for the nine-month periods ending September 30, 2014 and 2013 was \$213 thousand and \$212 thousand, respectively.

9. CONCENTRATIONS

Prior to 2013, the Company had historically invested in securities of privately-held and publicly-traded companies in the midstream and downstream segments of the U.S. energy infrastructure sector. As of September 30, 2014, investments in securities of energy infrastructure companies represented approximately 8 percent of the Company's total assets. Subsequent to September 30, 2014, the Company liquidated its investment in VantaCore Partners LP as a result of the acquisition of VantaCore by Natural Resource Partners L.P., thereby reducing its remaining investments in securities of energy infrastructure companies. See Note 17 to the Consolidated Financial Statements included in this report for additional information. The Company is now focused on identifying and acquiring real property assets in the U.S. energy infrastructure sector that are REIT-qualified.

Mowood, a wholly-owned TRS of the Company, has a ten-year contract, expiring on January 31, 2015, with the Department of Defense (“DOD”) to provide natural gas and gas distribution services to Fort Leonard Wood. On October 21, 2014, the DOD formally solicited qualifications and proposals from other parties that may be interested in providing the services Omega currently provides. In this solicitation, the DOD states that Omega is the owner of the distribution system, and that any interested party must have a feasible plan to either procure the existing system from Omega, partner with Omega, install a new natural gas distribution system or create another alternative to natural gas. It also states that if no acceptable alternatives come forward, it is the DOD’s intent to award a new 10 year contract to Omega. Based on these statements from the DOD and its knowledge of the local market, Mowood currently expects that an additional ten-year term will be agreed to by the DOD in second quarter 2015. The DOD expects that the solicitation and contract negotiation process it has undertaken will go beyond January 31, 2015. Accordingly, the DOD and Omega expect to agree to a 90 day bridge extension of the current agreement for Omega to continue providing natural gas and gas distribution services until a new agreement is reached.

Revenue related to the DOD contract accounted for 85 percent and 88 percent of our sales revenue for the three and nine months ended September 30, 2014, respectively, as compared to 64 percent and 79 percent for the three and nine months ended September 30, 2013, respectively. Mowood, through its wholly-owned subsidiary Omega, performs management and supervision services related to the expansion of the natural gas distribution system used by the DOD. The amount due from the DOD accounts for 83 percent and 91 percent of the consolidated accounts receivable balances at September 30, 2014 and December 31, 2013, respectively.

Mowood’s contracts for its supply of natural gas are concentrated among select providers. Purchases from its largest supplier of natural gas accounted for 40 percent and 63 percent of our cost of sales for the three and nine months ended September 30, 2014. This compares to 34 percent and 32 percent for the three and nine months ended September 30, 2013.

10. MANAGEMENT AND ADVISORY AGREEMENTS

On December 1, 2011, the Company executed a Management Agreement with Corridor InfraTrust Management, LLC (“Corridor”). Under the Management Agreement, Corridor (i) presents the Company with suitable acquisition opportunities consistent with the investment policies and objectives of the Company, (ii) is responsible for the day-to-day operations of the Company, and (iii) performs such services and activities relating to the assets and operations of the Company as may be appropriate. A new Management Agreement between the Company and Corridor was approved by the Board of Directors and became effective July 1, 2013. The new agreement does not change in any respect the terms for determination or payment of compensation for the Manager, does not have a specific term, and will remain in place unless terminated by the Company or the Manager in the manner permitted pursuant to the agreement. The new management agreement was amended as of January 1, 2014 to change the methodology for calculating the quarterly management fee. The new method is not expected to have a material impact on the compensation payable to the manager.

The terms of the Management Agreement include a quarterly management fee equal to 0.25 percent (1.00 percent annualized) of the value of the Company’s Managed Assets as of the end of each quarter. For purposes of the Management Agreement, “Managed Assets” means the total assets of the Company (including any securities receivables, other personal property or real property purchased with or attributable to any borrowed funds) minus (A) the initial invested value of all non-controlling interests, (B) the value of any hedged derivative assets, (C) any prepaid expenses, and (D) all of the accrued liabilities other than (1) deferred taxes and (2) debt entered into for the purpose of leverage. For purposes of the definition of Managed Assets, the Company’s securities portfolio will be valued at then current market value. For purposes of the definition of Managed Assets, other personal property and real property assets will include real and other personal property owned and the assets of the Company invested, directly or indirectly, in equity interests in or loans secured by real estate or personal property (including acquisition related costs and acquisition costs that may be allocated to intangibles or are unallocated), valued at the aggregate historical cost, before reserves for depreciation, amortization, impairment charges or bad debts or other similar noncash reserves.

The Management Agreement includes a quarterly incentive fee of 10 percent of the increase in distributions paid over a threshold distribution equal to \$0.125 per share per quarter. The Management Agreement also requires at least half of any incentive fees to be reinvested in the Company’s common stock.

The Company pays Corridor, as the Company’s Administrator pursuant to an Administrative Agreement, a fee equal to an annual rate of 0.04 percent of managed assets, with a minimum annual fee of \$30 thousand.

Tortoise Capital Advisors, L.L.C. (“TCA”) is compensated by Corridor to provide investment services related to the monitoring and disposition of our current securities portfolio.

U.S. Bancorp Fund Services, LLC serves as the Company's fund accounting services provider. The Company pays the provider a monthly fee computed at an annual rate of \$24 thousand on the first \$50 million of the Company's Net Assets, 0.0125 percent on the next \$200 million of Net Assets, 0.0075 percent on the next \$250 million of Net Assets and 0.0025 percent on the balance of the Company's Net Assets.

11. FAIR VALUE OF OTHER SECURITIES

The inputs or methodology used for valuing securities and financial instruments are not necessarily an indication of the risk associated with investing in those securities or financial instruments. The following tables provide the fair value measurements of applicable Company assets and liabilities by level within the fair value hierarchy as of September 30, 2014, and December 31, 2013. These assets and liabilities are measured on a recurring basis.

September 30, 2014

	September 30, 2014	Fair Value		
		Level 1	Level 2	Level 3
Assets:				
Other equity securities	\$ 25,420,877	\$ —	\$ —	\$ 25,420,877
Warrant Investment	508,000	—	—	508,000
Total Assets	\$ 25,928,877	\$ —	\$ —	\$ 25,928,877

December 31, 2013

	December 31, 2013	Fair Value		
		Level 1	Level 2	Level 3
Assets:				
Other equity securities	\$ 23,304,321	\$ —	\$ —	\$ 23,304,321
Total Assets	\$ 23,304,321	\$ —	\$ —	\$ 23,304,321

The changes for all Level 3 securities measured at fair value on a recurring basis using significant unobservable inputs for the nine months ended September 30, 2014 and September 30, 2013 are as follows:

Level 3 Rollforward						
For the Nine Months Ended 9/30/14	Fair Value Beginning Balance	Acquisitions ⁽²⁾	Total Realized and Unrealized Gains Included in Net Income	Return of Capital Adjustments Impacting Cost Basis of Securities	Fair Value Ending Balance	Changes in Unrealized Gains, Included in Net Income, Relating to Securities Still Held ⁽¹⁾
Other equity securities	\$ 23,304,321	\$ —	\$ 2,990,376	\$ (873,820)	\$ 25,420,877	\$ 2,990,376

Warrant investment	—	—	—	—	—	—
Total	\$ 19,707,126	\$ —	\$ 3,509,432	\$ (1,048,290)	\$ 22,168,268	\$ 3,509,432

(1) Located in Net realized and unrealized gain on other equity securities in the Consolidated Statements of Income

(2) Includes capitalized costs in addition to the purchase price

The Company utilizes the beginning of reporting period method for determining transfers between levels. There were no transfers between levels 1, 2 or 3 for the three- and nine-month periods ended September 30, 2014 and September 30, 2013.

Valuation Techniques and Unobservable Inputs

An equity security of a publicly traded company acquired in a private placement transaction without registration under the Securities Act of 1933, as amended (the "1933 Act"), is subject to restrictions on resale that can affect the security's liquidity (and hence its fair value). If the security has a common share counterpart trading in a public market, the Company generally determines an appropriate percentage discount for the security in light of the restrictions that apply to its resale (taking into account, for example, whether the resale restrictions of Rule 144 under the 1933 Act apply). This pricing methodology applies if the Company has Level 2 trading securities.

The Company's other equity securities, which represent securities issued by private companies, are classified as Level 3 assets. Valuation of these investments is determined by weighting various valuation metrics for each security. Significant judgment is required in selecting the assumptions used to determine the fair values of these investments. See Note 2, Significant Accounting Policies, for additional discussion.

For the year ended December 31, 2013, the Company's investments in private companies were valued using one or a combination of the following valuation techniques: (i) analysis of valuations for publicly traded companies in a similar line of business ("public company analysis"), (ii) analysis of valuations for comparable M&A transactions ("M&A analysis") and (iii) discounted cash flow analysis.

The public company analysis utilizes valuation multiples for publicly traded companies in a similar line of business as the portfolio company to estimate the fair value of such investment. Typically, the Company's analysis focuses on the ratio of enterprise value to earnings before interest expense, income tax expense, depreciation and amortization ("EBITDA") which is commonly referred to as an EV/EBITDA multiple. The Company selects a range of multiples given the trading multiples of similar publicly traded companies and applies such multiples to the portfolio company's EBITDA to estimate the portfolio company's trailing, proforma, projected or average (as appropriate) EBITDA to estimate the portfolio company's enterprise value and equity value. The Company also selects a range of trading market yields of similar public companies and applies such yields to the portfolio company's estimated distributable cash flow. When calculating these values, the Company applies a discount, when applicable, to the portfolio company's estimated equity value for the size of the company and the lack of liquidity in the portfolio company's securities. The M&A analysis utilizes valuation multiples for historical M&A transactions for companies or assets in a similar line of business as the portfolio company to estimate the fair value of such investment. Typically, the Company's analysis focuses on EV/EBITDA multiples. The Company selects a range of multiples based on EV/EBITDA multiples for similar M&A transactions or similar companies and applies such ranges to the portfolio company's analytical EBITDA to estimate the portfolio company's enterprise value.

The discounted cash flow ("DCF") analysis is used to estimate the equity value for the portfolio company based on estimated DCF of such portfolio company. Such cash flows include an estimate of terminal value for the portfolio company. A present value of these cash flows is determined by using estimated discount rates (based on the Company's estimate for weighted average cost of capital for such portfolio company).

Under all of these valuation techniques, the Company estimated operating results of its portfolio companies (including EBITDA). These estimates utilize unobservable inputs such as historical operating results, which may be unaudited, and projected operating results, which were based on expected operating assumptions for such portfolio company. The Company also consulted with management of the portfolio companies to develop these financial projections. These estimates were sensitive to changes in assumptions specific to such portfolio company as well as general assumptions for the industry. Other unobservable inputs utilized in the valuation techniques outlined above include: possible discounts for lack of marketability, selection of publicly-traded companies, selection of similar M&A transactions, selected ranges for valuation multiples, selected range of yields and expected required rates of return and weighted average cost of capital. The various inputs were weighted as appropriate, and other factors may have been weighted into the valuation, including recent capital transactions of the Company.

Changes in EBITDA multiples, or discount rates may change the fair value of the Company's portfolio investments. Generally, a decrease in EBITDA multiples or DCF multiples, or an increase in discount rates, when applicable, may result in a decrease in the fair value of the Company's portfolio investments.

For the nine months ended September 30, 2014, the Company's investments in private companies were valued using one or a combination of the following valuation techniques: (i) public share price of private companies investments, discounted for a lack of marketability, (ii) recent sales price of private companies, discounted for any lack of marketability or liquidity due to an earn out or escrow agreement and (iii) discounted cash flow analysis. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of the Company's investments may fluctuate from period to period. Additionally, the fair value of the Company's investments may differ from the values that would have been used

had a ready market existed for such investments and may differ materially from the values that the Company may ultimately realize.

As of both September 30, 2014 and December 31, 2013, the Company held a 6.7 percent equity interest in Lightfoot Capital Partners LP ("Lightfoot") and an 11.1 percent equity interest in VantaCore Partners LP ("VantaCore"). Please see Note 17 to these Consolidated Financial Statements and the Asset Portfolio and Related Developments section of Management's Discussion and Analysis for more detail relating to the sale of VantaCore on October 1, 2014.

Certain condensed combined financial information of the unconsolidated affiliates, Lightfoot and VantaCore, is presented in the following tables.

Assets	September 30, 2014	December 31, 2013
Current assets	\$ 60,451,310	\$ 50,545,378
Noncurrent assets	550,676,592	554,029,979
Total Assets	\$ 611,127,902	\$ 604,575,357
Liabilities		
Current liabilities	\$ 33,630,413	\$ 29,159,353
Noncurrent liabilities	193,522,187	185,653,304
Total Liabilities	\$ 227,152,600	\$ 214,812,657
Partner's equity	383,975,302	389,762,700
Total liabilities and partner's equity	\$ 611,127,902	\$ 604,575,357

	For the Three Months Ending		For the Nine Months Ending	
	September 30, 2014	September 30, 2013	September 30, 2014	September 30, 2013
Revenues	\$ 48,289,666	\$ 40,481,062	\$ 124,727,402	\$ 106,112,586
Operating expenses	42,443,219	34,175,660	112,883,618	91,022,483

Net income	\$ 6,519,926	\$ 5,180,671	\$ 16,712,437	\$ 23,085,133
EBITDA	\$ 14,005,447	\$ 12,943,273	\$ 41,113,399	\$ 45,701,881

For the nine months ended September 30, 2014, the Company's Warrant Investment was valued using the Black-Scholes model. The Black-Scholes model incorporates the fair value of the business, the time value of money, the option's strike price, volatility of business and the time to the option's expiry. Due to the inherent uncertainty of determining the fair value of Warrant investments that do not have a readily available market value, the fair value of the Company's warrant investments may fluctuate from period to period. Additionally, the fair value of the Company's warrant investments may differ from the values that would have been used had a ready market existed for such investments and may differ materially from the values that the Company may ultimately realize.

The following section describes the valuation methodologies used by the Company for estimating fair value for financial instruments not recorded at fair value, but fair value is included for disclosure purposes only, as required under disclosure guidance related to the fair value of financial instruments.

Cash and Cash Equivalents — The carrying value of cash, amounts due from banks, federal funds sold and securities purchased under resale agreements approximates fair value.

Financing Notes Receivable — Based on the interest rates for similar financial instruments, the carrying value of the financing notes receivable are considered to approximate fair value.

Long-term Debt — The fair value of the Company's long-term debt is calculated, for disclosure purposes, by discounting future cash flows by a rate equal to the Company's current expected rate for an equivalent transaction.

Line of Credit — The carrying value of the line of credit approximates the fair value due to its short-term nature.

Carrying and Fair Value Amounts

	Level within fair value hierarchy	September 30, 2014		December 31, 2013	
		Carrying Amount	Fair Value	Carrying Amount	Fair Value
Financial Assets:					
Cash and cash equivalents	Level 1	\$ 5,476,216	\$ 5,476,216	\$ 17,963,266	\$ 17,963,266
Financing notes receivable	Level 2	\$ 15,510,956	\$ 15,510,956	\$ —	\$ —
Financial Liabilities:					
Long-term debt	Level 2	\$ 67,942,000	\$ 67,942,000	\$ 70,000,000	\$ 70,000,000
Line of credit	Level 1	\$ —	\$ —	\$ 81,935	\$ 81,935

12. INTANGIBLES

The Company has recorded an intangible lease asset, related to the PNM Lease Agreement, for the fair value of the amount by which the remaining contractual lease payments exceeded market lease rates at the time of acquisition. The intangible lease asset is being amortized on a straight-line basis over the life of the lease term, which expires on April 1, 2015. Quarterly amortization of the intangible lease asset, totaling \$73 thousand for each of the three months ended September 30, 2014 and September 30, 2013, and \$219 thousand for each of the nine months ended September 30, 2014 and September 30, 2013, is reflected in the accompanying Consolidated Statements of Income as a reduction to lease revenue. This amount is included in amortization expense in the accompanying Consolidated Statements of Cash Flows. Refer to Note 4 for further discussion around the PNM Purchase Agreement.

Intangible Lease Asset		
	September 30, 2014	December 31, 2013
Intangible lease asset	\$ 1,094,771	\$ 1,094,771
Accumulated amortization	(948,800)	(729,847)
Net intangible lease asset	\$ 145,971	\$ 364,924

Remaining Estimated Amortization On Intangibles	
Year ending December 31,	Amount
2014	\$ 72,986
2015	72,985
Total	\$ 145,971

13. CREDIT FACILITIES

On December 20, 2012, Pinedale LP closed on a \$70 million secured term credit facility with KeyBank serving as a lender and as administrative agent on behalf of other lenders participating in the credit facility. Funding of the credit facility was conditioned on our contribution to Pinedale LP of the proceeds of a related stock issuance financing a portion of the acquisition cost of the Pinedale LGS and the receipt by Pinedale LP of the related \$30 million co-investment funds from Prudential. Outstanding balances under the credit facility will generally accrue interest at a variable annual rate equal to LIBOR plus 3.25 percent (3.40 percent as of September 30, 2014). The credit facility will remain in effect through December 2015, with an option to extend through December 2016. Principal payments totaling \$2.9 million and \$3.5 million are required during the years 2014 and 2015, respectively. The credit facility is secured by the Pinedale LGS. Pinedale LP is obligated to pay all accrued interest monthly and is further obligated to make monthly principal payments, which began March 7, 2014, in the amount of \$294 thousand or 0.42 percent of the principal balance as of March 1, 2014. The credit agreement contains, among other restrictions, specific financial covenants including the maintenance of certain financial coverage ratios and a minimum net worth requirement. Additionally, the registrant has provided to KeyBank a guarantee against certain inappropriate conduct by or on behalf of Pinedale LP or us. Pinedale LP is required to maintain a restricted collateral account into which Ultra Wyoming makes all lease payments under the Pinedale Lease Agreement. Payments of principal and interest pursuant to the credit facility are drawn by KeyBank directly from the restricted collateral account prior to transferring the remaining cash to the Pinedale LP operating account. The balance in the restricted collateral account at September 30, 2014 was \$0. As of September 30, 2014, Pinedale LP was in compliance with all of the financial covenants of the secured term credit facility.

Pinedale LP's credit facility with KeyBank limits distributions by Pinedale LP to the Company. Now that the Company has qualified as a REIT under the Code, distributions by Pinedale LP to the Company are permitted to the extent required for the Company to

maintain its REIT qualification, so long as Pinedale LP's obligations to KeyBank have not been accelerated following an Event of Default (as defined in the credit facility). The KeyBank credit facility also requires that Pinedale LP maintain minimum net worth levels and certain leverage ratios, which along with other provisions of the credit facility limit cash dividends and loans to the Company.

As of September 30, 2014 and December 31, 2013 approximately \$630 thousand and \$1.0 million, respectively, in net deferred debt issuance costs related to the KeyBank credit facility are included in the accompanying Consolidated Balance Sheets. The deferred costs will be amortized over the anticipated three-year term of the KeyBank credit facility. For the three months ended September 30, 2014 and 2013, \$129 thousand is included in interest expense within the accompanying Consolidated Statements of Income. For the nine months ended September 30, 2014 and 2013, \$387 thousand and \$385 thousand, respectively, are included in interest expense within the accompanying Consolidated Statements of Income.

We have executed interest rate swap derivatives to add stability to our interest expense and to manage our exposure to interest rate movements on our LIBOR based borrowings. Interest rate swaps involve the receipt of variable-rate amounts from a counterparty in exchange for us making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount. See Note 14 for further information regarding interest rate swap derivatives.

On May 8, 2013, the Company entered into a \$20 million revolving line of credit with KeyBank. The primary term of the facility was three years with the option for a one-year extension. Outstanding balances under the revolving credit facility (the "KeyBank Revolver") accrued interest at a variable annual rate equal to LIBOR plus 4.0 percent or the Prime Rate plus 2.75 percent. The facility was for the purpose of funding general working capital needs and if necessary, to provide short-term financing for the acquisition of additional real property assets. The amount available to be drawn under this facility was subject to a borrowing base limitation. As of September 30, 2014, there had been no borrowings against the KeyBank Revolver. The agreement was terminated on September 26, 2014.

As of September 30, 2014 and December 31, 2013, approximately \$0 and \$208 thousand, respectively, in net deferred debt issuance costs, related to the KeyBank Revolver, are included in the accompanying Consolidated Balance Sheets. The deferred costs were initially amortized over the anticipated four-year term of the KeyBank Revolver facility. For the three months ended September 30, 2014 and 2013, approximately \$16 thousand and \$0, respectively, is included in interest expense within the accompanying Consolidated Statements of Income. For the nine months ended September 30, 2014 and 2013, approximately \$47 thousand and \$0, respectively, is included in interest expense within the accompanying Consolidated Statements of Income. Upon termination, the remaining unamortized deferred debt issuance costs totaling approximately \$161 thousand were expensed in full.

On September 26, 2014 the company entered into a \$30 million revolving credit facility (the "Regions Revolver") with Regions Bank. The credit facility has a maturity of September 26, 2018. For the first six months the facility will bear interest on the outstanding balance at a rate of LIBOR plus 4.00 percent. On March 26, 2015 the interest rate will be determined by a grid anticipated to be LIBOR plus 3.25 percent to 4.00 percent. As of September 30, 2014 and December 31, 2013 approximately \$452 thousand and \$0, respectively, in net deferred debt issuance costs related to the Regions Bank credit facility are included in the accompanying Consolidated Balance Sheets. For the three and nine months ended September 30, 2014 and 2013, approximately \$0, is included in interest expense within the accompanying Consolidated Statements of Income. As of September 30, 2014, there had been no borrowings against the Regions Revolver.

On October 29, 2010, Mowood entered into a Revolving Note Payable Agreement ("2010 Note Payable Agreement") with a financial institution with a maximum borrowing base of \$1.3 million. Borrowings on the 2010 Note Payable Agreement, as amended and restated, were secured by all of Mowood's assets. Interest accrued at LIBOR, plus 4 percent, was payable monthly, with all outstanding principal and accrued interest payable on the termination date of October 29, 2013.

On October 15, 2013, Mowood entered into a Revolving Note Payable Agreement ("2013 Note Payable Agreement") with a financial institution with a maximum borrowing base of \$1.5 million. Borrowings on the 2013 Note Payable Agreement are secured by Mowood's assets. Interest accrues at Prime Lending Rate as published in the Wall Street Journal, plus 0.5 percent (3.75 percent as of September 30, 2014), is payable monthly, with all outstanding principal and accrued interest payable on the termination date of October 15, 2014. As of September 30, 2014 there was \$0 in outstanding borrowings under this 2013 Note Payable Agreement. The 2013 Note Payable Agreement contains various restrictive covenants, with the most significant relating to minimum consolidated fixed charge ratio, the incidence of additional indebtedness, member distributions, extension of guaranties, future investments in other subsidiaries and change in ownership. Mowood was in compliance with the various covenants of the 2013 Note Payable Agreement as of September 30, 2014. For additional information, see Note 17 of the Notes to the Consolidated Financial Statements.

14. INTEREST RATE HEDGE SWAPS

Derivative financial instruments

Currently, the Company uses interest rate swaps to manage its interest raterisk. The valuation of these instruments is determined using widely accepted valuation techniques including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including forward interest rate curves. The fair values of interest rate swaps are determined using the market standard methodology of netting the discounted future fixed cash payments and the discounted expected variable cash receipts. The variable cash receipts are based on an expectation of future interest rates (forward curves) derived from observable market interest rate forward curves.

To comply with the provisions of ASC 820, the Company incorporates credit valuation adjustments to appropriately reflect both its own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements. In adjusting the fair value of its derivative contracts for the effect of nonperformance risk, the Company has considered the impact of netting and any applicable credit enhancements, such as collateral postings, thresholds, mutual puts, and guarantees. In conjunction with the FASB's fair value measurement guidance in ASC 820, the Company made an accounting policy election to measure the credit risk of its derivative financial instruments that are subject to master netting agreements on a net basis by counterparty portfolio.

Although the Company has determined that the majority of the inputs used to value its derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with its derivatives utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by itself and its counterparties. However, as of September 30, 2014, the Company has assessed the significance of the impact of the credit valuation adjustments on the overall valuation of its derivative positions and has determined that the credit valuation adjustments are not significant to the overall valuation of its derivatives. As a result, the Company has determined that its derivative valuations in their entirety are classified in Level 2 of the fair value hierarchy.

The table below presents the Company's assets and liabilities measured at fair value on a recurring basis as well as their classification on the Consolidated Balance Sheets as of September 30, 2014 and December 31, 2013, aggregated by the level in the fair value hierarchy within which those measurements fall. Hedges that are valued as receivable by the Company are considered Asset Derivatives and those that are valued as payable by the Company are considered Liability Derivatives.

Derivative Financial Instruments Measured At Fair Value on a Recurring Basis

Balance Sheet Line Item	Balance Sheet Classification	Fair Value Hierarchy		
		Level 1	Level 2	Level 3
September 30, 2014				
Hedged derivative asset	Assets	\$ —	\$ 577,584	\$ —
December 31, 2013				
Hedged derivative asset	Assets	\$ —	\$ 680,968	\$ —

Level 1 – quoted prices in active markets for identical investments

Level 2 – other significant observable inputs (including quoted prices for similar investments, market corroborated inputs, etc.)

Level 3 – significant unobservable inputs (including the Company's own assumptions in determining the fair value of investments)

Risk Management Objective of Using Derivatives

The Company is exposed to certain risk arising from both its business operations and economic conditions. The Company principally manages its exposures to a wide variety of business and operational risks through management of its core business activities. The Company manages economic risks, including interest rate, liquidity, and credit risk primarily by managing the amount, sources, and duration of its debt funding and the use of derivative financial instruments. Specifically, the Company enters into derivative financial instruments to manage exposures that arise from business activities that result in the receipt or payment of future known and uncertain cash amounts, the value of which are determined by interest rates. The Company's derivative financial instruments are used to manage differences in the amount, timing, and duration of the Company's known or expected cash receipts and its known or expected cash payments principally related to the Company's investments and borrowings.

Cash Flow Hedges of Interest Rate Risk

The Company's objectives in using interest rate derivatives are to add stability to interest expense and to manage its exposure to interest rate movements. To accomplish this objective, the Company primarily uses interest rate swaps and caps as part of its interest rate risk management strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable amounts from a counterparty in exchange for the Company making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount. Interest rate caps designated as cash flow hedges involve the receipt of variable amounts from a counterparty if interest rates rise above the strike rate on the contract in exchange for an upfront premium.

The effective portion of changes in the fair value of derivatives designated and that qualify as cash flow hedges is recorded in Accumulated Other Comprehensive Income ("AOCI") and is subsequently reclassified into earnings in the period that the hedged forecasted transaction affects earnings. The Company elected to designate its interest rate swaps as cash flow hedges in April 2013. During the three and nine months ended September 30, 2014, such derivatives were used to hedge the variable cash flows associated with existing variable-rate debt. The ineffective portion of the change in fair value of the derivatives is recognized directly in earnings. During the three and nine months ended September 30, 2014 there was a gain due to ineffectiveness of approximately \$148 and there was a loss due to ineffectiveness of approximately \$434, respectively, recorded in earnings resulting from interest rate swaps that did not have a fair value of zero at inception of the hedging relationship. During the three and nine-months ended September 30, 2013 there was a loss due to ineffectiveness of approximately \$1 thousand and a gain of \$6 thousand due to ineffectiveness, respectively, recorded in earnings resulting from interest rate swaps that did not have a fair value of zero at inception of the hedging relationship.

Amounts reported in AOCI related to derivatives will be reclassified to interest expense as interest payments are made on the Company's variable-rate debt. Over the next 12 months, the Company estimates that an additional \$247 thousand will be reclassified as an increase to interest expense.

As of September 30, 2014, the Company had the following outstanding interest rate derivatives that were designated as cash flow hedges of interest rate risk:

Interest Rate Derivative	Number of Instruments	Notional Amount Outstanding	Effective Date	Termination Date	Floating Rate Received	Fixed Rate Paid
Interest Rate Swap	2	\$52,500,000	February 5, 2013	December 5, 2017	1-month US Dollar LIBOR	0.865%

Non-Designated Hedges

Derivatives not designated as hedges are not speculative and are used to manage the Company's exposure to interest rate movements and other identified risks. Changes in the fair value of derivatives not designated in hedging relationships are recorded directly in earnings and were equal to a net loss of approximately \$0 and \$75 thousand for the three and nine months ended September 30, 2013, respectively. As the Company elected to designate its interest rate swaps in cash flow hedging relationships in April 2013 (see Cash Flow Hedges of Interest Rate Risk above), the Company did not have any non-designated hedges as of September 30, 2014.

Tabular Disclosure of the Effect of Derivative Instruments on the Income Statement

The tables below present the effect of the Company's derivative financial instruments on the Income Statement for the three and nine months ended September 30, 2014 and September 30, 2013.

Derivatives in Cash Flow Hedging Relationships	Amount of Gain (Loss) Recognized in AOCI on Derivative (Effective Portion)		Location of Gain (Loss) Reclassified from AOCI into Net Income (Effective Portion)	Amount of Gain (Loss) Reclassified from AOCI on Derivatives (Effective Portion) Recognized in Net Income *		Location of Gain (Loss) Recognized in Income on Derivative (Ineffective Portion and Amount Excluded from Effectiveness Testing)	Amount of Gain (Loss) Recognized in Income on Derivative (Ineffective Portion, Amounts Excluded from Effectiveness Testing)	
	September 30, 2014	September 30, 2013		September 30, 2014	September 30, 2013		September 30, 2014	September 30, 2013
For the three months ended:								
Interest Rate Products	\$ 187,642	\$ (397,214)	Interest Expense	\$ (77,135)	\$ (72,757)	Interest Expense	\$ 148	\$ (1,062)
For the nine months ended:								
Interest Rate Products	\$ (385,232)	\$ 669,674	Interest Expense	\$ (228,716)	\$ (142,750)	Interest Expense	\$ (434)	\$ 6,098

Derivatives Not Designated as Hedging Instruments	Location of Gain (Loss) Recognized in Income on Derivative	Amount of Gain (Loss) Recognized in Income on Derivative *			
		For the Three Months Ended		For the Nine Months Ended	
		September 30, 2014	September 30, 2013	September 30, 2014	September 30, 2013
Interest rate contracts	Interest Expense	\$ —	\$ —	\$ —	\$ (75,200)

* The gain or (loss) recognized in income on derivatives includes changes in fair value of the derivatives as well as the periodic cash settlements and interest accruals for derivatives not designated as hedging instruments

Tabular Disclosure of Offsetting Derivatives

The table below presents a gross presentation, the effects of offsetting, and a net presentation of the Company's derivatives as of September 30, 2014 and December 31, 2013. The net amounts of derivative assets or liabilities can be reconciled to the tabular disclosure of fair value. The tabular disclosure of fair value provides the location that derivative assets and liabilities are presented on the Balance Sheet.

	Gross Amounts of Recognized Assets	Gross Amounts Offset in the Statement of Financial Position	Net Amounts of Assets presented in the Statement of Financial Position	Gross Amounts Not Offset in the Statement of Financial Position		Net Amount
				Financial Instruments	Cash Collateral Received	
Offsetting Derivative Assets as of September 30, 2014	\$ 577,584	\$ —	\$ 577,584	\$ —	\$ —	\$ 577,584
Offsetting Derivative Liabilities as of September 30, 2014	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —
Offsetting Derivative Assets as of December 31, 2013	\$ 680,968	\$ —	\$ 680,968	\$ —	\$ —	\$ 680,968
Offsetting Derivative Liabilities as of December 31, 2013	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —

Credit-Risk Related Contingent Features

The Company has agreements with some of its derivative counterparties that contain a provision where if the Company defaults on any of its indebtedness, including default where repayment of the indebtedness has not been accelerated by the lender, then the company could also be declared in default on its derivative obligations.

As of September 30, 2014, the Company did not have any derivatives that were in a net liability position. Therefore, the credit risk-related contingent features discussed above would not apply as of September 30, 2014.

15. WARRANTS

The Company issued 945,594 warrants (representing the right to purchase one share of the Company's common stock for \$11.41 per common share) on February 7, 2007, all of which expired on February 6, 2014 and are no longer outstanding as of September 30, 2014.

16. EARNINGS PER SHARE

The following table sets forth the computation of basic and diluted earnings per share:

	Earnings Per Share			
	For the Three Months Ended		For the Nine Months Ended	
	September 30, 2014	September 30, 2013	September 30, 2014	September 30, 2013
Net income attributable to CORR Stockholders	\$ 1,888,418	\$ 439,452	\$ 6,999,485	\$ 2,922,277
Basic and diluted weighted average shares (1)	31,641,851	24,151,700	31,090,370	24,147,163
Basic and diluted earnings per share attributable to CORR Stockholders	\$ 0.06	\$ 0.02	\$ 0.23	\$ 0.12

(1) Warrants to purchase shares of common stock were outstanding during the periods reflected in the table above, but were not included in the computation of diluted earnings per share because the warrants' exercise price was greater than the average market value of the common shares and, therefore, the effect would be anti-dilutive.

The increase in earnings per share for three and nine months ended September 30, 2014 as compared to the three and nine months ended September 30, 2013 is primarily due to an increase in lease revenue from quarterly rent from the Portland Terminal Facility and the increase in financing revenue from the loans to the Black Bison entities.

17. SUBSEQUENT EVENTS

The Company performed an evaluation of subsequent events through the date of the issuance of these financial statements and determined that no additional items require recognition or disclosure, except for the following:

Dividend Declaration

On October 29, 2014, the Company's Board of Directors declared the third quarter 2014 distribution of \$0.13 per share. The distribution is payable on November 28, 2014 to shareholders of record on November 14, 2014.

Sale of VantaCore

On October 3, 2014, the Company announced that, effective as of October 1, 2014, Natural Resource Partners L.P. completed its acquisition of VantaCore Partners LP. The Company's portion of the sale proceeds was approximately \$13.6 million, of which \$2.9 million will be held in escrow pending certain post-closing obligations or the expiration of certain time periods. For additional details, please refer to Item 2.01 of the Company's Current Report on Form 8-K, filed with the SEC on October 7, 2014.

2014 Note Payable Agreement

On October 15, 2014, Mowood renewed the 2013 Note Payable Agreement by entering into a Revolving Note Payable Agreement ("2014 Note Payable Agreement") with a financial institution, extending the maturity date to January 31, 2015. The 2014 Note Payable Agreement has a maximum borrowing base of \$1.5 million. Borrowings on the Note Payable are secured by Mowood's assets. Interest accrues at Prime Lending Rate as published in the Wall Street Journal, plus 0.5 percent (3.75 percent at October 15, 2014), is payable monthly, with all outstanding principal and accrued interest payable on the termination date of January 31, 2015. The Note Payable Agreement contains various restrictive covenants, with the most significant relating to minimum consolidated fixed charge ratio, the incidence of additional indebtedness, member distributions, extension of guaranties, future investments in other subsidiaries and change in ownership. The 2014 Note Payable Agreement provides for an unused credit line fee of 20 basis points per month.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Certain statements included or incorporated by reference in this *Quarterly Report on Form 10-Q* may be deemed "forward looking statements" within the meaning of the federal securities laws. In many cases, these forward looking statements may be identified by the use of words such as "will," "may," "should," "could," "believes," "expects," "anticipates," "estimates," "intends," "projects," "goals," "objectives," "targets," "predicts," "plans," "seeks," or similar expressions. Any forward-looking statement speaks only as of the date on which it is made and is qualified in its entirety by reference to the factors discussed throughout this report.

Although we believe the expectations reflected in any forward-looking statements are based on reasonable assumptions, forward-looking statements are not guarantees of future performance or results and we can give no assurance that these expectations will be attained. Our actual results may differ materially from those indicated by these forward-looking statements due to a variety of known and unknown risks and uncertainties. In addition to the risk factors discussed in Part I, Item 1A of our Annual Report on Form 10-K, as amended, for the year ended December 31, 2013, such known risks and uncertainties include, without limitation:

- the ability of our tenants to make payments under their respective leases, our reliance on certain major tenants and our ability to re-lease properties that become vacant;
- our ability to obtain suitable tenants for our properties;
- changes in economic and business conditions, including the financial condition of our tenants and general economic conditions in the energy industry, and in the particular sectors of that industry served by each of our infrastructure assets;
- the inherent risks associated with owning real estate, including local real estate market conditions, governing laws and regulations, including potential liabilities relating to environmental matters, and illiquidity of real estate investments;
- our ability to sell properties at an attractive price;
- our ability to repay debt financing obligations;
- our ability to refinance amounts outstanding under our credit facilities at maturity on terms favorable to us;
- the loss of any member of our management team;
- our ability to comply with certain debt covenants;
- our ability to integrate acquired properties and operations into existing operations;
- our continued ability to access the debt or equity markets;
- the availability of other debt and equity financing alternatives;
- market conditions affecting our debt and equity securities;
- changes in interest rates under our current credit facility and under any additional variable rate debt arrangements that we may enter into in the future;
- our ability to successfully implement our selective acquisition strategy;
- our ability to maintain internal controls and processes to ensure all transactions are accounted for properly, all relevant disclosures and filings are timely made in accordance with all applicable rules and regulations, and any potential fraud or embezzlement is thwarted or detected;
- changes in federal or state tax rules or regulations that could have adverse tax consequences;
- declines in the market value of our investment securities;
- and
- changes in federal income tax regulations (and applicable interpretations thereof), or in the composition or performance of our assets, that could impact our ability to continue to qualify as a real estate investment trust for federal income tax purposes.

This list of risks and uncertainties is only a summary and is not intended to be exhaustive. We disclaim any obligation to update or revise any forward-looking statements to reflect actual results or changes in the factors affecting the forward-looking information.

BUSINESS OBJECTIVE

Our assets are generally leased to energy companies via long-term triple-net participating leases. The lease structures require that the tenant pay all operating expenses of the business conducted by the tenant, including real estate taxes, insurance, utilities, and expenses of maintaining the asset in good working order. Our long-term participating lease structures provide us base rents that are fixed and determinable, with escalators dependent upon increases in the Consumer Price Index. Leases may also include features that allow us to participate in the financial performance and/or value of the energy infrastructure asset.

We also may provide other types of capital, including loans secured by energy infrastructure assets. The assets we own and seek to acquire include pipelines, storage tanks, transmission lines and gathering systems, among others. We intend to acquire assets that will enhance the stability of our dividend through diversification, while offering the potential for long term distribution growth.

These sale-leaseback or real property mortgage transactions provide the energy company with a source of capital that is an alternative to sources such as corporate borrowing, bond offerings, or equity offerings. We expect to receive participation features in the financial performance or value of the underlying infrastructure real property asset.

RESULTS OF OPERATIONS

We believe the Lease Revenue, Security Distributions and Operating Results overview presented below provides investors with information that will assist them in analyzing the operating performance of our leased assets, private equity securities and operating entities. As it pertains to Other Equity Securities, the Company does not believe that return of capital distributions and Realized/Unrealized gains and losses are indicative of the operating performance of these assets. Accordingly, we have excluded them from EBITDA, resulting in an Adjusted EBITDA metric. Adjusted EBITDA is then reconciled to the most directly comparable GAAP financial measure, Net Income Attributable to CORR Stockholders, by accounting for Other Income, Depreciation, Amortization, Interest Expense and Income Taxes. We believe that Adjusted EBITDA is an important operating metric which highlights the performance of our assets for shareholders to use in measuring our results.

As discussed in Note 4, the Company entered into a definitive Purchase Agreement with PNM to sell the Company's interest in the EIP leased asset upon termination of the PNM Lease Agreement on April 1, 2015. The following Results of Operations analysis includes Lease Revenue and Depreciation Expense related to the PNM Lease Agreement and the EIP leased asset.

Following is a comparison of lease revenues, security distributions and operating results, expenses, other income and expense, and income (loss) before income taxes for the three and nine months ended September 30, 2014 and 2013:

	Results of Operations			
	For the Three Months Ended		For the Nine Months Ended	
	September 30, 2014	September 30, 2013	September 30, 2014	September 30, 2013

(1) For a full reconciliation of AFFO per share (basic and diluted) to Income Attributable to CORR Stockholders, see FFO/AFFO Reconciliation table presented herein.

(2) For a full reconciliation of book value per share (basic and diluted) to Income Attributable to CORR Stockholders, see Book Value Per Share table presented herein.

Lease Revenue, Security Distributions, Financing Revenue and Operating Results

Our operating performance is derived primarily from leases of real property assets, distributions from our portfolio of equity investments, financing revenue from our loan agreement with Black Bison WS and the operating results of Mowood. Total lease revenue, security distributions, financing revenue and operating results generated by our investments for the three months ended September 30, 2014 was \$8.7 million compared to \$6.5 million in the prior-year period, and \$24.1 million for the nine months ended September 30, 2014 compared to \$18.8 million in the prior-year period.

Lease revenues for the three and nine months ended September 30, 2014 increased \$1.6 million and \$4.1 million, respectively, compared to the prior-year periods due mainly to the addition of the Portland Terminal lease, which was added in January 2014. Additionally, due to annual CPI escalations in the Pinedale Lease Agreement, required annual minimum rent for 2014 increased by approximately 1.53 percent or \$76 thousand per quarter, accounting for the remaining increase over prior year. Included in lease revenue is \$638 thousand related to the PNM Lease Agreement for the three month periods ended September 30, 2014 and 2013. For the nine month periods ended September 30, 2014 and 2013, lease revenue includes \$1.9 million related to the PNM Lease Agreement. Please refer to Note 4 for additional discussion of the PNM Purchase Agreement and its effects on the consolidated financial statements included in this quarterly report on Form 10-Q.

Cash distributions received from our portfolio of equity securities for the three and nine months ended September 30, 2014 increased by \$355 thousand and \$551 thousand, respectively, compared to the prior-year periods. In 2013, Lightfoot withheld paying distributions pending the Initial Public Offering ("IPO") of their subsidiary, Arc Logistics. Subsequent to the IPO, which occurred in the 4th quarter of 2013, Lightfoot resumed paying cash distributions to its partners. Vantacore distributions decreased during the first half of 2014 due to weather-imposed reductions in operations, however, distributions increased in the third quarter to remain in line with expectations through September 30, 2014.

The \$413 thousand and \$579 thousand in financing revenues for the three and nine months ended September 30, 2014, respectively, represents interest earned as a result of the new Loan Agreements with Black Bison WS, which were executed in March and July 2014.

Sales revenue, cost of sales, and operating expenses excluding depreciation and amortization, represent Mowood's natural gas operations. For the three months ended September 30, 2014, Mowood's net operations decreased by approximately \$74 thousand over the prior-year period. Sales revenue and cost of sales for the three months ended September 30, 2014 decreased approximately \$195 thousand and \$127 thousand, respectively, compared to the prior-year period. The decrease is attributable to weather-imposed delays in construction for the three months ended September 30, 2014 compared to the prior-year period.

For the nine months ended September 30, 2014, Mowood's net operations, excluding depreciation and amortization, increased by approximately \$16 thousand over the prior-year period. For the nine months ended September 30, 2014, sales revenue and cost of sales increased approximately \$433 thousand and \$486 thousand, respectively, compared to the prior-year period. The increase is attributable to an increase in usage due to colder winter months during early 2014.

Operating Expenses

Total expenses from operations were \$1.8 million for each of the three-month periods ended September 30, 2014 and 2013, respectively, and \$4.6 million and \$4.4 million for the nine-month periods ended September 30, 2014 and 2013, respectively. The most significant components of the variance from the prior year are outlined in the following table and explained below:

Expenses from Operations

	For the Three Months Ended			For the Nine Months Ended		
	September 30, 2014	September 30, 2013	Increase/(Decrease)	September 30, 2014	September 30, 2013	Increase/(Decrease)
Management fees	\$ 813,921	\$ 647,380	\$ 166,541	2,359,054	1,937,588	421,466
Asset acquisition expense	102,591	640,302	(537,711)	139,540	725,513	(585,973)
Professional fees/directors' fees/other	924,981	509,511	415,470	2,110,814	1,719,777	391,037
Totals	\$ 1,841,493	\$ 1,797,193	\$ 44,300	\$ 4,609,408	\$ 4,382,878	\$ 226,530

Management fees for the three and nine months ended September 30, 2014 were \$814 thousand and \$2.4 million, respectively. The increase, as compared to the three and nine months ended September 30, 2013, is due to the increase in the asset base associated with the January 2014 acquisition of the Portland Terminal Facility, and the March and July 2014 fundings of the financing notes receivable.

Asset acquisition expense represents costs incurred throughout the year as we pursue potential opportunities to expand our REIT-qualified asset portfolio (“Deal Costs”). Deal Costs not associated with a completed transaction are expensed. Acquisition expense for the three months ended September 30, 2014 decreased \$538 thousand compared to the three months ended September 30, 2013. Acquisition expense for the nine months ended September 30, 2014 decreased \$586 thousand compared to the comparable prior-year period. The overall decrease results from having consummated three transactions in the three quarters of 2014. In contrast, no transactions were completed in the corresponding period of 2013 resulting in an increase in deal costs being expensed. Generally, we expect asset acquisition expenses to be repaid over time from income generated by acquisitions. However, any particular quarter may reflect significant expenses arising from third party legal, engineering and consulting fees that are incurred in the early to mid-stages of due diligence.

The remaining expenses, which include professional and directors’ fees and other expenses, totaled \$925 thousand and \$2.1 million for the three and nine months ended September 30, 2014. The increase of \$415 thousand and \$391 thousand as compared to the three and nine months ended September 30, 2013, respectively, is chiefly driven by an increase in professional fees, which in the current period include legal and accounting costs associated with additional SEC filings and other technical issues.

Non-Controlling Interest Attributable to Adjusted EBITDA Items

The EBITDA adjustment for non-controlling interest of \$954 thousand and \$934 thousand for the three months ended September 30, 2014 and 2013, respectively, and \$2.9 million and \$2.8 million for each of the nine-month periods ended September 30, 2014 and 2013, respectively, represents Prudential’s 18.95 percent ownership interest in Pinedale LP. Pinedale LP’s EBITDA for the three and nine months ended September 30, 2014 increased by \$106 thousand and \$315 thousand, respectively, as compared to the same periods in the prior year, accounting for the change in the non-controlling interest adjustment. The increase in Pinedale LP’s EBITDA is attributable to the CPI-adjusted increase in revenue of \$76 thousand and \$229 thousand for the three and nine months ended September 30, 2014, as well as a decrease in expenses of \$30 thousand and \$86 thousand, respectively.

Other Income and Expense

Other income and expense consists of four primary components: Distributions and dividends not recorded as income (return of capital adjustments); Net realized and unrealized gain on securities; Depreciation and amortization; and Interest expense. The two largest contributors to the variance from prior periods are the changes in realized and unrealized gain or loss on securities and the increase in depreciation expense. Total other income and expense, net, for the three months ended September 30, 2014 was unfavorable by \$947 thousand as compared to the three months ended September 30, 2013. For the nine months ended September 30, 2014, total other income and expense, net, was unfavorable by \$1.1 million as compared to the same period ended September 30, 2013. The following discussion expands on the impact of each of these four components on other income and expense.

Distributions and Dividends Not Recorded as Income

The following table summarizes the breakout of cash distributions and dividends reported as income on the income statement. The table shows gross cash distributions and dividends received from our investment securities, less the amounts considered return of capital and not recorded as income:

Gross Distributions and Dividends Received From Investment Securities

	For the Three Months Ended		For the Nine Months Ended	
	September 30, 2014	September 30, 2013	September 30, 2014	September 30, 2013
Distributions and dividends received from investment securities	\$ 866,768	\$ 512,019	\$ 1,710,556	\$ 1,159,367
Less: distributions and dividends not recorded in income (recorded as a cost reduction)	822,062	56,313	(10,682)	(575,210)
Net distributions and dividends reported as income	\$ 1,688,830	\$ 568,332	\$ 1,699,874	\$ 584,157

Net Realized and Unrealized Gain on Securities

The decrease in realized and unrealized gain from trading and other equity securities for the three and nine months ended September 30, 2014 totaled \$1.7 million and \$1.1 million, as compared to the three and nine months ended September 30, 2013, respectively. For the three months ended September 30, 2014, the Company recognized an unrealized loss on the fair value adjustment of our other equity securities of \$865 thousand. For the nine months ended September 30, 2014, the Company recognized an unrealized gain on the fair value adjustment of our other equity securities of \$2.5 million. After receiving 2013 tax reporting information concerning the equity securities that we hold, it was determined that \$863 thousand of previously recognized gain should be reclassified as dividend income. For the three and nine months ended September 30, 2013, the \$872 thousand and \$3.6 million

gain, respectively, are attributable to the sale of the Company's remaining trading securities along with the fair value adjustment of other equity securities which remain in our investment portfolio.

Depreciation and Amortization

Depreciation expense increased \$380 thousand and \$1.0 million for the three and nine months ended September 30, 2014, respectively, as compared to the prior year periods. The increase is mainly attributable to the newly acquired Portland Terminal Facility. Included in depreciation expense is \$570 thousand for the three month periods ended September 30, 2014 and 2013, attributable to EIP leased asset. For the nine month periods ended September 30, 2014 and 2013, \$1.7 million of depreciation expense attributable to EIP leased asset is included in depreciation. Please refer to Note 4 for additional discussion of the PNM Purchase Agreement and its effects on the consolidated financial statements included in this quarterly report on Form 10-Q.

Interest Expense

Interest expense was approximately \$978 thousand and \$2.6 million for the three and nine months ended September 30, 2014, respectively, as compared to \$818 thousand and \$2.5 million for the three and nine months ended September 30, 2013, respectively. The year-to-date increase is mostly attributable to the deferred debt costs which were expensed upon the termination of the KeyBank Revolver facility during the third quarter.

Non-Controlling Interest Attributable to Depreciation, Amortization and Interest Expense

The non-controlling interest adjustment represents Prudential's 18.95 percent ownership interest in Pinedale LP. The depreciation, amortization and interest expense attributable to non-controlling interest was \$565 thousand and \$568 thousand for the three months ended September 30, 2014 and 2013, respectively, and \$1.7 million for each of the nine-month periods ended September 30, 2014 and 2013.

Net Income Attributable to CORR Stockholders

Net income attributable to common stockholders was \$1.9 million and \$7.0 million, or \$0.06 and \$0.23 per common share, for the three and nine months ended September 30, 2014, respectively, as compared to \$439 thousand and \$2.9 million, or \$0.02 and \$0.12 per common share, for the three and nine months ended September 30, 2013, respectively. The current year increase for both the third quarter and the year-to-date period is attributable to the addition of the Portland Terminal Facility and the funding of the Black Bison financing notes. For the three-month periods ended September 30, 2014 and 2013, \$69 thousand of net income is attributable to the PNM Lease Agreement. Income attributable to the PNM Lease Agreement of \$206 thousand is included in net income for the nine-month periods ended September 30, 2014 and 2013. Please refer to Note 4 for additional discussion of the PNM Purchase Agreement and its effects on the consolidated financial statements included in this quarterly report on Form 10-Q.

Book Value per Share

Analysis of Equity	September 30, 2014	December 31, 2013
Warrants, no par value; 0 and 945,594 issued and outstanding at September 30, 2014 and December 31, 2013, respectively (5,000,000 authorized)	\$ —	\$ 1,370,700
Capital stock, non-convertible, \$0.001 par value; 31,644,877 shares issued and outstanding at September 30, 2014 and 24,156,163 shares issued and outstanding at December 31, 2013 (100,000,000 shares authorized)	31,645	24,156
Additional paid-in capital	217,893,695	173,441,019
Accumulated retained earnings	—	1,580,062
Accumulated other comprehensive income	650,547	777,403
Total CorEnergy Equity	\$ 218,575,887	\$ 177,193,340
Shares outstanding	31,644,877	24,156,163
Book Value per Share	\$ 6.91	\$ 7.34

As of September 30, 2014, total equity attributable to CorEnergy stockholders increased by approximately \$41.4 million to \$218.6 million from \$177.2 million as of December 31, 2013. The increase in CORR equity consists of approximately \$45.7 million in net proceeds from our January 2014 follow-on equity offering of 7,475,000 shares of common stock and comprehensive income attributable to CORR stockholders of approximately \$6.9 million, net of dividends paid of approximately \$11.2 million.

FFO

As defined by the National Association of Real Estate Investment Trusts, FFO represents net income (computed in accordance with GAAP), excluding gains (or losses) from sales of depreciable operating property, real estate-related depreciation and amortization (excluding amortization of deferred financing costs or loan origination costs) and after adjustments for unconsolidated partnerships and joint ventures. FFO is a supplemental, non-GAAP financial measure.

We present FFO because we consider it an important supplemental measure of our operating performance and believe that it is frequently used by securities analysts, investors and other interested parties in the evaluation of REITs, many of which present FFO when reporting their results. FFO is a key measure used by the Company in assessing performance and in making resource allocation decisions.

FFO is intended to exclude GAAP historical cost depreciation and amortization of real estate and related assets, which assumes that the value of real estate diminishes ratably over time. Historically, however, real estate values have risen or fallen with market conditions, and that may also be the case with the energy infrastructure assets in which we invest. Because FFO excludes depreciation and amortization unique to real estate and gains and losses from property dispositions and extraordinary items, it provides a performance measure that, when compared year over year, reflects the impact to operations from trends in base and participating rent, company operating costs, development activities and interest costs, thereby providing perspective not immediately apparent from net income.

We calculate FFO in accordance with standards established by the Board of Governors of the National Association of Real Estate Investment Trusts, in its March 1995 White Paper (as amended in November 1999 and April 2002), which may differ from the methodology for calculating FFO utilized by other equity REITs and, accordingly may not be comparable to such other REITs. FFO does not represent amounts available for management's discretionary use because of needed capital for replacement or expansion, debt service obligations or other commitments and uncertainties. FFO should not be considered as an alternative to net income (computed in accordance with GAAP), as an indicator of our financial performance or to cash flow from operating activities (computed in accordance with GAAP), as an indicator of our liquidity, or as an indicator of funds available for our cash needs, including our ability to make distributions or to service our indebtedness.

AFFO

AFFO is a supplemental, non-GAAP financial measure which we define as FFO plus transaction costs, amortization of debt issuance costs, deferred leasing costs, above-market rent, and certain costs of a nonrecurring nature, less maintenance, capital expenditures (if any), amortization of debt premium and other adjustments as deemed appropriate by Management. Management uses AFFO as a measure of long-term sustainable operational performance.

We target a total return of 8 percent to 10 percent per annum on the infrastructure assets that we own, measured over the long term. We intend to generate this return from the base rent of our leases plus growth through acquisitions and participating portions of our rent and financing interest revenue. If we are successful growing our AFFO per share of common stock, we anticipate being able to increase distributions to our stockholders. In addition, the increase in our AFFO per share of common stock should result in capital appreciation.

AFFO does not represent amounts available for management's discretionary use because such amounts are needed for capital replacement or expansion, debt service obligations or other commitments and uncertainties. AFFO should not be considered as an alternative to net income (computed in accordance with GAAP), as an indicator of our financial performance or to cash flow from operating activities (computed in accordance with GAAP), as an indicator of our liquidity, or as an indicator of funds available for our cash needs, including our ability to make distributions or service our indebtedness.

In light of the per share AFFO growth that we foresee in our operations, we are targeting 1 percent to 3 percent annual dividend growth. We can provide no assurances regarding our total return or annual dividend growth. See "Risk Factors" for a discussion of the many factors that may affect our ability to make distributions at targeted rates, or at all.

The following table presents a comparison of FFO and AFFO for the three and nine months ended September 30, 2014 and September 30, 2013:

FFO and AFFO Reconciliation				
	For the Three Months Ended		For the Nine Months Ended	
	September 30, 2014	September 30, 2013	September 30, 2014	September 30, 2013
Net Income (attributable to CorEnergy Stockholders):	\$ 1,888,418	\$ 439,452	\$ 6,999,485	\$ 2,922,277
Add:				
Depreciation	3,237,261	2,857,412	9,573,809	8,571,860
Distributions received from investment securities	864,575	510,963	1,697,319	1,142,486
Income tax expense, net	324,883	1,105,125	1,581,275	2,367,823
Less:				
Net distributions and dividend income from investment securities	1,686,637	567,276	1,686,637	567,276
Net realized and unrealized loss on trading securities	—	(567,276)	—	(251,213)
Net realized and unrealized gain (loss) on other equity securities	(865,470)	1,439,296	2,512,738	3,834,306
Non-controlling interest attributable to FFO reconciling items	411,455	411,384	1,234,365	1,234,146
Funds from operations (FFO)	\$ 5,082,515	\$ 3,062,272	\$ 14,418,148	\$ 9,619,931
Add:

FFO per share	\$ 0.16	\$ 0.13	\$ 0.46	\$ 0.40
AFFO per share	\$ 0.16	\$ 0.14	\$ 0.44	\$ 0.39

FFO

FFO for the three months ended September 30, 2014 and September 30, 2013 totals approximately \$5.1 million and \$3.1 million, respectively. FFO for the nine months ended September 30, 2014 and 2013 totals approximately \$14.4 million, and \$9.6 million, respectively. FFO was calculated in accordance with the National Association of Real Estate Investment Trust's definition, above. In addition, we have made adjustments for noncash items impacting net income for the three and nine months ended September 30, 2014 by eliminating net realized and unrealized losses on other equity securities of approximately \$865 thousand and a net realized and unrealized gain of \$2.5 million, respectively; adding distributions received from investment securities of approximately \$865 thousand and \$1.7 million, respectively; and adding back income tax expense of approximately \$325 thousand and \$1.6 million, respectively. For the three and nine months ended September 30, 2013, adjustments we made for noncash items impacting net income by eliminating a net realized and unrealized gain on other equity securities of approximately \$1.4 million and \$3.8 million, respectively; adding distributions received from investment securities of approximately \$511 thousand and \$1.1 million, respectively; and adding back income tax expense of approximately \$1.1 million and \$2.4 million, respectively. For the three-month periods ended September 30, 2014 and 2013, \$69 thousand of net income is attributable to the PNM Lease Agreement. Income attributable to the PNM Lease Agreement of \$206 thousand is included in net income for the nine-month periods ended September 30, 2014 and 2013. Included in the amount being added back to depreciation expense is \$570 thousand of depreciation attributable to EIP leased asset for three month periods ended September 30, 2014 and 2013. For the nine month periods ended September 30, 2014 and 2013, \$1.7 million of depreciation attributable to the EIP leased asset is included in the amount added back for depreciation. Please refer to Note 4 for additional discussion of the PNM Purchase Agreement and its effects on the consolidated financial statements included in this quarterly report on Form 10-Q.

AFFO

AFFO for the three months ended September 30, 2014 and September 30, 2013 totals approximately \$5.0 million and \$3.3 million, respectively. AFFO for the nine months ended September 30, 2014 and September 30, 2013 totals approximately \$13.7 million and \$9.4 million, respectively. In addition to the adjustments outlined in the AFFO definition above, we have included an adjustment to back out lease revenue associated with the EIP investment. This adjustment totals \$543 thousand for the three month periods ended September 30, 2014 and 2013, and \$1.6 million for the nine month periods ended September 30, 2014 and 2013. Based on the economic return to CorEnergy resulting from the sale of our 40 percent undivided interest in EIP, we determined that it was appropriate to eliminate the portion of EIP lease income attributable to return of capital, as a means to more accurately reflect the EIP lease revenue contribution to CorEnergy-sustainable AFFO. CorEnergy believes that the portion of the EIP lease revenue attributable to return of capital, unless adjusted, overstates CorEnergy's distribution-paying capabilities and is not representative of sustainable EIP income over the life of the lease. Please refer to Note 4 for additional discussion of the PNM Purchase Agreement and its effects on the consolidated financial statements included in this quarterly report on Form 10-Q.

FEDERAL AND STATE INCOME TAXATION

In 2013 we qualified, and in January 2014 elected (effective as of January 1, 2013), to be treated as a REIT for federal income tax purposes (which we refer to as the "REIT Election"). Because certain of our assets may not produce REIT-qualifying income or be treated as interests in real property, those assets are held in wholly-owned Taxable REIT Subsidiaries ("TRSs") in order to limit the potential that such assets and income could prevent us from qualifying as a REIT.

For years ended in 2012 and before, the distributions we made to our stockholders from our earnings and profits were treated as qualified dividend income ("QDI") and return of capital. QDI is taxed to our individual shareholders at the maximum rate for long-term capital gains, which through tax year 2012 was 15 percent and beginning in tax year 2013 will be 20 percent. The Company has elected to be taxed as a REIT for 2013 rather than a C corporation and generally will not pay federal income tax on taxable income of the REIT that is distributed to our stockholders. As a REIT, our distributions from earnings and profits will be treated as ordinary income and a return of capital, and generally will not qualify as QDI. To the extent that the REIT had accumulated C corporation earnings and profits from the periods prior to 2013, we have distributed such earnings and profits in 2013. A portion of our normal distribution was characterized for federal income tax purposes as a distribution of those earnings and profits from non-REIT years and have been treated as QDI.

As a REIT, the Company holds and operates certain of our assets through one or more wholly-owned TRSs. Our use of TRSs enables us to continue to engage in certain businesses while complying with REIT qualification requirements and also allows us to retain income generated by these businesses for reinvestment without the requirement of distributing those earnings. In the future, we may elect to reorganize and transfer certain assets or operations from our TRSs to the Company or other subsidiaries, including qualified REIT subsidiaries.

The Company's trading securities and other equity securities are limited partnerships or limited liability companies which are treated as partnerships for federal and state income tax purposes. As a limited partner, the Company reports its allocable share of

taxable income in computing its own taxable income. The Company's tax expense or benefit is included in the Consolidated Statements of Income based on the component of income or gains and losses to which such expense or benefit relates. Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. A valuation allowance is recognized if, based on the weight of available evidence, it is more likely than not that some portion or all of the deferred income tax asset will not be realized. Due to our decision to structure ourselves as a REIT in December 2012, it is expected that for the year ended December 31, 2013 and future periods, any deferred tax liability or asset will be related entirely to the assets and activities of the Company's TRSs.

If we cease to qualify as a REIT, the Company, as a C corporation, would be obligated to pay federal and state income tax on its taxable income. Currently, the highest regular marginal federal income tax rate for a corporation is 35 percent. The Company may be subject to a 20 percent federal alternative minimum tax on its federal alternative minimum taxable income to the extent that its alternative minimum tax exceeds its regular federal income tax.

SEASONALITY

The Company's wholly-owned subsidiary, Mowood, experiences a substantial amount of seasonality in gas sales. As a result, overall sales and operating income are generally higher in the first and fourth quarters and lower during the second and third quarters of each year. Due to the seasonal nature of Mowood, operating results for the interim periods are not necessarily indicative of the results that may be expected for the full year.

ASSET PORTFOLIO AND RELATED DEVELOPMENTS

Descriptions of our asset portfolio and related operations, other than our remaining portfolio of private equity securities, are included in Notes 3, 4 and 5 in the Notes to the Consolidated Financial Statements included in this report. This section provides an overview of the asset portfolio, including our remaining private equity securities, and any related developments as of September 30, 2014.

Pinedale LGS

The Pinedale Lease Agreement with Ultra Wyoming, a subsidiary of Ultra Petroleum, has a fifteen year initial term and may be extended for additional five-year terms at the sole discretion of Ultra Wyoming. During the initial fifteen-year term, Pinedale LP will receive a fixed minimum annual rent of \$20 million, adjusted annually for changes based on the consumer price index ("CPI"), subject to a 2 percent annual cap. The annual adjustment for changes in the CPI commenced January 1, 2014, resulting in an increase in quarterly rent of \$76 thousand. In January 2014, we also became eligible for a variable rent component based on the volume of liquid hydrocarbons and water that flowed through the Pinedale LGS in a prior month. As of September 30, 2014, no variable rent based on throughput was due under the Pinedale Lease Agreement. The maximum annual rental payments under the Pinedale Lease Agreement during the initial fifteen-year term are \$27.5 million.

Portland Terminal Facility

In January 2014, our subsidiary, LCP Oregon, acquired the Portland Terminal Facility for \$40 million in cash. LCP Oregon entered into the Lease Agreement, relating to the use of the Portland Terminal Facility, (the "Portland Lease Agreement") with Arc Terminals, an indirect wholly-owned subsidiary of Arc Logistics. During the fifteen-year initial term, Arc Terminals will make base monthly rental payments and variable rent payments based on the volume of liquid hydrocarbons that flowed through the Portland Terminal Facility in the prior month.

The base rent in the initial year of the Portland Lease Agreement increases to approximately \$418 thousand per month starting with August 2014 and each month thereafter. The base rent is also expected to increase during the initial year of the Portland Lease Agreement based on a percentage of specified construction costs incurred by LCP Oregon, estimated at \$10 million. Assuming such improvements are completed, the base rent will increase by approximately \$95,800 per month. As of September 30, 2014, additional spending on terminal-related projects totaled approximately \$4.4 million. The base rent is not influenced by the flow of hydrocarbons.

Variable rent will result from the flow of hydrocarbons through the Portland Terminal in excess of a designated threshold of 12,500 barrels per day of oil equivalent. Variable rent is capped at 30 percent of total rent, which would be the equivalent of the Portland Terminal Facility's expected throughput capacity. As of September 30, 2014, no variable rent based on throughput was due under the Portland Lease Agreement. The Portland Lease Agreement also contains certain renewal provisions, as well as certain termination and purchase rights subject to advance notice and required payments to the Company as provided therein.

Black Bison Financing Notes Receivable

On March 13, 2014, our subsidiary Corridor Bison entered into a Loan Agreement with Black Bison WS, pursuant to which Corridor Bison agreed to loan Black Bison WS up to \$11.5 million. Corridor Bison increased the Loan to \$12 million on July 24, 2014.

On July 24, 2014, our subsidiary, CorEnergy BBWS, Inc. entered into a TRS Loan Agreement, pursuant to which CorEnergy BBWS agreed to loan Black Bison WS up to \$3.3 million.

The proceeds of the Loan and the TRS Loan (collectively, the "Financing Notes Receivable") were used by Black Bison WS and its affiliates to finance the acquisition and development of real property that will provide water sourcing, water disposal, or water treating and recycling services for the oil and natural gas industry. Total borrowings under the Financing Notes Receivable total \$15.3 million. For additional information concerning this transaction, see Note 5 in the Notes to the Financial Statements included in this report.

Eastern Interconnect Project

The Eastern Interconnect Project ("EIP") is leased to Public Service Company of New Mexico ("PNM") under a triple-net lease. The EIP lease terminates on April 1, 2015, with the sale of the Company's 40 percent undivided interest for \$7.7 million. The remaining lease payments were received in full on January 2, 2014. Please refer to Note 4 for additional discussion of the PNM Purchase Agreement and its effects on the consolidated financial statements included in this quarterly report on Form 10-Q.

Mowood, Omega Pipeline

Mowood Corridor, Inc is a wholly-owned taxable REIT subsidiary of the Company and represents less than 2 percent of the Company's total assets. Mowood, LLC ("Mowood") is wholly-owned by Mowood Corridor, Inc. and is the holding company of Omega Pipeline Company, LLC ("Omega Pipeline"). Omega Pipeline owns and operates a natural gas distribution system in Fort Leonard Wood, Missouri. Omega Pipeline serves the natural gas needs of Fort Leonard Wood and other customers in the surrounding area. The Company provides financing to Mowood secured by Omega Pipeline's real property assets which allows for a maximum principal balance of \$5.3 million. At September 30, 2014 and December 31, 2013, the principal balance outstanding was \$5.3 million. For additional information on Omega Pipeline, see Note 9 in the Notes to the Financial Statements included in this report.

Private Security Assets

As of September 30, 2014, investments in securities of energy infrastructure companies represented less than 10 percent of the Company's total assets. Following is a summary of the fair values of the other equity securities that we held at September 30, 2014 as they compare to the fair values at December 31, 2013.

Fair Value of Other Equity Securities					
Portfolio Company	Fair Value at September 30, 2014	Fair Value at December 31, 2013	\$ Change	% Change	
Lightfoot	\$ 12,192,415	\$ 10,528,743	\$ 1,663,672	15.80%	
VantaCore	\$ 13,228,462	\$ 12,775,578	\$ 452,884	3.54%	

Lightfoot

The fair value of Lightfoot Capital Partners, LP and Lightfoot Capital Partners GP LLC (collectively, "Lightfoot") as of September 30, 2014 increased \$1.7 million, or 15.8 percent, as compared to the valuation at December 31, 2013, primarily due to the change in value of Arc Logistics' publicly traded shares and a decrease in the Company's marketability discount. The Company received a third quarter distribution of approximately \$267 thousand.

Based on the minimum quarterly distributions that Arc Logistics plans to make following its IPO as described in its IPO prospectus, and ongoing discussions with Lightfoot's management, the Company currently expects to receive distributions of approximately \$900 thousand from Lightfoot during fiscal 2014, provided there are no reductions in the distributions to fund other uses of capital at Lightfoot. The Company expects distributions to be funded primarily by Lightfoot's distributions from Arc Logistics. However, both the ability of Arc Logistics to make quarterly distributions and the amount of such distributions will be dependent on Arc Logistics' business results, and neither Arc Logistics nor Lightfoot is under any obligation to make such distributions. Accordingly, there can be no assurance that our expectations concerning 2014 distributions from Lightfoot will be realized.

VantaCore

The fair value of VantaCore as of September 30, 2014 increased \$453 thousand, or 3.5 percent, as compared to the fair value at December 31, 2013. The increase is primarily due to market value changes in the MLP comparable companies. VantaCore met the minimum required quarterly distribution of \$0.475 per share in cash for the quarter ended September 30, 2014. The Company received approximately \$597 thousand in cash during the three-month period ended September 30, 2014. On October 3, 2014, the Company announced that, effective as of October 1, 2014, Natural Resource Partners L.P. completed its acquisition of VantaCore Partners LP. The Company's portion of the sale proceeds was approximately \$13.6 million, of which \$2.9 million will be held in escrow pending certain post-closing obligations or the expiration of certain time periods. The Company will elect to pay income tax on the VantaCore sale as cash distributions are received. The first cash tax payment attributable to VantaCore, estimated at approximately \$3 million, is expected to be paid in the fourth quarter. The remaining cash tax payments are expected to be made in subsequent years as distributions from escrow are received. For additional details, please refer to Item 2.01 of the Company's Current Report on Form 8-K, filed with the SEC on October 7, 2014.

LIQUIDITY AND CAPITAL RESOURCES

At September 30, 2014, we had approximately \$23.0 million available for future investment. The \$23.0 million represents cash and Regions Revolver availability totaling approximately \$35.5 million less the following near-term commitments: current maturities of long-term debt of \$3.5 million; accounts payable and accrued liabilities totaling \$3.3 million; and the remaining commitment of approximately \$5.6 million in additional capital improvements in connection with the Portland Terminal Facility. On October 1, 2014 we received approximately \$10.7 million in proceeds related to the sale of VantaCore, as discussed Note 17 in the Notes to the Consolidated Financial Statements included in this report. There are opportunities that are in preliminary stages of review, and consummation of any of these opportunities depends on a number of factors beyond our control. There can be no assurance that any of these acquisition opportunities will result in consummated transactions. As part of our disciplined investment philosophy, we plan to use a moderate level of leverage, approximately 25 percent to 50 percent of assets. We may invest in assets subject to greater leverage, but which we would expect to be non-recourse to us.

Pinedale LP has a \$70 million secured term credit facility with KeyBank that provides for monthly payments of principal and interest. Outstanding balances under the credit facility generally accrue interest at a variable annual rate equal to LIBOR plus 3.25 percent. The credit facility is secured by the Pinedale LGS. Pinedale LP is obligated to pay all accrued interest monthly and is further obligated to pay monthly principal payments, which began March 7, 2014, equal to 0.42 percent of the amount outstanding on the loan as of March 1, 2014, or \$294 thousand.

In December of 2012, we executed interest rate swap derivatives covering \$52.5 million of notional value, to add stability to our interest expense and to manage our exposure to interest rate movements on our LIBOR based borrowings. Interest rate swaps involve the receipt of variable-rate amounts from a counterparty in exchange for us making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount.

Our registration statement covering a proposed maximum aggregate offering price of \$300 million of securities was declared effective on June 8, 2012, and we previously conducted a common equity offering under the registration statement in December 2012. The common equity offering closing on January 21, 2014 further reduced the total available for sale pursuant to that registration statement by the gross proceeds of the offering and exercise of the underwriter's over-allotment option. The remaining availability as of September 30, 2014 is \$161.7 million of maximum aggregate offering price of securities.

On May 8, 2013, the Company entered into the \$20 million KeyBank Revolver to fund general working capital needs and provide short-term acquisition financing, as needed. The primary term of the facility was three years with the option for a one-year extension. Outstanding balances under the revolving credit facility (the "KeyBank Revolver") accrued interest at a variable annual rate equal to LIBOR plus 4.0 percent or the Prime Rate plus 2.75 percent. The amount available to be drawn under this facility was subject to a borrowing base limitation. As of September 30, 2014 there had been no borrowings against the Revolver. The agreement was terminated on September 26, 2014.

On September 26, 2014 the company entered into a \$30 million revolving credit facility (the "Regions Revolver") with Regions Bank. The credit facility has a maturity of September 26, 2018. We intend to use the facility to fund general working capital needs and if necessary, to provide short-term financing for the acquisition of additional real property assets. The amount available to be drawn under this facility is subject to a borrowing base limitation. If we were to use the Regions Revolver to provide short-term financing for an acquisition, we would expect the assets acquired to be taken into consideration in determining the borrowing base. For the first six months the facility will bear interest on the outstanding balance at a rate of LIBOR plus 4.00 percent. On March 26, 2015 the interest rate will be determined by a grid anticipated to be LIBOR plus 3.25 percent to 4.00 percent. As of September 30, 2014 and December 31, 2013 approximately, \$452 thousand and \$0, respectively, in net deferred debt issuance

costs related to the Regions Revolver are included in the accompanying Consolidated Balance Sheets. For the three and nine months ended September 30, 2014 and 2013, approximately \$0, is included in interest expense within the accompanying Consolidated Statements of Income. As of September 30, 2014, there had been no borrowings against the Regions Revolver.

As of March 31, 2013 the securities in our portfolio only included illiquid securities issued by privately-held companies. During the three-month period ended March 31, 2013, we liquidated approximately \$4.3 million of our remaining publicly traded securities, which generated cash of approximately \$4.6 million. We reported the gains on the securities transactions as Other Income rather than Income from Operations.

On October 15, 2013, Mowood entered into a Revolving Note Payable Agreement with a maximum borrowing base of \$1.5 million. As of September 30, 2014, there was no outstanding indebtedness pursuant to this agreement and Mowood was in compliance with all applicable covenants. This note terminated on October 15, 2014 and was subsequently renewed for the same principal amount and with substantially the same terms. See Note 17 of the Notes to the Consolidated Financial Statements for further details.

We do not plan to make additional investments in securities (other than short-term, highly liquid investments to be held pending acquisition of real property assets) and intend to liquidate our securities portfolio in an orderly manner.

CONTRACTUAL OBLIGATIONS

The following table summarizes our significant contractual payment obligations as of September 30, 2014.

	Contractual Obligations				
	Notional Value	Less than 1 year	1-3 years	3-5 years	More than 5 years
Long-term debt	\$ 67,942,000	\$ 3,528,000	\$ 64,414,000	\$ —	\$ —
Interest payments on long-term debt		2,287,898	2,693,278	—	—
Totals		\$ 5,815,898	\$ 67,107,278	\$ —	\$ —

The Mowood Note Payable is not included in the above table because it relates to indebtedness under a line of credit with no fixed repayment schedule.

In December of 2012, Pinedale LP entered into a \$70 million secured term credit facility with KeyBank to finance a portion of the acquisition of the Pinedale LGS. The primary term of the credit facility is three years, with an option for a one-year extension. Beginning with March 2014, Pinedale LP became obligated to make monthly principal payments, equal to 0.42 percent of the amount outstanding on the loan as of March 1, 2014, or \$294 thousand. Interest accrues at a variable annual rate equal to LIBOR plus 3.25 percent. For purposes of the above presentation, interest payments were calculated using the LIBOR rate in effect at September 30, 2014 (0.153 percent).

OFF-BALANCE SHEET ARRANGEMENTS

We do not have, and are not expected to have, any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

MAJOR TENANTS

As of September 30, 2014, the Company had three significant leases. The table below displays the impact of each lease on total leased properties, based on the net book value of real estate investments, as of September 30, 2014 and 2013 and total lease revenues for the three and nine months ended September 30, 2014 and 2013.

	As a Percentage of					
	Leased Properties		Lease Revenues			
	As of September 30, 2014	As of December 31, 2013	For the Three Months Ended		For the Nine Months Ended	
		September 30, 2014	September 30, 2013	September 30, 2014	September 30, 2013	
Pinedale LGS	79.95%	94.23%	70.59%	88.68%	72.45%	88.68%
Portland Terminal Facility	16.77%	—	20.53%	—	18.44%	—
Public Service of New Mexico	3.28%	5.77%	8.88%	11.32%	9.11%	11.32%

Pinedale LGS. In December of 2012, the Company entered into a lease guaranteed by Ultra Petroleum, which is material to the Company. In view of the fact that Ultra Petroleum leases a substantial portion of the Company's net leased property which is a significant source of revenues and operating income, its financial condition and ability and willingness to satisfy its obligations under its lease with the Company, are expected to have a considerable impact on the results of operation going forward.

Ultra Petroleum is currently subject to the reporting requirements of the Exchange Act and is required to file with the SEC annual reports containing audited financial statements and quarterly reports containing unaudited financial statements. The audited financial statements and unaudited financial statements of Ultra Petroleum can be found on the SEC's website at www.sec.gov. The Company makes no representation as to the accuracy or completeness of the audited and unaudited financial statements of Ultra Petroleum, but has no reason to doubt the accuracy or completeness of such information. In addition, Ultra Petroleum has no duty, contractual or otherwise, to advise the Company of any events that might have occurred subsequent to the date of such financial statements which could affect the significance or accuracy of such information. Summary Consolidated Balance Sheets and Consolidated Statements of Operations for Ultra Petroleum are provided in Note 4 in the Notes to the Consolidated Financial Statements included in this report.

Portland Terminal Facility. In January 2014, the Company entered into a triple-net lease with Arc Terminals for use of the Portland Terminal Facility, which is guaranteed by Arc Logistics. Arc Logistics has an equity market capitalization of approximately \$319 million as of August 14, 2014, based on the number of common and subordinated units outstanding as of Arc Logistics' second quarter 2014 quarterly report on Form 10-Q filed with the SEC on August 14, 2014.

Arc Logistics is currently subject to the reporting requirements of the Exchange Act and is required to file with the SEC annual reports containing audited financial statements and quarterly reports containing unaudited financial statements. The audited financial statements and unaudited financial statements of Arc Logistics can be found on the SEC's web site at www.sec.gov. The Company makes no representation as to the accuracy or completeness of the audited and unaudited financial statements of Arc Logistics but has no reason to doubt the accuracy or completeness of such information. In addition, Arc Logistics has no duty, contractual or otherwise, to advise the Company of any events that might have occurred subsequent to the date of such financial statements which could affect the significance or accuracy of such information. None of the information in the public reports of Arc Logistics that are filed with the SEC is incorporated by reference into, or in any way form, a part of this filing.

EIP. The Company's investment in EIP is leased under a net operating lease with various terms to PNM. PNM is a subsidiary of PNM Resources Inc. ("PNM Resources"), which is currently subject to the reporting requirements of the Exchange Act and is required to file with the SEC annual reports containing audited financial statements and quarterly reports containing unaudited financial statements. The audited financial statements and unaudited financial statements of PNM Resources can be found on the SEC's website at www.sec.gov. The Company makes no representation as to the accuracy or completeness of the audited and unaudited financial statements of PNM Resources but has no reason to doubt the accuracy or completeness of such information. In addition, PNM Resources has no duty, contractual or otherwise, to advise the Company of any events that might have occurred subsequent to the date of such financial statements which could affect the significance or accuracy of such information. None of the information in the public reports of PNM Resources that are filed with the SEC is incorporated by reference into, or in any way, form part of this filing.

DIVIDENDS

Our portfolio of real property assets, investment securities and other holdings generate cash flow to us from which we pay distributions to stockholders. For the period ended September 30, 2014, the sources of our stockholder distributions include lease and financing revenue from our real property assets and distributions from our investment securities. The amount of any distribution is recorded by the Company on the ex-dividend date. The characterization of any distribution for federal income tax purposes will not be determined until after the end of the taxable year.

In consideration of the additional lease income available to support distributions following our acquisition of the Portland Terminal Facility, our Board of Directors approved an increase in our quarterly distribution payable to stockholders, effective beginning from the date we closed on such acquisition, to \$0.13 per share from \$0.125 per share. This increase was reflected in the first quarter 2014 distribution of \$0.129 per share that we announced on April 30, 2014 (prorated for the partial quarter following the closing of the Portland Terminal Facility on January 21, 2014).

Our second quarter 2014 distribution of \$0.13 per share was announced on July 31, 2014 and reflects a full quarter in which the Portland Terminal Facility acquisition was closed.

Our third quarter 2014 distribution of \$0.13 per share was announced on October 31, 2014. For additional details, please refer to Note 17 of the Notes to the Consolidated Financial Statements.

In 2013, CorEnergy changed its fiscal year as part of its transition from a business development company to a REIT. As a result of this change, the dividend payment schedule for calendar 2014 will vary from prior years. Going forward, the Company intends to maintain a quarterly February/May/August/November dividend payment cycle. Dividend payouts may be affected by cash flow requirements and remain subject to other risks and uncertainties. There is no assurance that we will continue to make regular distributions.

A REIT is generally required to distribute during the taxable year an amount equal to at least 90 percent of the REIT taxable income (determined under Internal Revenue Code section 857(b)(2), without regard to the deduction for dividends paid). We intend to adhere to this requirement in order to maintain our REIT status. The Board of Directors will continue to determine the amount of any distribution that we expect to pay our stockholders.

IMPACT OF INFLATION AND DEFLATION

Deflation can result in a decline in general price levels, often caused by a decrease in the supply of money or credit. The predominant effects of deflation are high unemployment, credit contraction and weakened consumer demand. Restricted lending practices could impact our ability to obtain financings or to refinance our properties and our tenants' ability to obtain credit. During inflationary periods, we intend for substantially all of our tenant leases and loans to be designed to mitigate the impact of inflation. Generally our leases and loans include rent and interest escalators that are based on the CPI, or other agreed upon metrics that increase with inflation.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our business activities contain elements of market risk. We consider fluctuations in the value of our securities portfolio to be our principal market risk. With respect to our equity securities as of September 30, 2014, there were no material changes to our market risk exposure as compared to the end of our preceding fiscal year ended December 31, 2013.

As of September 30, 2014, the fair value of our securities portfolio (excluding short-term investments) totaled approximately \$25.4 million. We estimate that the impact of a 10 percent increase or decrease in the fair value of these securities, net of related deferred taxes, would increase or decrease net assets applicable to common shareholders by approximately \$1.6 million.

Our equity and debt securities are reported at fair value. The fair value of securities is determined using readily available market quotations from the principal market, if available. Because there are no readily available market quotations for many of the securities in our portfolio, we value a large portion of our securities at fair value as determined in good faith under a valuation policy and a consistently applied valuation process, which has been approved by our Board of Directors. Due to the inherent uncertainty of determining the fair value of securities that do not have readily available market quotations, the fair value of our securities may differ significantly from the fair values that would have been used had a ready market quotation existed for such securities, and these differences could be material.

Long-term debt used to finance our acquisitions may be based on floating or fixed rates. As of September 30, 2014, we had \$64.4 million in long-term debt (net of current maturities). The Company uses interest rate swaps to manage its interest rate risk. The valuation of these instruments is determined using widely accepted valuation techniques including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including forward interest rate curves. The fair values of interest rate swaps are determined using the market standard methodology of netting the discounted future fixed cash payments and the discounted expected variable cash receipts. The variable cash receipts are based on an expectation of future interest rates (forward curves) derived from observable market interest rate forward curves. Changes in interest rates can cause interest charges to fluctuate on our variable rate debt. Variable rate debt as of September 30, 2014, was comprised of \$15.7 million under the KeyBank \$70 million term credit facility after giving effect to our interest rate swap agreements. A 100 basis point increase in current LIBOR rates would result in an additional \$129 thousand of interest expense for the nine months ended September 30, 2014, while a 100 basis point decrease in current LIBOR rates would reduce interest expense for such period by \$133 thousand. As of September 30, 2014, the fair value of our hedge derivative totaled approximately \$578 thousand. We estimate that the impact of a 100 basis point increase in the one-month LIBOR rate would increase net assets applicable to common shareholders by \$2.0 million, while a decrease of 100 basis points would decrease net assets by \$994 thousand as of September 30, 2014. See Note 14 of the notes to our consolidated financial statements included in this report for further information concerning quantitative valuations and the qualitative aspects of our use of interest rate hedge swaps to manage interest rate risk.

We consider the management of risk essential to conducting our businesses. Accordingly, our risk management systems and procedures are designed to identify and analyze our risks, to set appropriate policies and limits and to continually monitor these risks and limits by means of reliable administrative and information systems and other policies and programs.

ITEM 4. CONTROLS AND PROCEDURES

Conclusion Regarding Effectiveness of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Accounting Officer (our principal executive and principal financial officers, respectively), we have evaluated the effectiveness of our disclosure controls and procedures, as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended, as of the end of the period covered by this report. Based on that evaluation, these officers concluded that our disclosure controls and procedures were effective to ensure that the information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC rules and forms, and is accumulated and communicated to our management, including our Chief Executive Officer and Chief Accounting Officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in internal control over financial reporting

There has been no change in the Company's internal control over financial reporting, as defined in rule 13a-15(f) and 15d-15(f) of the Exchange Act, that occurred during the quarterly period ending September 30, 2014 that has materially affected, or is reasonably likely to materially affect, its internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are not currently subject to any material legal proceedings, nor, to our knowledge, is any material legal proceeding threatened against us.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, "Item 1A. Risk Factors" in our Annual Report on Form 10-K, as amended, for the year ended December 31, 2013, which could materially affect our business, financial condition or future results. The risks described in this report and in our Annual Report, as amended, on Form 10-K are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition or future results.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

We did not sell any securities during the nine months ended September 30, 2014 that were not registered under the 1933 Act.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

None.

ITEM 6. EXHIBITS

Exhibit No.	Description of Document
10.20	Revolving Credit Agreement by and among the Company and Regions Bank, et al; dated September 26, 2014 (1)
31.1	Certification by Chief Executive Officer pursuant to Exchange Act Rule 13a-14(a), as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002, is filed herewith.
31.2	Certification by Chief Accounting Officer pursuant to Exchange Act Rule 13a-14(a), as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002, is filed herewith.
32.1	Certification by Chief Executive Officer and Chief Financial Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, is furnished herewith.
101	The following materials from CorEnergy Infrastructure Trust, Inc.'s Quarterly Report on Form 10-Q for the three and nine months ended September 30, 2014, formatted in XBRL (Extensible Business Reporting Language): (i) the Consolidated Balance Sheets, (ii) the Consolidated Statements of Income, (iii) the Consolidated Statements of Cash Flows and (iv) the Notes to Consolidated Financial Statements.

CERTIFICATIONS

I, David J. Schulte, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of CorEnergy Infrastructure Trust, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
